The Rupert Table Supply Co. had a letter before the city council last night requesting that a street light be installed in the lane between Fifth and Sixth Avenues to the rear of the Methodist church where the company has erected a garage. The letter pointed out that the lane was used as a general thoroughfare and the placing of a light there would be to the public advantage. The company also asked that light rates in its store be reduced in view of the fact that the lights were burning constantly day and night. Both requests were referred to the utilities committee for report.

Ald. McMordie suggested at last night's meeting of the city council that a court of revision should be appointed at an early date to settle amounts chargeable on local improvement road work already done so that tenders could be called for debenture issue to be in readiness for next year's council. City Solicitor Jones stated that the city engineer was now working on final estimates of work aggregating $88,000 and that the figures should be ready for the council to deal with at an early date. In the meantime there would be no advantage in appointing the court of revision. The matter was left with the city solicitor with the request that he hurry up the presentation of the figures.
