ALBERNI

A GREAT SEAPORT IN THE MAKING!

Only When Canada Stops Growing Will Investors Cease to Make Money on Land

Do you think Canada is going to stop growing soon? No, of course not. She has only fairly started.

And as Canada grows so must new centres of population develop.

The place for the investor to make big profits is in some town or city where development is inevitable.

Take Alberni for Instance

Alberni is as certain to become a large shipping centre as Vancouver. Situated on the west coast of Vancouver Island—some eight to twenty-four hours nearer the east than is Vancouver—Alberni will shortly see the largest boats of the Pacific docking at her waterfront.

With the Canadian Pacific Railway already there, and the Canadian Northern Railway rushing its tracks toward the city as fast as possible,

Alberni will develop within the next year in a way that will surprise you all.

Your chance to buy a lot in Alberni is something which you cannot afford to overlook.

We do not ask you to buy because of the few reasons we have given above.

But we do want you to get our new booklet about Alberni. It is handsomely illustrated and will tell you about Alberni in a way that is convincing. Get it today.

Lots can now be bought for \$150 on easy terms. See us and talk it over.

SEWER DEPTH IS IN ABEYANCE; NOT DECIDED

At the city council meeting Wednesday night there was further discussion regarding the depth of sewers in Section One. It was stated (not necessarily by Alderman Douglas) that the matter of the depth of the sewers was not definitely fixed at the five-foot figure, but was still in abeyance. The city is not committed to a shallow sewer policy, the sewer system being still up in the air, and some of it even quite capable of detection on the evening breeze where the broken pipes are causing trouble.

ADVICE OF MONTREAL BANK ON CITY BONDS

The Mayor the other day wrote to Manager Clancy of the Bank of Montreal here regarding the offer made the city for purchase of the treasury script remaining at 98. Mayor Newton desired the advice of the bank manager on the subject. This was given last night in a letter read in council to the effect that it would be inadvisable for the city to sell on its own responsibility bonds in the London market at present, as it would hurt the city's credit. The bank mentioned that by selling in dollar shares over the line no serious effect would be caused the city's credit, but advised the city to follow the leading of the Bank of Montreal in these financial matters.

STEPS TO IMPORTANT BILL IN HOUSE

Ottawa, July 15.—From the present plans the government will introduce and put through at the next session of Parliament the redistribution bill based upon the new census. The figures have been finally collaborated. It is probable that the bill after being presented will be referred to a special committee of the house which will limit the different constituencies and determine the units of representation in rural as distinguished from urban divisions. When the last redistribution bill was before the house not a great deal of opposition was encountered outside of the committee, where there was considerable compromise.

TURNER'S WATER COLORS SOLD DEAR

London, July 15.—The sale of Turner water colors continued at the disposal of the Taylor collection at Christie's yesterday. Forty pictures brought \$23,000. The Turner subjects in the sale have brought to date \$283,500, and the total receipts of the Taylor collection sale are now \$1,300,000.

Only one sale at Christie's in the last fifty years has exceeded this sum—the Hamilton palace sale in 1882, which totalled \$1,488,000.

GREAT MINDS FALLEN UPON EVIL DAYS

London, July 15.—The publication of the list of civil pensions granted in 1912 furnishes pathetic instances of men working for the world's benefit without deriving pecuniary advantage.

Dr. Bernard Greafeff, the well known archaeologist, received \$500 a year in consideration of the breakdown of his health; E. T. Bullen, the novelist, \$500; Antonetta Lady Russell, \$400 in consideration of straightened circumstances and in recognition of the public services of her husband, the late Sir William Howard Russell, the famous war correspondent; Ellen Lady Orchardson, widow of the painter, received \$400 in consideration of her inadequate means of support.

SHOULD POLICE LIE TO GET PRISONER'S CONFESSION?

CHIEFS IN SESSION AT OTTAWA NOT UNANIMOUS ON POINT—SHOULD LET THEM TALK BUT NOT ASK QUESTIONS.

Brantford, Ont., July 17.—The superiority of the finger print identification over the Bertillon system was the subject of an address by Inspector Foster, Ottawa, at the session of the Dominion police chiefs here last night. The finger print was first used in China, and had been adopted in England in recent years with good success. Over 60,000 identifications had been made as a result

Two young ladies were talking about a third who had just become engaged to a widower, who plays the cornet, and has four children.

"What could be worse," exclaimed one, "than four children and a cornet?"

"Nothing," said the other, "except, perhaps, six children and a trombone."

A Modern Force in Business

ADVERTISING has established a new order of things in commerce. It has become a mighty power in business progress; a complex yet comprehensible transmitter of many parts for the distribution and selling of merchandise and service.

Its function is fivefold:

To enlighten or educate—to create new wants or to satisfy old ones—to protect and foster legitimate enterprise—to establish a medium of understanding between buyer and seller as a basis for mutual profit and advantage—to prescribe an economical price and the maintenance of a fixed standard of quality.

None know better than the buying public how well these functions have been fulfilled.

Modern advertising has given us an insight into various manufacturing processes. The producer has taken us, the consumers, into his confidence and told us just how his mince meat, his flour, his clothing, etc., is made. We know why certain things should or should not be. Advertising has told us—broadened our understanding and guided our judgment.

Modern advertising has enabled us to unlock the treasure house of the world's divinest melodies through the medium of the player-piano. The motor car has lengthened the business day and brought the fragrant countryside to our door. Men shave in comfort in ten minutes where they used to take twenty. A magic

bottle provides us with cold drinks with the weather at 90 degrees or gives us a warm beverage when Jack Frost dips at 40 below.

Modern advertising has elevated the standard of business ethics. It protects the manufacturer from unscrupulous competition and the consumer from base imitation. It conserves trade—extends business—creates good will. It enables the corporation, the manufacturer or private individual on trial to take his case directly to the public, and to secure the public's judgment on his policy or character based purely upon their respective merits.

Modern advertising has opened up new opportunities to the oppressed and poor of far-off lands. It has turned an unceasing tide of immigration to new countries. It has developed nations, and made the name of the New World a promise of better things among the people of the Old.

All this advertising has done and will continue to do. It is the ever-increasing influence for the advancement of mankind—the most potent, indeed, of the many forces influencing human action.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

AVIATOR, LOST IN FOG, IS KILLED

St. Cyr, France, July 15.—Losing his way in the thick fog of early morning while attempting a monoplane flight from St. Cyr to Chalons, Aviator Bedie, one of the best known of the French flyers, was killed when he plunged head-on into a hill today. He was running nearly 30 miles an hour at the time, and it is thought that he was at least 2,000 feet in the air; his machine smashed into small pieces, and he was caught under the heavy engine and his life crushed out instantly.

FIVE BABES IN ONLY TEN MONTHS

Welland, July 15.—A Portuguese woman weighing less than 100 pounds and employed in one of the factories here, has just given birth to four children. Ten months ago she had one child so her record now is five in ten months.
