OL. III, NO. 167 PRINCE RUPERT, B.C., WEDNESDAY, JULY 17, 1912. PRICE FIVE CENTS

CITY SEWER DEPTH: PREMIER'S TRIP: HEAT DUE

SHALLOW SEWER SYSTEM ADOPTED

At a sparsely attended meeting of the residents of Section 4, the City Council last night discussed an important question of sewers. The idea of the sewer system as at first called was that the whole matter of a sewer system, depths, extent and other important details should be discussed, but the attendance was so small that it was decided to postpone the matter until a later date. The idea of the sewer system as at first called was that the whole matter of a sewer system, depths, extent and other important details should be discussed, but the attendance was so small that it was decided to postpone the matter until a later date.

FOREST IS ABLAZE BEYOND MILE NINETY

Far spread bush fires are working havoc in the woods around Kitsumkalum, and damage to the telegraph system causes an interrupted service. All around the neighborhood of Mile 90 and beyond the bush fire is sweeping, but so far no accounts of serious loss to settlers are recorded. Efforts are being made to maintain the telegraph service.

NEW ZEALAND FROZEN MUTTON IN VANCOUVER

Some months ago trial shipments of frozen mutton were sent from Auckland to Vancouver. On this sailing of the Zealandia there are 750 carcasses of frozen mutton, the largest shipment ever.

sent from New Zealand to Western Canada. It is confidently expected—judging from the expressions of opinion as to the quality of the samples which preceded this shipment—that Western Canada will be an expanding market for New Zealand's frozen meat. This meat will enjoy the preferential tariff.

MILLIONS SPENT IN GEMS IN STATES

New York, July 16.—During the twelve months just ended diamonds, pearls and other gems to the value of \$39,445,298 were brought into the United States through this port alone. Based upon the estimate that 95 per cent. of the total imports of the country are entered here, it took more than \$41,000,000 worth to satisfy the American craving for gems this year.

THE WEATHER.
For twenty-four hours ending 5 a. m., July 17th: Barometer, 30.228; maximum temperature, 76; minimum temperature, 52.

TORRID TOMORROW.

(Special to Daily News.)
Victoria, July 17.—The Weather Bureau reports tomorrow's temperature will probably be the highest yet registered this year on the coast. Ninety degrees, which occurred in 1899, has been the maximum for July in the past sixteen years, and this record is likely to be equalled tomorrow.

BORDEN SPEECH IS BIG BOOSTER FOR INVESTORS

(Special to Daily News.)
London, July 17.—Conferences between the home and Canadian ministers today were informal in character, and nothing was given out. Canadian topics continue uppermost in the general discussion, and this is reflected

in money circles today, where Canadian prospectuses of various kinds, principally western enterprises, are the leading feature. The striking figures and optimistic tone of Premier Borden's speech at the Colonial Institute has had a stimulating effect regarding Canadian investments.

WAYS OF THE WILY SALMON ASCERTAINED

Visiting the Skeena salmon fishings at present, after having spent some time on the Naas, are Dr. Gilbert, an expert of Stanford University, and J. P. Babcock, the Provincial government's fishery expert, whose visit was mentioned by the Premier. Study of the sockeye salmon, its habits and foods as far as possible without fins to follow the fish is being undertaken, and a great deal of information of scientific value which can be applied to the perfecting of fishery science is being accumulated.

WESTHOLME CO. TO BUILD PLANT FOR DOUGHTY

Contract for the \$200,000 cold storage plant to be erected for Sir George Doughty's great fishery enterprises at Alford Bay, on the Queen Charlotte Islands, near Skidegate, has been awarded to the Westholme Lumber Co. The building will be of concrete and steel and will take six months to erect. It is to be three storeys high. C. E. Putnam of the Westholme Company is in charge of the work.

