KEEP UP FIGHT RAILWAY RATES

Hon. John Oliver Assured Vancouver Delegation He Would Not Let Matter Drop

BEHIND GOVERNMENT

VICTORIA, Nov. 13. — British Columbia has not finished its fight for equitable freight rates and will continue it until the province gets justice from the Dominion of Canada, Premier Hon. John Oliver announced to a delegation of Vancouver businessmen here.

The premier also announced that the provincial government will stand behind Vancouver business interests in a lawsuit which will be launched immediately in an attempt to stop the federal government from charging duty on goods shipped from Eastern Canada to the Pacific coast through the Panama Canal.

The government, the premier added, will use its entire influence to bring about the appointment of a Canadian customs officer in New York to aid the shipment of goods from Eastern Canada to this coast by water.

"It is only yesterday that I received a copy of the federal government order-in-council referring the rates case back to the railway board, and I have had no opportunity to study it," the premier told the delegation of business men. "But I may tell you that I do not and cannot consider this matter closed until British Columbia receives just treatment in regard to Western freight rates. I regard this as the most important question which we must face today."

J. B. Thomson, president of the Vancouver board of trade, who led the businessmen's delegation before the cabinet, urged the government to demand that the railway board again review evidence taken before when western freight rates were under consideration. He charged that vital evidence bearing on the case had been overlooked by the railway board.

Government Thanked

"We wish to express our thanks to the government for its fight against discriminatory freight rates," said Mr. Thomson. "We feel that our thanks are personally due to the premier for his hard work on this case.

"We feel disappointed that the federal government referred the rates question back to the railway board instead of deciding it itself," Mr. Thomson went on. "We have information that in considering British Columbia's case, the evidence so ably presented by Mr. McGeer regarding grades and curvature on the Canadian National Railways, was not taken into consideration in the previous findings of the railway commission. We would suggest to the government that if there is any way in which it can do it, that it bring force to bear on the federal government so that the railway commission may review the whole situation, taking into consideration not only one railway, but both the great transcontinental systems.

"We are behind this government or any government in the fight for the revival of discriminatory rates."

COULDN'T SLEEP HEART WAS BAD NERVES A WRECK

Mr. H. A. Reid, Upper Musquodoboit, N.S., writes:—"I am very thankful for the benefit I have received by using Milburn's Heart and Nerve Pills.

When I came home from overseas, in 1920, my heart was very badly affected by concussion, and my nerves were a dreadful wreck. I was very short winded, and could not possibly sleep at night, in fact, I was in such a condition I felt as if I did not wish anyone to speak to me. I thought I would try Milburn's Heart and Nerve Pills, and before I had taken two boxes I could enjoy a good night's rest as well as anyone.

There are lots of returned men who are suffering the same as I did, and I feel sure that if they would only try Milburn's Heart and Nerve Pills they will receive the same relief that I have."
