WHEN LESLIE CARON married stage director Peter Hall last year in London it meant a honeymoonless wedding for both of them. Screen commitments for her and stage dates for him kept them anchored in London. They were married at the Marylebone Town Hall in London. They met on the same set.

JFK against resumption of nuclear device tests

WASHINGTON (AP) — President Kennedy is reported to have decided against any resumption of nuclear testing this year, regardless of whether the Russians demonstrate at Geneva they want no foolproof agreement.

The president's position, as outlined to congressional leaders, is that the United States should do nothing to prejudice the case it expects to make in the United Nations and the West is ready to accept a policed ban while the Russians insist on an inspection veto.

Kennedy is sending his chief negotiator, Arthur Dean, back to Geneva next wek to find out if the Russians still are sticking to their original position. If they are, he said Dean will come home quickly.

There is little hope within the administration that the Russians will change their position.

Accordingly, the plan is to dramatize this last-chance rejection when the General Assembly meets in September.

The UN timetable usually keeps it in session until December.

Kennedy is represented as reluctant to announce any resumption of tests while the international organization remains in session.

There is the additional factor in this reported decision that it would take a couple of months to prepare a test shot if a presidential go-ahead is given.

Opinion within the administration is that the United States would lose little advantage by waiting a few more months before it moves into the field of perfecting types of smaller-scale nuclear weapons.

Republican congressional leaders view the matter differently.

China to have "vast army"

LOS ANGELES (AP)—The Australian ambassador to the United States predicts that Red China will have a vast army with nuclear weapons within 25 years.

Sir Howard Beale, addressing a meeting Tuesday, said Red China would have a population of 1,000,000,000 people and the third largest industrial output in the world by 1986.

"But the per capita acreage of her arable land is relatively low," he said, "so that she has economic as well as ideological reasons for casting envious eyes upon 'the rice basket' comprising the countries adjacent to her."

EMPEROR-SIZED CIGARETTE is lit by Charles Boyer for Sophia Loren. The pair have acted romantic leads together. Boyer, reputed to be the world's greatest screen lover, and Sophia, referred to as the perfect woman, form a romantic team which has considerable appeal to their fans.

NEW METHOD

NEWCASTLE, England (CP) — Ralph Dyson, a pollution committee official, outlined a plan to take sewage to a 'point of no return' involving submarine pipelines to carry sewage sevaral miles out to sea.

HAT PROBLEM

LONDON (CP)— A shortage of hard bowler hats is described as "serious" by Men's Wear Magazine. Not enough young men are willing to learn the secrets of making the British businessman's favorite headgear, it says.

New Zealand to establish Vancouver trade offices

AUCKLAND (CP)—New Zealand will soon establish a trade office in Vancouver. It will be additional to the trade commissioner's office in Montreal, which up to now has served all New Zealand trade interests in Canada.

Announcing the extended representation, Trade Minister J. R. Marshall said the rapidly-developing western provinces of Canada offered an expanding market for New Zealand products.

"The new office will aid expansion of our trade with this region more effectively than is possible from the existing Montreal post more than 2,500 miles away," he said.

Regional development, accompanied by a rising standard of living, offered encouraging prospects of increased sales, particularly in meat and selected manufactured goods.

A large proportion of imports into the western provinces entered through Vancouver rather than through eastern Canada and the regular direct shipping services between New Zealand and the Pacific Coast gave New Zealand a considerable freight advantage over European exporters.

New Zealand has a long history of trade with Canada, said Marshall. Export receipts for goods from New Zealand shipped to Canada during the last six years averaged just over $11,600,000, mainly for lamb and beef, wool, sausage casings, hides and skins. Average imports over the same period were about $18,560,000 a year.

Top Russian predicts no Berlin war

HALIFAX (CP)—Mikhail Georgadze, secretary of the supreme Soviet presidium, said here Tuesday night he does not think there will be war over Berlin.

"The war ended 16 years ago," he said. "What we want now is to have a peace treaty with the two existing states in Germany and put an end to the remnants of the war."

Mr. Georgadze said, "We think that every one of the problems regarding Berlin can be solved by peaceful negotiations."

He thought it was probable there would be negotiations soon between the United States and the Soviet Union.

The Russian official was here on a stop-over from a Latin American visit.

BIRD SCARERS

PRESTWICK, Scotland (CP) — The aviation ministry is using tape-recordings of bird distress calls to scare gulls away from Prestwick Airport. The birds have been the cause of several accidents. Experts have to use recordings of locally-caught birds, because their calls vary from one area to another.

OLDTIMERS RETURN occurred recently when Lillian (left) and Dorothy Gish arrived from Hollywood. One of the most famous acting sister teams of the silent movie days, the Gish sisters were the heart throbs of the United States. With the advent of the talking machine, they faded from the picture. Now a comeback is rumored as Lillian some time ago played a part in a film "Cobweb."

Satisfied customer

He still can't quite believe it. His VW gives him a better ride than cars costing twice as much. He's found out about the Volkswagen's independent suspension. And its torsion bars. It's enough for most owners to know that the VW can rip over rough roads flat-out, and stay steady as a rock.

That the VW provides ample comfort for the average family (mother, dad and two or three growing youngsters). And that it cuts their motoring costs in half.

But if you want all the details, we have them. Maybe you could be a satisfied VW customer. Come and see.

VOLKSWAGEN CANADA LTD.

This is your nearest Volkswagen dealer. He is part of a network of 346 efficient VW service centres right across Canada.

Trade between nations is a two-way street. West Germany is one of Canada's best customers. And every Volkswagen sold in this country helps Canada to sell Germany more Canadian goods.
