HUBERT

the new city on the main line of the G.T.P. Railway in

Central BRITISH COLUMBIA

is so strategically located that it is in the centre of and commands the trade of the wonderful rich and proven agricultural lands in the famous

BULKLEY VALLEY

and also the surrounding mining districts.

¶ All other cities and towns in the Bulkley Valley will be tributary to HUBERT. All branch lines from the main line of railway will start from HUBERT.

¶ The townsite is ideally located in a bend of the Bulkley River and is free from swamps and bog, with magnificent natural drainage.

¶ The first offering of town lots is now open to the public.

¶ HUBERT has behind it the same organization, the same systematic development, the same liberal advertising that placed

FORT GEORGE

on the map and kept it there. Trains are now running to HUBERT, and the G. T. P. Station is built.

REPORTS CONFIRMED

Large Mineral Deposits Near New Town of Hubert

Hubert, B.C., Nov. 11.—The enthusiastic reports by grubstakers published several months ago in reference to the rich mineral deposits close to this city are being fully verified by competent engineers . Coal, iron and copper have been located in large commercial quantities. The Copper River district to the south has a very extensive area of copper, running from 3 to 24 per cent. The local fields cover an area of several square miles and from the analysis which has just been taken is especially adapted for steaming purposes. The iron is of the hematite variety and comes under the Bessemer limit.

Local residents are enthusiastic with the possibilities of an extensive development of the mineralized area, and are predicting a record breaking development for this town. Owing to the topography of the Bulkley Valley, practically all the branch roads which will be necessary to open up this new territory will radiate from Hubert.

Mr. John B. Rittenhouse, consulting mining engineer, of New York city, has just completed an extensive examination and is very enthusiastic, especially about the iron deposits. The Iron Mines, Limited, a Prince Rupert Corporation, has already been organized to conduct large development operations. Large monied interests have already acquired holdings, and as soon as the numerous reports which are now in compilation are accepted, the development will be on a magnitude duplicated in but few parts of the country.

Drill Hall for Victoria.

Victoria, Nov. 13. — Tenders have been invited by the Dominion government authorities for the construction of the new $250,000 drill hall in this city, announced G. H. Barnard, M. P., today. The new hall is to be erected at the corner of Bay and McBride streets and will have accommodation for three regiments of full strength.

Geo. Leek has gone on a business trip to the interior.

WERE AFTER BOWSER

Broke up the Attorney-General's Meeting Saturday Night

(Special to The Daily News.)

Vancouver, Nov. 17th.—The Ward Three Conservative meeting at which Hon. W. J. Bowser was the speaker, was broken up Saturday night by the Socialists. A suffragette also took the opportunity of advocating the women's cause. The Socialists sang their battle song and heckled the Attorney-General, taking exception to the action of the Government in the enforcement of law at the coal mines.

STRANGE CASE AT GRANBY

Body of a Man Found Floating in the Water

Granby Bay, Nov. 16.—The body of a man, without a stitch of clothing, has been found floating in the water near here. This morning the body was identified by some of the crew of the Prince Rupert who said that he was a stowaway on the ship and landed here a week ago. He is suposed to be the wild man for whom a search party was sent out on Saturday.

Another boy found another dynamite cap . Thus another boy is fingerless on his once good right hand. The thoughtless exact an awful toll for their actions.

NOTICE OF DISSOLUTION.

Take notice that the partnership of Vaughan & Youngman, carrying on business as tobacconists on Second avenue, Prince Rupert, B. C., has been dissolved and the business will in future be carried on by Charles L. Youngman.
