Half a Pineapple For One Dessert

In Jiffy-Jell desserts the fruit flavors are abundant. For instance, half a pineapple is crushed to make the flavor for one pint dessert. This is done in Hawaii from fruit too ripe to ship.

All Jiffy-Jell fruit flavors are made from condensed fruit juice. They come in liquid form—in vials—a bottle in each package. That is true of no other quick gelatine dessert.

A few cents will serve a real-fruit dessert for six people. No artificial flavor, no saccharine. It is the most delicious fruit dessert available, and it comes in ten choice flavors.

MUCH EVIDENCE IN DUFF CASE

(Continued from Page 2)

ployed to catch somebody?"

"Yes."

"Why was Jack Miller there?"

"Don't know. Think Lipsett asked him."

"Was this thing being staged by the police or by Lipsett?"

"Well, I will tell you."

Here followed the description of how Constable Bailey had been assigned to the Lipsett robbery following his return from the old country up to the final arrest.

Questions came from the jury in regard to the police report which stated that the liquor was identified at that time as that which was stolen from the Lipsett house. Yet not one had been able to identify it there yesterday. Court ruled however that no such evidence could be considered because the book merely expressed the opinion of the police and was behind the back of the accused.

Go to Jury.

This concluded the case and Stuart Henderson asked to have it drown out of court on the plea of no evidence of identification. The judge, however, considered that while there was no direct evidence still there was such a chain of evidence that it would have to go before the jury to decide whether or not Duff was guilty. The court then adjourned.

RICH STRIKE ON LUCKY BOY

Former Prince Rupert Man Interested in Mine Close to Stewart

VICTORIA, June 25.—News of what is considered by mining men familiar with the Stewart mineralized district to be the most important strike made in that section is brought to Victoria by Henry Benson, former M.P.P. for this city. The lead was opened by Shaw G. Benson two weeks ago and samples taken from three places along the face assayed in Stewart at $120 a ton in gold, silver and lead, with no trace of zinc. It is estimated from the outcroppings that the lead is fully thirty feet wide and the fact that so high an assay is obtained from the grass roots is taken to indicate an exceedingly rich prospect.

Shaw Benson proceeded at once to Vancouver with samples of the ore and summoned his father for a conference with the other two men interested in the property regarding what action should be taken in the direction of immediate development.

On American Side

The strike was made on what is known as the "Lucky Boy" group of eight claims astride the boundary line between British Columbia and Alaska, on Fish Creek, about 5½ miles from the town of Hyder. The actual location of the lead is on the American side of the boundary and refutes decidedly the long entertained view that the mineralized area of the district is confined to the British Columbia side of the line. There are eight claims in the "Lucky Boy" group, however, and three promisings outcroppings have already been located. The strike was made on the most promising prospect, and as yet no work has been done to show what the others may develop.

According to Mr. Benson, the present ledge is very distinct and situated in an abrupt draw with a stream of water traversing its face. The owners decided to proceed at once with a complete opening up of the full width of the ledge, meanwhile establishing a trail to connect with the fine roadway which passes half a mile distant. Shaw Benson returned north at once with necessary supplies to proceed with the work. He will pick up a mining engineer in Stewart and a careful examination will be made of the property. The owners are waiting on this report, which should be forthcoming within a week, before planning in detail the development operations. It is their determination, however, to speed up the initial outlay with an idea of making the mine a shipper before the end of the summer season. It was the younger Benson's idea that a shaft should be sunk far enough to permit of a drift across the face of the lead beneath the waters of the creek and in that way reveal the exact nature of the ore body over its entire width.

Plan to Ship This Year

It is likely that the immediate output will be sacked at the mine and delivered by pack horses to the road, whence it can be delivered to tidewater at Hyder by motor truck. It is understood by the owners that the Granby Smelter will handle the product, this being the announced policy of the new management of the company. If the summer's work proves as satisfactory as is expected, preparations will be made to continue the operations through the winter months.

The strike was made in virgin country. The nature of the ore is not unlike that of the famous Premier mine, some distance further north, but has turned up in the scratchings a better prospect than the Premier operators secured after an expenditure of something over $100,000. Five men are being worked on the development at the present time, including Christopher Benson, formerly of Prince Rupert, who has been up with his brother since the season opened this year.

The property was located by a lucky chance last December, when Shaw Benson disclosed the outcropping while in the act of skinning a bear he had killed on the spot. Benson is jubilant over the strike, and asserts that his partners in the group have agreed with him to develop the property among themselves, there being plenty of money in sight for the immediate needs of such operations as they have in mind. There is no intention of selling or forming a stock company for the purpose of promoting the development.

Our Big
Sale

will be held on
Friday

this week as usual, when we will offer some striking bargains in

Men's, Women's and Children's Wear

Here are a few of the lines we will offer:

Ladies' Nightgowns, in fancy Habata Silk, with embroidered front. Regular price $10.75. **Sale price 7.50.**
