BELGIUM ARMY STILL HOLDING GERMANS BACK

Brussels, August 11.—Reports have reached here from many directions giving the information that the German cavalry have retreated before large forces of French soldiers. The French have cleared already a very considerable territory. The locality of this fighting is not revealed.

Official circles assert there has been no further battle in the vicinity of Liege or the town of Ibsej. No big engagements between the Germans and the allied forces are expected in Belgium now until the French and Belgians combine forces and take the offensive.

Information from the front confirms the report that the German troops have ceased their advances along the valley of the Ourthe. They have retired from that line of march. The reserves are throwing up defensive works.

The German army is making an offensive movement now north of Liege.

OFFERS PRIZE FOR FIRST GERMAN FLAG

Paris, August 11.—A substantial cash prize will go to the French soldier who captures the first German flag taken in the war. Paul Charnier, manufacturer of flags in Paris, has offered a reward of 5000 francs ($1,000) to the Frenchman, no matter what his rank, who wrests away from its bearer the first Teutonic standard. He posted the money in cash with a daily newspaper. Great enthusiasm was aroused by his offer.

COL. SAM HUGHES MAY STAY AT HOME

Ottawa, August 10.—General Lessard, district officer commanding the Toronto military district, is mentioned as the probable commander of the first Canadian army division. General Lessard had a fine record in South Africa, and is all the more likely to be chosen because the officer commanding must possess a good knowledge of French.

It is extremely unlikely that Hon. Col. Sam Hughes will take command of Canada's expeditionary force as it is the desire of the Prime Minister that he should remain at his post in Canada.

BRAZIL FEELS PINCH OF THE STRINGENCY

Rio Janeiro, Brazil, August 11. The financial situation in Brazil, which was already a very serious one, has been considerably aggravated by events in Europe.

The Brazilian loan, which was being negotiated in Europe, has now been made impossible, and it is said that the Government intends to issue treasury bills to the amount of $50,000 maximum in order to meet urgent requirements.

The Bourse has been paralyzed and the price of provisions is rising.

CUSTOMS MEN ORDERED TO SEARCH ALL BOATS

United States Will Enforce Strict Neutrality on Vessels Leaving Ports

Washington, August 11.—Carrying out President Wilson's neutrality proclamation, the following instructions were sent to all collectors of customs at ports in the United States:—

"Notify all steamship companies and masters immediately that no vessels will be permitted to clear from your port until they have filed their full manifests and also that all outgoing foreign vessels will be subject to the inspection of their papers and cargoes by United States authorities within the territorial waters of the United States.

"Every possible means will be taken to prevent shipments of articles contraband of war from the United States. The administration has not determined specially what articles outside munitions of war shall be regarded as contraband by this nation."

Britain Defines Contraband of War

Washington, August 11. — Great Britain's contraband of war proclamation has been cabled to the State Department by Ambassador Page.

It places arms, ammunition and all distinctly military supplies on the list of "absolute" contraband, and designates food, grain, money, horses and general supplies as "conditional" contraband. Everything under the latter head becomes subject to seizure when intended for the use of a power with which Great Britain is at war.

The proclamation follows the usual lines, and those issued by other powers involved in war probably will be virtually identical.

SILVER STANDARD STRIKES GOOD ORE

Showing at Present Workings on Four Hundred Foot Level Encouraging

They are getting a lot of high grade ore on the four hundred foot level at the Silver Standard mine. Steady improvement has lately been the reward of this work, and the present showings are very favorable for a large body of pay ore near at hand. It is expected that the work will run into No. 1 vein this week. They are now encountering ore in the seasm, which is a good indication that there is the large body of ore that the owners have been expecting near at hand.

Last month's work shows that over two hundred feet of tunnel, 5 x 7 fee,t has been driven and by five machine men. This is looked on as very good work as the rock lies.

McCrimmon & Stewart, lessees of several claims of the Silver Standard property, are sinking a shaft on Black River. They had to put in a syphon to relieve the workings of water flowing in from the excessive rains. The boys have taken out quite a lot of ore and such as they have mined is quite up to the uniform high quality of stuff previously extracted from Glen Mountain.

MOVED BUILDING MUST PAY DAMAGES

City Council refuses to Take Responsibility in Face of the Contract

The question of who should pay the damages claimed by business men for loss of business by the lights being cut off while the Roy building was being moved, was discussed at the City Council meeting last evening.

The city solicitor's report said the contractors, Roy & McKay, agreed to make good all damages in the written permit and they should be held responsible.

The owners made a deposit of $50 to pay the cost of cutting the street wires, but the actual cost was about $145. The extra amount will be paid, according to the statement of the light superintendent.

The Count of Monte Cristo

An extraordinary spectacular feature in five reels, "The Count of Monte Cristo," with James O'Neill in the title role, will be shown at the Westholme Opera House on Wednesday and Thursday.

The story is a familiar one and does not need to be repeated here. Suffice to say that these pictures are superbly staged and cannot fail to produce a veritable sensation. The story is completely told with none of the important incidents left out and a large attendance is expected.

FOR A HOSPITAL SHIP

A very large gathering of women took place yesterday in the K. of P. Hall to consider the raising of money for a hospital ship. Prince Rupert's share is about $500 and the ladies decided to solicit for the money. The Daughters of the Empire are taking a leading part in this but many of the ladies who do not belong to this organization turned out and are giving excellent assistance. It is to be hoped that the ladies will be well received and that everybody will be ready to contribute when they call. The money must be in by Thursday morning.

PACIFIC COAST STEAMERS

"There is no truth in the report that the Pacific Coast steamers will cease calling at Prince Rupert," said J. H. Rogers, agent for the company here. GOING MAD FROM THE TERRIFIC PAIN

Prominent Merchant Thinks His Life Was Saved By "Fruit-a-tives".

DRYSDALE, ONT., JUNE 15th, 1913.

"I am a general storekeeper at the above address, and on account of the great good I have experienced from using "Fruit-a-tives", I recommend them to my customers. They were a great boon to me, I can tell you, for about two years ago, I was laid up in bed with vomiting and a terrific pain at the base of my skull. The pain nearly drove me mad. Doctors feared it would turn to Inflammation of the Brain, but I took "Fruit-a-tives" steadily until I was cured. I have gained fifteen pounds since taking "Fruit-a-tives", and I verily believe they saved me from a disastrous illness".
