NEW STEAMERS COASTAL TRADE

Sir Henry Thornton Would Have Four to West Indies, One to Alaska

OTTAWA, June 23.—Sir Henry Thornton appeared again today before the special committee on the C.P.R.

The committee today endeavored to elicit from Sir Henry his frank opinion as to the possibilities of success for the Canadian Merchant Marine, with its present equipment. He hesitated some time before committing himself, but finally said:

"I would say tentatively, that, considering the Merchant Marine as a whole, we must go either forward or back. If we feel that the service is of value to the people and the railway, and I think it is, we must put these ships in such state as to get the maximum of efficiency out of them.

Against Abandonment

"It is going to be hard to take the present fleet as it stands and do much with it, but there is a fighting chance. To the question shall we abandon the Canadian Government Merchant Marine, I would say, no, decidedly."

Sir Henry's positive suggestions for improvements consisted in the proposal that four new ships be put on the West India service and one on the Pacific Coast service, for which services the present ships were unfitted.

West India boats would cost four million, and of this, he said, he could finance two and a half millions of debentures and bonds on the ships, so there would be only one and a half million to be raised. For the Pacific Coast ship, he said, they had the money available from several ships of the present fleet which had been sold. He was specially enthusiastic about the possibilities of the West India trade and believed that in fifteen years it would pay for the ships besides carrying on the cost of the service in the meantime.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

GRAND OPERA WHILE TEASING HALIBUT

If halibut were caught in nets the following editorial article under the heading of "Halibut and Grand Opera" from the Victoria Times would be appropriate:

"No longer are mariners who ply out of Prince Rupert to be denied their grand opera while they are teasing halibut into their nets. Already one of the members of that important fleet has installed a radiophone and from now on will keep in touch with the outside world.

"As the news of Western progress gradually jars the Old World out of her narrowness there will be fewer people in Great Britain who will think Canada is covered with snow for the greater part of the year. The homesteader will be regarded as less of a Robinson Crusoe than he is in many quarters at present, and the average mind abroad will cease to populate the unsettled section of Canada with penguins and polar bears."

POPULATION OF STATES LARGE

Now Totals Close to 113,000,000 According to Official Statement

NEW YORK, June 23. — The population of the United States totalled 112,826,000 on January 1, 1924, according to estimates announced here by the National Bureau of Economic Research. This compares with 110,883,000 on January 1, 1923, and the census count of 105,711,000 on January 1, 1920.

The most remarkable gain was recorded in the last half of 1923, the net increase being 1,162,000, a greater growth than in any other half year during the last two decades and probably greater than any six months period in the nation's history. The gain for the entire year was 1,943,000.

The Bureau estimates the population of the Continental United States for each half year since January 1, 1920, to have been approximately as follows:

Jan. 1, 1920	105,711,000
July 1, 1920	106,422,000
Jan. 1, 1921	107,575,000
July 1, 1921	108,533,000
Jan. 1, 1922	109,298,000
July 1, 1922	109,898,000
Jan. 1, 1923	110,883,000
July 1, 1923	111,664,000
Jan. 1, 1924	112,826,000

All the figures after Jan. 1, 1922, are necessarily tentative, for the Bureau of the Census has not as yet published complete monthly data for births and deaths covering the periods since 1921.

The Quitter

This is worth reading

The man who quits has a brain and hand
As good as next; but he lacks the sand
That would make him stick, with a courage stout,
To whatever he tackles, and fight it out.

He starts with a rush, and a solemn vow,
That he'll soon be showing the other how;
Then something new strikes his roving eye,
And his task is left for the bye and bye.

For the man who quits let's his chances slip
Just because he's too lazy to keep his grip.
The man who sticks goes ahead with a shout,
While the man who quits joins the "down and out."
