INTEREST IN LIBRARY IS INCREASING WITH APPROACH OF AUTUMN

With the coming of autumn, interest in the public library is on the increase and the number of books taken out is steadily growing larger. In her report to the library board last evening, Miss Grant stated that there was a noticeable improvement in the borrowings. The number of children's books was small and this restricted the number loaned from the children's department. The ordering of new books from the money recently collected will remedy this condition.

The total borrowings during September numbered 1956, an average daily of 97.8. Forty new members have taken out cards and two have cancelled, leaving a total of 1295 members.

Miss Grant reported that to date $803 had been collected as a result of the recent drive and this sum it was hoped to increase. The members of the board expressed the opinion that the objective of $1,000 should not be lost sight of. That sum was needed for books and any help by way of entertainments or other activities which would help bring it to that amount would be welcomed.
