MERELY MABEL REMARKS

That the rumored strike on the G. T. P. seems turning out to be only a new kind of harvest excursion.

That five big boats along the waterfront look fine today, but tomorrow we shall see fifty, and never notice them.

That one swallow doesn't make summer, but one interested tourist may make summer traffic.

That a cloudy Sabbath makes for crowded churches in Prince Rupert, but sunshine empties the pews.

That the little bird is busy again about forthcoming engagements.

That with such swell new premises the Wanderers Club will become regular stay-at-homes.

LINK UP RAILWAY LINE IN SOUTH

British engineers have secured another great triumph of railway construction. It is reported that the rails have met through the Espino tunnel on the Andean section of the Southern Longitudinal Railway of Chile.

Mr. Norton Griffiths, M. P., has personally supervised the details of this great railway, which will in time help to join up New York with Valparaiso.

From Arica there is already a line going to La Paz, the capital of Bolivia, and the completion of the longitudinal railways will be the means of developing the mining possibilities of Chile.
