QUEEN CHARLOTTE NOTES

The launch Westover returned Monday from Prince Rupert.

The Masset Indians will arrive home from the canneries next week.

Miss Tingley, of Port Clements, returned Tuesday from a visit to Victoria.

Miss Georgia Dill and Miss Mary Dill, of Woden, left for Prince Rupert where they will attend school.

Wes Singer, of Port Clements, spent Sunday at Masset. Wes says he is going to take up a preemption on the West Coast.

The beach all along the island has been flooded with pumice stones of a peculiar color, which came in on one of the tides last week.

C. H. Curtis, of White Creek, left on Tuesday for Vancouver. Mr. Curtis is intersted in Graham Island property and intends returning again in a few weeks.

The sea-otter hunt of the Indians did not prove a success. They camped at Frederick Island and saw a number of otter, but the weather was not favorable to put to sea after them.

Wm. G. Carr came in from the Oeanda this week for supplies. Mr. Carr says the crops are looking fine in that district and also left some pohtographs he had taken of several hundred yards of ditching he has done on his place.

Prof. Milnor Roberts, engineer in charge of the development work at Camp Wilson, spent Tuesday in Masset. Mr. Roberts says the work is progressing splendidly, two diamond drills being engaged to prove up the extent of the measures, and so far the results are most encouraging.

The Islander office this week looks as if we were holding a harvest festival. Splendid samples of Graham Island products are on exhibition, notably bearded wheat grown by Mr. James Martin; potatoes by Charles Harrison; oats by Dick Davis, and red top and oats by Wm. White, Oeanda.

CANNERS CANNOT GET NETS FOR NEXT YEAR

The canners on the Skeena are already worrying over the problem which is presenting itself on next year's supply of fishing nets. On the Skeena the canners have to buy new nets every year. These are made in Ireland but the flax comes from Belgium and Russia. Already the manufacturers have refused orders for next year's nets and the canners do not know what the result will be.

Japan makes fishing nets but the fibre used in their manufacture is of very inferior quality and they only last about three weeks.

Canneries on the Skeena invest about $10,000 in nets every season.

On Rivers Inlet and along the coast canneries the net problem does not effect the packers in the same way because they can use a net two seasons but on the Skeena where there are many snags and rough water a net only lasts one season. In fact some fishermen use two and three nets in a season.
