ANOTHER TRIAL OF ESKIMO IN ARCTIC

Judge Dubuc to Visit Far North and Try Man at Mouth of Mackenzie River

EDMONTON, March 19. —Another trial of Arctic coast natives will take place in the far north this coming summer, and, as previously Judge Dubuc will make the long trip via the river steamers to carry justice of the white man to the Eskimo peoples.

The native in this instance—as last year—is accused of murder, and he has been in the hands of the mounted police for more than a year. He was taken by boat last season from the Royal Canadian Mounted Police post on Coronation Gulf to Herschel Island to be tried, but owing to the little vessel being held up in the ice the Island was reached too late for the trial of the prisoner, as by that time Alikomiak and Tatamagama had been sentenced to death and Judge Dubuc had left for the "outside." Since that time the Eskimo has been held by the guardians of the North at Herschel Island, awaiting justice.

ALBERTA FARMERS CONTINUE SYSTEM ELECTION DEPOSIT

EDMONTON, March 19. —The principle of candidates making cash election deposits will be continued in the provincial elections in the future, according to an amendment to the election bill by A. L. Saunders, farmer, Stettler, which was passed in the committee of the whole in the Legislature by a vote of twenty-one to twenty.

Besides making a deposit, candidates will be required to have twenty-five signatures on their nomination papers. Under the old system, only four signatures were required, and the deposit was $100. Although the principle of an election deposit had been adopted, no definite amount has been stipulated. When the clause amending the election bill in this respect is brought down for discussion, some definite sum probably will be fixed.

ALL THAT IS LFFT OF WOMAN IS PETTICOAT

That Is What Lecturer Says of One Who Enters Race Against Man

EDMONTON, March 19. — Declaring that woman was "set by her Creator for one task, and one only," and that she is not fitted today for the physical demands of parenthood, Dr. H. Burton Logie, in an address on "The Prevention of Nervous Diseases in Children," created a distinct sensation when he supplemented his statements with the assertion: "When one sees her enter the race against another sex, one feels that all that is left of her is her petticoat!"

Asserting that woman's savage progenitor has instincts which "were not so distorted that sex was but a plaything," Dr. Logie said that if the prehistoric female did not recognize a child as a "Heaven-sent responsibility, she at least did not receive it into timorous and rebellious arms."

ABSOLUTELY

Neither friend nor foe could delay him nor turn him from his course. All who crossed his path did so at their own peril. What would you call such a man?"

"A truck driver!" shouted a voice from the audience.—Forbes Magazine.

You need a PILOT

EVERY good ship, nearing port, takes on a pilot. Usually, the law requires it. The pilot knows the channel. With his capable hands at the helm, the vessel is safe. Without him, there is danger of the shoals.

When you set sail on a shopping tour you, too, should have a pilot. Everybody needs one. And well-informed shoppers always have one---ADVERTISING.

Advertising keeps you off the rocks of extravagance and waste. It takes you straight into the port of economy. It tells you plainly where to go for what you want. It shows you how to save steps---and money---and time. By watching it carefully, each day, you are able to buy to best advantage.

Often, the advertisements will keep you from making an unwise purchase by pointing out just why one article suits better than another. It points out for you the pick of the country's market and the selection of the particular kind, shape, size and color that best suits your taste and fits your pocket-book.

Whether you want food, clothing, furniture or a toy for the children, the advertisements can help you.
