A REMARKABLE SAFETY RECORD by these members of the Columbia Cellulose Company Ltd.'s instrument department earned them a banquet from the company, last Saturday night at the Canadian Legion. The group has gone without a lost-time accident since the mill began which, as of May 31, represented 3,290 days or more than 500,000 man-hours. Fire chief and safety inspector Robert Kelsey, told them "you have respected the responsibility placed on you." Hugh Muir, maintenance supervisor, thanked the crew for "the terrific attitude you have shown to the company's safety program." On behalf of the department, instrument mechanic Tony J. Toth thanked the company for the banquet. —Staff photo by Gary Oakes.

Lucille Ball breaking in new leading man, chap named Hope

By BOB THOMAS

HOLLYWOOD (AP)—Lucille Ball is breaking in her first new leading man in nine years. Fellow named Bob Hope.

The famed pair are making a movie—the real, big-screen kind for theatres, not the living room box. The provocative title is "The Facts of Life."

The facts of Lucille's' life are that she is as happy as could be expected, that she is plunging into work following her marital and professional divorce from Desi Arnaz.

We shared lunch in her dressing room at the Desilu-Cahuenga lot, where she toiled for years in 'I Love Lucy.'. She and Desi still own the studio, along with two others.

Lucille seemed restrained and contemplative as she talked about the present and future. She appeared less willing to glance at the past.

"I love working with Bob," she said. "He's always' such fun and such a professional. It sounds funny, but I always feel like a real part of show business when I'm working with him.

"Doing a feature again after all these years is kind of hard. I had forgotten what pains they take to make movies. Everything moves so slowly. We took 10 hours to do a scene the other day. In TV we did an entire show in one hour. That's the way I like to work with comedy. Give me a script and an audience and do it fast while it's still fresh."