SPLENDID PROFIT SHOWN IN GRAIN

(Special to Daily News.)
Winnipeg, July 17.—The Grain Growers' Grain Company, official organization of the Western Canadian farmers, is holding its annual meeting today. The year's trading shows a net profit of \$121,614, against \$69,000 for the previous year, and but \$790 five years ago. Paid up capital is \$586,000, and after paying a 10 per cent. dividend \$60,000 can be added to the reserve fund, which now totals \$200,000. The company has purchased three hundred million feet of British Columbia timber and is going into the lumber business.

PREMIER OFF TO GRANBY IN JOHN

Decorated from stem to stern with bunting, the Prince John left at 10:30 today with the government party for Granby Bay. The weather was glorious and the harbor like the proverbial mill pond. Excellent connection was made between the train and the boat. The Premier and party arrived in the city on the morning's train from Hazelton at 9 o'clock and stepped on to the Prince John, which was scheduled to leave at 10. Accompanying Sir Richard were W. H. Hayward, M. P. P.; Mr. and Mrs. McCrae, Captain C. H. Nicholson, Mrs. Nicholson, Mrs. Thomson and William Manson, M. P. P. F. M. Sylvester and wife, of the Granby Smelter, and Frank McNamara, of the Vancouver Province, were also passengers, the latter representing his paper on the northern trip of the government party.

TYPEWRITER TAKING HOLD IN CHINA

Importers of typewriting machines report that recent changes in Chinese political and commercial organization are increasing their sales. There has been a steady increase in the use of typewriters among progressive Chinese business houses for some time and the movement toward modern things generally following the revolution is stimulating the adoption of all such modern business conveniences. Foreign firms in the open ports are also increasing the use of typewriters. Until recently many of them corresponded in handwriting and it has been difficult to break some of the old and conservative firms away from such methods. However, about 500 typewriters are now in use among such firms in Hongkong at present and at least 450 of these machines are American. Purely Chinese firms are now using perhaps 50 machines and more are being sold daily. Business college instruction in various Hongkong schools is producing a large and increasing force of stenographers among young Chinese and Eurasian people, so that the possible use of typewriters to advantage is greatly increasing.

ARRIVED THIS MORNING BY GEORGE

The following were among the arrivals on the Prince George this morning: C. C. Van Arsdol, Duncan Ross, Alderman Bullock, Webster and Mrs. Webster, J. B. Gottstein, Mr. Ahran, Mr. Sharp, Mr. Cowsmasher, Mr. Colley, S. J. Smythe, Mr. Naylor, Mr. Lucas, Mr. Boggs, F. B. Deacon, Seton Carr, Mr. Ford, H. Baly, F. P. Cowley, J. H. Blythe, Fred Heager, Rev. Joseph McCoy, P. M. Peterson, B. Jelich, Mrs. Damer, F. Bistrom, Mr. Driver, Mr. and Mrs. Smart, Miss Martinson, Miss Dawson, Mrs. R. H. Imhoff, Professor Oudland.

Pantorium Pioneer Cleaners. Phone 4.

EAGLES ARE TO GIVE SMOKER

The Fraternal Order of Eagles are giving another of their popular smokers on July 31st at the K. of P. Hall. A boxing contest will be one of the features, and all those who remember the enjoyable time spent at the last affair will be sure to be there to take in the fun.

PRINCE RUPERT THIS TIME LAST YEAR

Forest fires up river disturb telegraph service. Warning issued against sunken rock suspected in Queen Charlotte Sound, a little to northwest of Bremner Island. Alderman Douglas voices objections to Chinese laundrymen working on Sundays. New C. P. R. Princess Mary admired by many at the waterfront. City Solicitor Peters predicts no small debts court for Prince Rupert for at least twelve months. City Council fears water famine, and Col. Davis first proposes in detail plans for Morse Creek augmentation of supply.

