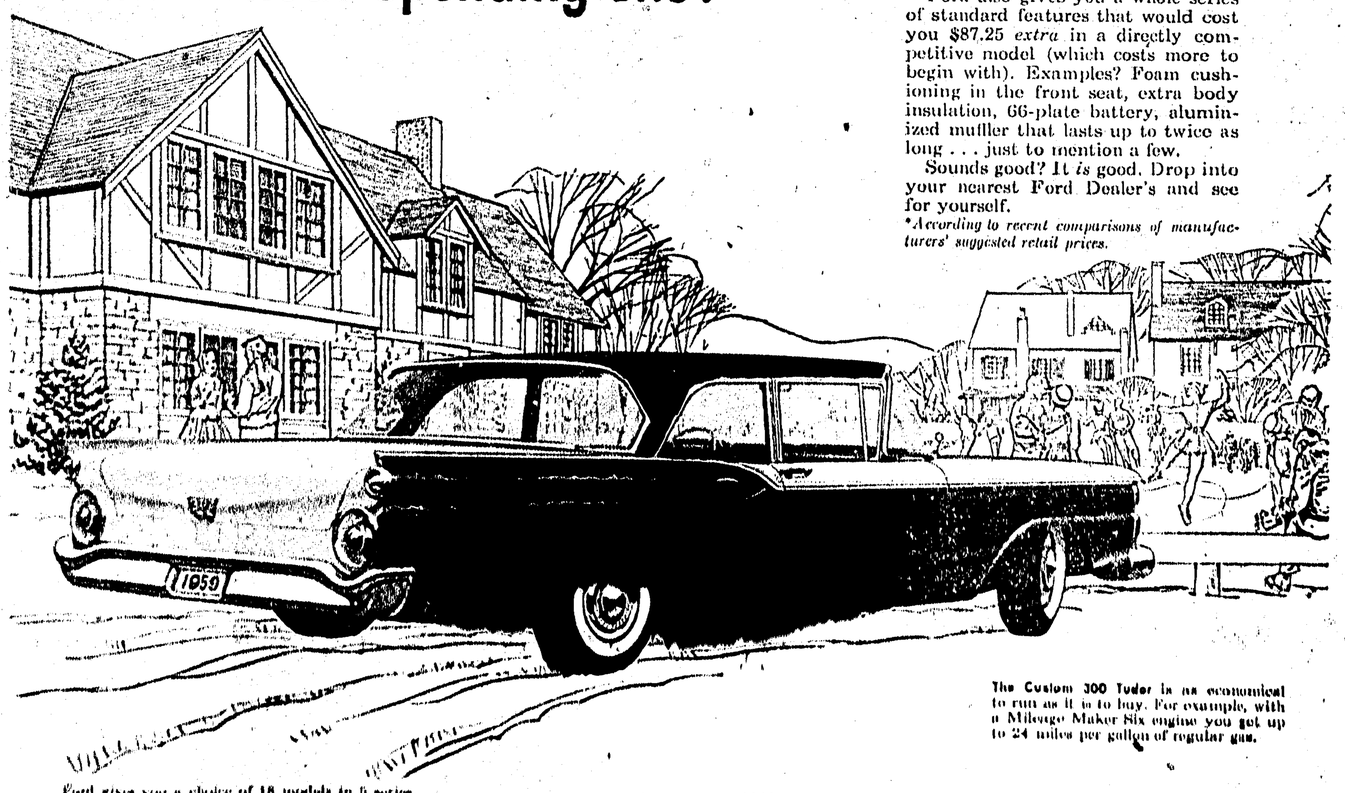
How to cut a FANCY figure ...without spending one!



The way to cut a fancy figure without spending one is to drop into your neighbourhood Ford Dealer and ask him to show you his Custom 300 Tudor Sedan with a Six engine. It's the lowest-priced of all Fords—in fact the lowest-priced car in its class.*

Ford also gives you a whole series of standard features that would cost you $87.25 *extra* in a directly competitive model (which costs more to begin with). Examples? Foam cushioning in the front seat, extra body insulation, 66-plate battery, aluminized muffler that lasts up to twice as long . . . just to mention a few.

Sounds good? It *is* good. Drop into your nearest Ford Dealer's and see for yourself.

*According to recent comparisons of manufacturers' suggested retail prices.

The Custom 300 Tudor is as economical to run as it is to buy. For example, with a Mileage Maker Six engine you get up to 24 miles per gallon of regular gas.

Ford gives you a choice of 18 models in 5 series, that start with the low-priced Custom 300 and include the Fairlane, Fairlane 500, Galaxie and Station Wagons. Six or V-8 available in all models.

(Certain features illustrated or mentioned are "standard" on some models, optional at extra cost on others.)
