TERRACE DEBATE

Individual Tradesmen Held More Beneficial Than Chain Stores

TERRACE, Feb. 22— "Resolved that Chain Stores are of more Benefit to the Community Than Those Owned and Operated by Individual Tradesmen."

The above subject was debated in the Oddfellows Hall on Thursday last. The event was held under the auspices of the Native Sons of Canada.

The following debaters representing the Kitsumgallum Literary and Athletic Society upheld the affirmative side—Stewart McLeod, Lloyd Johnston, and Lewis McKenney—while Tom Marsh, Floyd Frank and Vernon Glass, representing the Native Sons, upheld the negative.

The outstanding arguments of the affirmative side were:

1. Efficient organization and administration enable the chain-stores to sell for less.
2. Owing to a more rapid turnover of stock the chain store has much more buying power than the private dealer.
3 The chain-store sells for cash only, thereby making it unnecessary for good credit customers to support poor credit customers.
4. The chain-stores are clean and sanitary. The clerks are capable, courteous, and efficient.
5. The chain store makes regular donations to charities in the community
6. Chain stores have been in business for many years, thereby showing their value to the community.

Negative Claims

The members of the Negative side based their claims on the following points:

1. Chain stores merely rent space to carry on business; they invest no money in buildings or homes in the community.
2. The chain stores sell for cash. Many people cannot pay cash at certain times but must depend on store-keepers who give credit.
3. Chain-stores employ clerks at the lowest possible wages thereby creating want, unhappiness and many social problems.
4. Chain-stores tend to lower factory wages by forcing wholesalers to reduce prices.
5. Chain-stores do not subscribe to community needs to the same extent as do individual tradesmen.
6. Profits earned by chain-stores are sent to some distant headquarters. The community therefore loses the benefit of this money.

Decision Is Given

The judges, Mrs. Hall, Mrs. Riley, Mr. Mitchell and Mrs. Burnett, brought in a decision in favor of the negative.

The speakers on the affirmative showed definite signs of promise as debaters, but were somewhat hampered by lack of experience. No doubt their style will show improvement in the future.

The negative side were easy victors, due to their more mature judgement and experience. Mr. Tom Marsh was the best speaker of the evening.

During the evening a very enjoyable program was presented by the High School pupils. This was followed by dancing, music being supplied by the "Town Orchestra" and by Mr. McLaren. Toothsome refreshments were served at midnight.

R. W. Riley, President of the Native Sons, outlined the aims and objects of the Native Sons of Canada.

In a well-turned speech Mr. John Smith, president of the Kitsumgallum Literary and Athletic Society thanked the Native Sons for their hospitality.

All voted the affair a distinct success.

Travel Booklet Of Interest Issued By Government

A travel booklet of more than usual interest has just been issued by the Provincial Information Bureau, under the title of "British Columbia's Picturesque Highways."

In its forty pages it covers all the main highways of the province, and an idea of its scope is gathered from the index, which shows sections devoted to each of the following—the Island Highways; Vancouver to Kamloops via the Fraser Canyon; to Penticton via Spence's Bridge, Merritt and Princeton; the Cariboo Road from Lytton to Hazelton; the Okanagan Valley; and the West and East Kootenays.

It is profusely illustrated in distinctly novel fashion, the cuts being arranged to simulate strips of motion picture film, each strip being accompanied by a strip map of that particular section.

Prince Rupert is fittingly mentioned in the booklet.

Twenty Years Ago
In Prince Rupert

There is trouble in the Tory camp here. Members of the old Prince Rupert Conservative Association are at outs with those of the Progressive Association over allotment of executive seats. Bitter denunciations have been voiced.

The building on Centre Street, which has been used as a City Hall, must be moved to make way for the clearing of the railway station site. The City Hall staff will be temporarily housed in the Fire Hall pending completion of the new City Hall building.

James J. Calkins, well known real estate man of this city, has been married in Seattle to Miss Catherine King of Denver.

'Mind' Subject of Lesson-Sermon Science Church

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "Mind."

Among the Bible texts included in the lessonsermon was the following from Philippians 2: 3, 5: "Let nothing be done through strife or vainglory; but in lowliness of mind let each esteem other better than themselves. Let this mind be in you, which was also in Christ Jesus."

The lesson-sermon also included the reading of citations from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, one passage being as follows: "It should be thoroughly understood that all men have one mind, and God and Father, one life, truth, and love. Mankind will become perfect in proportion as this fact becomes apparent, war will cease and the true brotherhood of man will be established." (page 467.)

Would Reopen Their Hospital

Stewart Board Seeking Renewed Financial Support For Institution

STEWART, Feb. 22:—Efforts are being renewed here with a view to reopening the Stewart General Hospital which, for financial reasons, was recently closed down. The hospital board has appealed to the board of village commissioners for financial aid. The commissioners, while unable to give much help at present, have promised that they will give all possible financial assistance.

The Christian Science Society of this city, starting Wednesday of next week, will, thereafter, hold its meetings in the Besner Block on Third Street in the vacant store premises next to G. P. Tinker's office. For many years the Society has held its meetings in the Hays Block on Second Avenue.

TERRACE PROGRESS

Interior Municipality Is In Fine Shape Financially—Incorporation Proves Valuable

TERRACE, Feb. 22—The financial statement of the village municipality of Terrace shows that total arrears of taxes for the four years since incorporation amount to only $221. Four years ago the commissioners started without a dollar in the terasury and at the end of 1931 there was $1,360 in the bank with assets including waterworks valued at $10,000.

The waterworks department is paying a dividend of more than eight percent. Several public projects, including building of new roads, have been carried out since icorporation.

After spending annual vacation ashore in Vancouver, Capt. W. W Mouce has returned to his duties as pilot on the steamer Catala Capt. J. E. Boden, who was relieving on the Catala during his absence, is now pilot aboard the Cardena.
