RETURNED SOLDIER PROSPECTORS TO BE GRUBSTAKED FREE

(Continued From Page One.)

and the theoretic aspect of prospecting.

The indirect benefits to be gained therefrom by the province are considered sufficient to justify the expenditure required.

25 Parties.

It would be proposed this season to put out twenty-five parties, each party to consist of two returned men who have been overseas. The leader to be an experienced prospector who would be in charge, and the second man a man who desires to learn prospecting.

Those selected would have to have a doctor's certificate as to physical fitness for the work. They should be vouched for as to character and willingness to work by responsible parties, and, if possible, should be recommended by one of the returned soldiers' organizations.

These prospectors would be obliged to undertake to spend a definitely stated time specified by the Department of Mines, actually in the field, and at the close of the season and so often as the Department of Mines may require would be obliged to make report by affidavit giving time, places, dates, and nature of the work on which they were engaged, together with such other information as may be required of them as to the nature of the country traversed and mineral formations, etc.

Government Provision.

The Government would undertake to provide camp equipment consisting of tent, fly, groundsheet, blankets, cooking utensils, and tools and incidentals, which at the end of contract would become the property of the prospector, or in lieu of such equipment the government would contribute $50 towards the purchase of some; the prospectors to supply their own personal equipment.

Further, the Government to make an allowance, uniform for all the province, of $1.50 for food and other expenses, etc., to each man for each day in the field, payable monthly or as might be arranged.

At the end of the season men who had served the full term of their contract undertaking, properly attested to, would be allowed, to the experienced prospector the sum of $125 and to the inexperienced man $100. In exceptional cases the Resident Engineer might remit a portion of the contract time.

Further, transportation to the nearest point on transportation lines, including pack train or boats, would be paid by the Government to men going in and coming out to starting point. So as to bring amounts expended on transportation within reasonable limits, the Government reserves discretionary right with regard to men desiring to go to districts very distant from their starting point, in which case the Government might offer to pay a portion only of such transportation costs.

Free Certificates.

The Government will provide each man with a free miner's certificate.

The services of Resident Engineers in the districts in which the prospectors are employed, and of the assay laboratories and other branches of the Department of Mines, would be available for assistance and advice to these prospectors.

All recording fees, assessment work, etc, to be paid for by the stakers, exactly the same as an ordinary prospector, and as set out in the "Mineral Act."

The following is a tentative proposal of any claims that might be staked:—

Any claims staked by such prospectors shall belong equally to the two partners, and be so recorded in the Record Office of the district.

There shall be recorded a first charge on behalf of the Government on such claim or claims equal in amount to sums advanced with interest at 6 per cent per annum, computed annually. It shall be payable to the Minister of Mines and shall be a first and paramount charge upon the claims as a debt due to the Crown in the right of the Province of British Columbia, payable 10 per cent on the output of the mine or from the mine if sold.

Children's dresses, big assortment, 25 per cent off this week at Jabour's Three Day Sale, Thursday, Friday and Saturday. 20

Sport Briefs

Vanderhoof Baseball

Vanderhoof baseball fans are very enthusiastic about pushing the ball game ahead in that town. Teams in the Mapes and Lakes districts have also been organized so the railway town couldn't fall down. The club at Vanderhoof already has fifteen players and the business men are being approached for subscriptions. The secretary has been instructed to purchase uniforms, the colors being grey with blue trimmings. The players are now practising and fast getting into shape. The first game was played last Saturday between Vanderhoof and the Lakes.

Interior League

Work has commenced at Prince George getting Duchess Park levelled off for a baseball diamond. A grandstand and bleachers are being built, with a capacity of 750 persons. The work is being carried out by the Prince George Amateur Athletic Association. There will be two baseball and two football teams at Prince George and fixtures are to be arranged with the baseball teams of Vanderhoof, McBride and Smithers which, it is expected, will prove of much interest. Baseball uniforms and equipment are expected to reach Prince George immediately.

Sailor King's Son

There was a king in days gone by who told the waves to lie down, but His Royal Highness the Prince of Wales does no such thing. In fact, the higher they splash, the better he seems to like it, according to all the reports that have been coming over the cables from Hawaii and Australia. Almost all the illustrated papers are carrying cuts of the Prince in the briny waves at some part of the world or other. He has probably inherited his love of the sea honestly from his sailor father.

Overtime Games.

Uncle Wilbert Robinson, the Baltimore butcher and boss of the Brooklyn baseballers, is the long distance king of the majors. The tendency of the Robins to go any distance after a ball game has made them the prize marathoners of the year and has run them into two world's records. With the help of the Braves they set a new mark of 26 innings and also hung up a new record of 67 innings in four days. Forty-three extra inning games so far in the big leagues have given the fans a generous allotment of bargain bills. Brooklyn has engaged in six extra inning games this year for a total of ninety innings. The St. Louis Cardinals have also gone through six long sessions but only for 64 innings. The Cubs and Braves have played in a quartette, the White Sox, Pirates, Red Sox and Athletics have engaged in three, the Tigers, the Reds and the Phils in two each and Washington, the Yanks, Cleveland and the Giants in one each. Two Browns alone havn't been forced to do overtime.

Roadwork has commenced between the New Hazelton station and the Silver Standard Mine. The whole length of the road is to be graded and put in shape for heavy traffic this summer.

Never forget to look through the classified list

WATER NOTICE
USE AND STORAGE

Take notice that the Taylor Mining Co., Ltd., whose address is 607 Credit Foncier Building, Vancouver, B. C., will apply for a licence to take and use 50 second feet, and to store 2500 acre feet of water out of Clearwater Creek, tributary to Kitsault River, which flows westerly and drains into Kitsault River about 23 miles north of Alice Arm, B. C.

The storage-dam will be located at outlet of Clearwater Lake. The capacity of the reservoir to be created is about 2500 acre feet, and it will flood about 200 acres of land. The water will be diverted from the stream at a point close to lake outlet, and will be used for power purposes upon the mine described as Wolf Mineral Claim, and lights to Alice Arm District.

This notice was posted on the ground on the seventh day of April, 1920.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The powers of this undertaking are to be exercised for power and lighting within the territory embracing all the Wolf mineral claims, the Dolly Varden mineral claims, and all of this Company's Railroad and properties and buildings, or any properties and buildings of others in and adjacent to the Alice Arm district.

The petition for the approval of the undertaking will be heard in the office of the board at a date to be fixed by the Comptroller, and that any interested person may file an objection thereto in the office of the Comptroller, or of the Water Recorder of the District.

TAYLOR MINING CO., LTD,
Applicant.
by C. B. North, Agent.

The date of the first publication of this notice is April 17, 1920.

IKEDA MINE IS FINANCED

Japanese Capital Said to be Interested in Property and Development Will Commence.

It is reported here that the Ikeda mine near Jedway on Queen Charlotte Island is to be further developed and a concentrating plant installed. Ikeda, the original owner of the property, has succeeded, it is said, in interesting Japanese capital in the project and the new company will take it over and operate it.

The Ikeda mine has shipped at various times quantities of high-grade copper ore but in getting it out a quantity of low grade had to be removed. The result is that there is a quantity of ore on the dump and a good deal more in sight. It is estimated that this low grade will run from two to four per cent copper. With an oil concentrator this can be successfully shipped at a profit.