T THE BIG TOWN PLANNING CONGRESS

Winnipeg, July 16.—Yesterday M. M. Seymour, Regina; Dr. Charles Hodgetts, of Ottawa, medical advisor to the Commission of Conservation, and Mrs. Union Fellows Bacon of Indiana addressed the Town Planning Congress on "Housing." Today Duke of Connaught delivered address, followed by Louis Fitz of St. Paul, speaking on the "City Beautiful"; Guy Wilfred Taylor, of London, England, also gave an address, speaking on "Town Planning." There are many other prominent supporters of the movement who will speak tomorrow, these being C. Ford of Harvard University, who will talk on the social aspect of town planning; Antrim Haldiman, town planning engineer of Philadelphia, who will speak on the "Financial Problems of Town Planning," and F. L. Olmsted of Brookline, who will discuss "Four Cardinal Points of Town Planning."

FREMONT CRANDALL IS NOT DEAD

The rumor regarding a fatal accident at Hazelton, in which young Fremont Crandall was reported as having been killed, is unfounded. The young man is injured, but not seriously, and is doing well, much to the relief of his many friends here.

SPANISH PRINCE IN LOVE IS SUICIDE

Paris, July 15.—The European edition of the New York Herald says that Prince Pignatelli d'Aragon shot himself last night with a revolver, and lies in a grave condition. The attending physicians are unable to say if he will recover. The prince returned recently from the United States, where he fell in love with an American girl, but the difference in their religion, the Herald says, stood in the way of marriage, and it is understood that despair led the prince to attempt his life.

EARNINGS OF THE C. N. R. FOR PAST YEAR

The earnings of the Canadian Northern Railway west of Port Arthur reflect the expansion of the west, showing an increase over last year of nearly 30 per cent. The business year of the company ends this week, and the gross earnings amount to \$19,538,600, as against \$15,199,200 for 1911, an increase of \$4,339,400. These revenues are derived from the railway alone. With the subsidiary interests, such as the express company, telegraph company, elevator company, etc., the gross earnings show \$21,000,000, an increase of four and a half millions.

MERELY MABEL REMARKS

That Jack Beatty looks even jollier since the Government wharf was declared open.
That it's a funny thing that the Prince Rupert City Council should tax Bibles when they get into all countries in the world duty free.
That the Montreal - Chicago heat wave seems to have crawled across to Prince Rupert.
That the parties camping across the harbor and sleeping out of doors are to be envied just now.
That this is great weather for roses, first, last or only in between times.

REGULATIONS IN REGARD TO CONSUMPTION

Toronto, July 16.—When the regulations governing the notification of cases of tuberculosis are put into force the Provincial Board of Health will place itself in the position of advisor to each individual victim of the "white plague."
Physicians must promptly notify the medical officer of health in their respective municipalities of every case of tuberculosis attended. The local officer reports to the Provincial board and Dr. J. W. S. McCulloch, chief officer of health, is now arranging to have useful information regarding the treatment of the disease forwarded to each patient reported to the board.
The regulations also give the health authorities power to remove to a sanatorium any person whose condition is deemed a menace to the health of others.
C. C. Van Arsdol, divisional G. T. P. engineer, was a passenger on the Prince George this morning.
Launch Alice B., W. J. Thomas, Phone Green 391. Govt. Wharf. Harry Howson, the well known mining man, is in the city.

TODAY'S LATEST NEWS IN A NUTSHELL

Forest fires raging at Kitsumkalum. Settlers safe. City Council adopts shallow depth sewer system for Section One subject of protest. Old Country makes good at Bisley. Canadian investments improve after Premier Borden's London speech. Great grain growing profits result in B. C. investment. Premier McBride proceeds to Port Granby after trip to Hazelton. Tomorrow predicted to be hottest day ever experienced on coast. Frightful heat in Stockholm drives runners insane.

D. M. Bain, photographer, has severed all connection with the Peerless Studio and is now located at the Panama Studio, 613 Third avenue (above Burns' meat market). Portrait and commercial work. Enlargements done at reasonable prices. 2t

A. H. Brunson, a mining man of Copper City, is in town displaying some very fine ore from his claims, the Gold King and Silver Tip, located in that promising mining district.
