THE BLOOD IS THE STREAM OF LIFE

Pure Blood Is Absolutely Necessary To Health

"FRUIT-A-TIVES" PURIFIES

These Wonderful Tablets, Made of Fruit Juices, Are The Best Of All Tonics To Purify And Enrich The Blood.

Pure, rich blood can flow only in a clean body. Now, a clean body is one in which the waste matter is regularly and naturally eliminated from the system. The blood cannot be pure when the skin action is weak, when the stomach does not digest the food properly, when the bowels do not move regularly, when the kidneys are strained or overworked.

Pure blood is the result of perfect health and harmony of stomach, liver, bowels, kidneys and skin.

"Fruit-a-tives", by their wonderful action on all these organs, keeps the whole system as clean as Nature intended our bodies to be clean.

"Fruit-a-tives" tones up, invigorates, strengthens, purifies, cleans and gives pure, rich, clean blood that is, in truth, the stream of life.

"Fruit-a-tives" is sold by all dealers at 50c. a box, 6 for $2.50 trial size 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

JAPAN WILL HOLD CHAIN'S DOOR OPEN

Dr. Iyenaga Says Mikado's Troops Are the Hirelings of No Nation.

"If Japan decides to retain Kiao-Chau with the consent of the powers it will not violate China's 'open door,'" declared Dr. Toyokichi Iyenaga in his address at the Justice Martin J. Keogh Forum, in New Rochelle, recently. He spoke to two thousand people on "Japan in the Great War." Dr. Iyenaga has served in several capacities in Japan's diplomatic service and has been a professor in the University of Waseda and the University of Illinois.

"The European war has no direct bearing on Japan," went on the speaker. "The Mikado's regular army never would act as hirelings to any nation. We would never sacrifice their lives for sake of money. Furthermore, the European war is none of our business."

Dr. Iyenaga was asked the following questions:

"What justification is there for Japan's notice to China that no foreign loan shall be negotiated by China without Japan's consent and that no foreign adviser of the Chinese government should in the future be retained without Japan's approval. Is it not in effect proclaiming a protectorate over China?"

Dr. Iyenaga laughed. He said: "There is no justification. I do not believe Japan has made such a demand. Those rumors have been going around but until you know exactly what demands Japan has made on China it is risky to jump at conclusions."

In answer to another question, as to whether Japan intended to take any more German possessions, the speaker said:

"We are not going to take any more territory in the Far East than Germany holds there. Japan will never do anything that will violate China's integrity.

"Although Japan is at war with Germany," said he, "our people entertain a great admiration for the Germans, and I believe we will be more friendly after the war. Japan entered the war first to fulfil her obligations to Great Britain, and, second, to establish China's integrity in the 'open door' and rout the Teutonic strongholds in the Far East.

"Japan has no intention of doing anything prejudicial to the United States. America is our best friend."

PRINCESS PATRICIAS HAVE YET TO SHOW CALIBRE OF TROOPS

London, Feb. 27.—Private C. H. Craig, of Calgary, to whom belongs the distinction of being the first and only Canadian to be taken into the new Canadian hospital, was sent back in consequence of badly frost-bitten feet.

Members of General French's headquarters staff have paid frequent visits to the hospital. The Prince of Wales is also a frequent visitor and the impression the Prince has left in the camp is a good one.

The Princess Patricias have not yet had an opportunity of showing the stuff they are made of. No attacks of any importance, no bayonet charges have been performed, and so far all stories to the contrary are purely fictitious.

Speaking of German marksmanship, Private Craig declared their infantry shots were not brilliant, but of late appeared to be getting worse, due probably to the fact that insufficiently trained recruits had been brought up.

WAR PUTS STOP TO TEAS IN BERLIN

Berne, March 1.—Herr Jagow, the Berlin chief of police, has just forbidden all afternoon teas with music, recitations or lectures in hotels, cafes or restaurants throughout the capital. No reason is assigned for this sudden prohibition, which has been at once enforced.

FIND GOOD SPORT ON MT. M'KINLEY

M. Belmont and C. O. Iselin, Jr., of New York, Include Malamutes Among Trophies.

Seattle, Feb. 28.—Bronzed and toughened by six months of camp life in the Mt. McKinley district of Alaska, M. Belmont, son of August Belmont, and C. O. Iselin, Jr., of a prominent New York family, both Harvard graduates, returned from the North on the Mariposa and are registered at the Washington Hotel. Leaving Seattle in July, the two young men, accompanied by H. Carey Morgan, of New York, went to Fairbanks, where they engaged a pack train and secured H. P. Karstens, the conqueror of Mt. McKinley as guide. They have been hunting, fishing and mountain climbing for six months.

Bagged Five Grizzlies.

Five grizzlies, a number of black bears and several caribou and mountain sheep were bagged. An exceptionally fine winter added to the pleasure of the adventure, and while they are glad to be once more on paved streets, they count the days until they can make another trip into the wilderness.

Although they brought no heads nor skins of their game with them, they did bring two Malamute with them which they expect to create a sensation on the streets of New York. These dogs were the prize members of the team used in traversing the snowy wastes of Mt. McKinley. Many fine heads of caribou and mountain sheeps and the skins of grizzlies and black bears are stored at Fairbanks, from whence they will be shipped to New York next summer.

No Very Cold Weather.

"We had an exceptionally fine trip," said Mr. Belmont, at the Washington. "Everything went well from the start, even the weather conspiring to give us a memorable hunting trip. We found no really cold weather at any time during our stay, the lowest we encountered being but 25 degrees below zero."

GERMANY BELIEVED NEAR STARVATION

When Mr. Asquith told the British House of Commons recently that the war might end sooner than had been anticipated he evidently knew more about the internal condition of Germany than the general public does even yet. Unless the German press is pretending for poltical effect, as the London Times believes, that the nation faces starvation, affairs in both Germany and Austria are far more serious than was supposed. The military strength of the Germanic powers is still great, as the whirlwind campaigns in East Prussia and Bukowina prove, but while their armies tackle The Bear on the frontier with a fair measure of success the wolf of famine howls around the doors of the German people, who until a few weeks ago were assured that there was plenty of food in the country to last till harvest time. Now papers like the Lokal Anzeiger speak freely of the German people as "threatened with starvation." The Vossische Zeitung says: "We shall make the struggle against starvation in the firm consciousness that we shall pull through, even if not one single grain of wheat reaches us." In a statement written for the Hamburger Fremdenblatt Admiral Kirchoff admits that Germany has insufficient war materials, an admission scarcely necessary in face of the extraordinary effort now being made to smuggle in copper, rubber and similar contraband materials. The consuls of the United States in Austria and Germany are beginning to report serious food shortages and high prices in both countries, especially Austria. Mr. Asquith probably knew weeks ago that, as Admiral Von Tirpitz put it, the British navy was "choking" Germany.—Toronto Globe.

SINKING OF SHIPS ANGERS NORWEGIANS

Exports to Germany May Cease Till Explanation Comes.

Copenhagen, Feb. 27.—Public opinion in Norway is greatly disturbed over the torpedoing off Dover of the Norwegian steamer Regin, presumably by a German submarine, according to an article appearing in the newspaper Politiken. As soon as a report covering the disaster is received, the paper says, it will demand that the Norwegian government send to Germany a communication, the meaning of which it will be impossible to mistake.

It has been intimated, the paper says, that all exports from Norway to Germany will cease until a satisfactory explanation is forthcoming, one which will outline the course Germany purposes to follow with regard to Norwegian shipping.
