OREGON BABY HAS 56 FOSTER MOTHERS

Has Been in Charge of School Girls Since Last April and Is Doing Well

CORVALLIS, Ore., Nov. 21. — Rowen Robert, aged eight months, will have 56 young women as foster mothers before the present school year ends at Oregon Agricultural College, for he is the living subject of experimentation in the "practice house." Reared by science since he came to the practice house last April, Rowen Robert now weighs something over 17 pounds. The care and feeding of this baby are in the hands of girl students, under the direction of Miss A. Grace Johnson, professor of household management.

Two groups of eight girls live in the practice house every school term. They receive practical training in every branch of household activity, including that most important one—raising a child.

PORTUGUESE MAKE MARKETING SUCCESS

By Putting Up Only Best Quality They Create Demand for Product

WASHINGTON, Nov. 21. — A band of 100 Portuguese farmers who can neither read nor write English and who are working out their economic freedom through cooperative marketing, is engaging the attention of the Department of Agriculture.

Officials here say these Portuguese who live about Cape Cod in Massachusetts, and call themselves the Cape Cod Strawberry Growers' Association, understood the true principles of co-operation. The secret of their success is a high quality product, carefully graded and packed which has created a demand that takes practically all the berries the association can market.

This year more than a million quarts of berries were marketed with a gross return of $133,000. The association has been in existence eight years.

BRITISH GOVERNMENT BUILD LIGHT CRUISERS

LONDON, Nov. 21.—The British Government will lay down a number of light cruisers to replace those of the county class and will carry on a steady building program, Premier Baldwin announces. This program is in strict conformity with the Treaty of Washington.

FLAPPERJACK FAILS TO STOCK UP WITH WINTER GRUB SUPPLY

Famous Pet Beaver Usually Prepares for Bad Weather: Cut Stove Lengths

NORTH TEMISKAMING, Nov. 20.—(By Canadian Press)—Unless the Rouyn gold fields beavers are all sadly astray all indications point to a late fall and to a continuance of the mellow autumn days which have been experienced in this district during October.

"Flapperjack," the pride of one trapper in that region, whose custom has been to collect in a dry dam he has built across one corner of his owner's cookhouse old bread crusts, choice and succulent bits of kindling wood and other odds and ends of supplies, has not yet cached away a particle of winter grub, and George Friday, well-known Temagami guide, declares that all the wild specimens of the national emblem are slow in stocking up against the winter months. Mr. Friday says he has examined a number of beaver houses and noted the lack of provisioning.

"Flapperjack," by the way, is not lazy, nor has he lost any of the natural instincts of his tribe, despite his several years of domestic existence. Long before a storm blows up he senses its coming and immediately starts stuffing the cracks of the door with old bags, loose boots, papers and anything else moveable. His trapper-owner not long ago was unable to enter his cabin just before a storm except through a window, thanks to the activities of his pet.

Sagacious Animal

According to its owner, this very sagacious beaver can make himself very useful. Captured when a baby he has been taught to clear away the land in front of the shack and drag out the trees and gnaw out the stumps, with the result that the trapper has a nice potato patch in cultivation in the heart of the wilds.

One of the best things "Flapperjack" does is to cut cord wood, although it took many months of patient work to teach him to chew the wood to the correct stove length. Recently, having been left alone in the shack, he whiled away the time by gnawing the legs of the table and chairs, leaving the furniture flat upon the floor.

OBJECTION TAKEN TO SCRIPTURE READING

Victoria Trustee Gives Notice of Motion Regarding Recent Proposal

VICTORIA, Nov. 21. — At the meeting of the school trustee board here Christian Sivertz gave notice of motion that he would protest against scripture readings in he schools. His motion reads:

"Whereas, the annual convention of the B.C. School Trustees Association held at Duncan on October 16, 17 and 18, did adopt a certain resolution having for its object the introduction into the curriculum of the public schools of this province a text book made up from the Bible, and

"Whereas, such texts in selections from the Bible cannot be introduced without violating the provision of Section 151 of the School Act, which guarantees free and non-sectarian schools to our people.

"Therefore, be it resolved that this board declare its opposition to the spirit and intent of the said resolution, believing as it does that the provision of the act as it now stands should be preserved, and that a copy of this resolution be forwarded to the Hon. Minister of Education and to the Secretary of the B.C. School Trustees Association."

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
