Listen!

Have you considered your home market? Buying at home is building your own town. If your home merchants prosper you will get a benefit somehow. First, he needs more help. He will employ someone living in the town; and it takes two to build a home. If you spend your money out of town naturally you are helping the other community. Visit our store and we guarantee satisfaction. You get more for your money and in return you get 5 per cent on each dollar. Our system has proved satisfactory to others. Why not try it? In 1923 we cashed over $2,400 in tickets and in 1924 we cashed $2,600. In 1925 till July 31st, we cashed $3,500 in tickets. It will pay you to spend your cash with us.

UNITED STATES ARMY GENERAL VISITING CITY

General and Mrs. George P. Scriven Here in Course of Canadian Tour

An interesting and notable visitor in Prince Rupert today is General George Percival Scriven, retired, of the United States Army, who is here with Mrs. Scriven in the course of a tour of Canada. Having visited Montreal, Toronto, the Nipigon country, Edmonton and Jasper Park before going to Douglas Lodge at Stuart Lake where they spent a very pleasant fortnight, General and Mrs. Scriven reached the city on last night's train and are guests at the Prince Rupert Hotel. Tomorrow morning they will embark on the Prince George to make the round trip to Alaska and, returning south, expect to spend some time at Victoria before going East.

General Scriven graduated from West Point some fifty years ago and has followed the profession of a military officer ever since. After having served in the Phillipines in the Spanish-American war and later in China during the Boxer rebellion, General Scriven was made chief signal officer of the United States Army which position he held until his retirement. During the Great War he saw active service under instructions from the President in the Balkans at Salonika and later in Albania. He is regarded as an authority on military matters and has been the author of several reports and magazine articles especially on Italy and Albania. He now makes his home in Washington, D.C.

NEW SPECIMENS FOR MUSEUM COLLECTION

Salmon Eggs Showing Process of Incubation and Spear Head Among Latest Additions

One or two new specimens have recently been added to the museum collection at present stored in the Bank of Commerce building. Two series of glass tubes showing the gradual development of salmon from the egg to the fry were recently donated by Major Motherwell, chief inspector of fisheries. They show the incubation of spring salmon and chums.

The Gyro Club when levelling their Westview playground unearthed a spear head about four feet from the surface and presented it to the museum.

PREVENT INJURY TO PUBLIC MORALS BY A PENALTY ON REPORTS

LONDON, Aug. 25.—With the idea of "regulating the publication of reports of judicial proceedings in such manner as to prevent injury to public morals," Lord Darling has introduced a "proceedings bill" in the House of Lords. The bill makes it unlawful to 'print, circulate or publish any indecent matter or medical, surgical, or physiological details calculated to injure public morals, in relation to divorce or separation cases."

The penalty is imprisonment not exceeding three months or a fine not exceeding $2,500, or both. The measure does not apply to the publication of matter in separate volume or series of law reports, or in technical publications intended for the legal and medical professions.

FARM TRACTORS ARE SELLING FREELY AND MORE MADE THAN EVER

CHICAGO, Aug. 25.—Tractors lead farm equipment sales throughout the first half of 1925 as shown by the Research Department of the National Association of Farm Equipment Manufacturers, which surveyed its officials who are heads of most of the 200-odd firms making up its membership and selling through some 21,000 dealers to the farmers.

Plow and tillage tool makers report the first half of the year ahead of 1924, and the tendency towards bigger equipment to eliminate man and horse labor is more marked than at any time in the history of the tractor's development.

DRYDOCK BUSY

Having completed the unloading of 600 tons of pea coal, C.G.M.M. freighter Canadian Voyageur was taken on the dry dock early this morning for cleaning, painting and repairs.

The American halibut schooner Gladys has also arrived at the dock for repairs to a damaged stem as a result of a collision with another boat in Alaskan waters.

The Canadian halibut schooner Lysekil was taken up today for cleaning, painting and inspection.
