FAIL TO FIND VICTIM'S BODY

Andrew McNaught Wes Well Known Old Timer of Bulkley Valley.

SMITHERS, July 13. — The body of Andrew McNaught, who was the victim of Friday's drowning accident, has not as yet been found, although Corp. Service, in charge of the local provincial police, organized search parties to patrol the banks of the Bulkley River and had the river bottom dragged in the vicinity of the accident. No sign whatever has been found of the body.

Andy, as he was familiarly known throughout the district, was born in 1880 about 12 miles from the city of Ottawa, but so far as can be learned has no relatives now in this country.

He came to the valley in 1908 and in his capacity of teamster and by his good natured ways, was soon known to all up and down the line of construction.

When Smithers was first started he made this his headquarters, and for a number of years has made the home of Mr. and Mrs. J. S. Gray his home. In 1915 he enlisted for service in the Great War and went overseas with the 67th Battalion. He was a member of the local branch of the I.O.O.F. and also of the Native Sons of Canada.

He had remarked on a number of occasions in recent months that when his time came he would pass out with his boots on, as he had the hardy pioneer's dread of a lingering sickness.

His untimely end is being regretted throughout the district, especially among the younger generation, who will miss his cheery greetings and help with their troubles.

ELECT LITTLE THREE YEARS

School Meeting at Terrace Hears Satisfactory Reports From Last Year's Officers.

TERRACE, July 13.—The annual school meeting was held in the school house on Saturday evening with a representative crowd present. Geo. Little was reinstated as trustee for a three year term. The amount required to run the school for the coming year was figured at $5,500, the same amount as last year. On written request from the Canadian Legion, exemption was granted from all arrears in school taxes on the property known as the G. W. V. A. Hall, Terrace.

Very satisfactory reports were read from H. C. Fraser, school inspector, on the work of the school staff and the general standing of the school, and H. H. Hallowell, in his auditor's report, highly complimented the school board on the very efficient and economical way in which the affairs of school district had been handled during the year.

TERRACE ENTERTAINED TOURISTS SATURDAY

Drove Them Around in Cars and Led Them to Strawberry Patches

TERRACE, July 13. — About one hundred and ninety school teachers and other tourists made a forty minute stop here on Saturday, in the course of a C.N.R. personally conducted tour of the western provinces. All the available cars and trucks to be had around town were lined up at the depot on the arrival of the train and a large portion of the party was taken for a ride around the town and up around the bench north of town where a splendid view of the town and immediate district is to be obtained. Many of them also visited some of the local strawberry patches and were very enthusiastic in their praise of the local product. One car load remained too long in the berry patch and missed the train, but fortunately the regular passenger train was due almost immediately afterwards and they continued their trip to the coast on it.

A Pimply Face Is Unsightly

Miss C. C. M. Smart, South Battleford, Sask., writes:—"A while ago I was troubled with facial blemishes, especially pimples, and was really ashamed to go out with such a bad looking face.

I tried 2 or 3 different remedies, but they didn't help me any, so one day a friend, who had been troubled the same as I was, advised me to use

Burdock Blood Bitters

After I had taken two bottles there wasn't a pimple of any kind left on my face, and I now have a clear, smooth and velvety complexion."

USING AIRPLANES TO FIGHT BOLL WEEVIL

WASHINGTON, July 12.—From 90,000 to 100,000 acres of cotton will be dusted from the air this year in order to combat the foe of America's cotton, the boll weevil. A fleet of eighteen airplanes, based at Monroe, Ala., will be operated by a commercial concern which last year sprinkled arsenic poisons on 50,000 acres of cotton. Boll weevils that emerge this year to prey upon the cotton are expected to be more numerous than in any other year since 1915. The insect fighting airmen will operate throughout the southern state and will have the co-operation of Dr. B. R. Coad, of the U. S. Bureau of Entomology and of the Louisiana College of Agriculture.

Joe Jorgensen was fined $25 in the city police court yesterday afternoon for intoxication.
