DAILY EDITION Tuesday, Sept. 16, 1924.

Vancouver And Prince Rupert.

In an address in Vancouver Friday night Hon. J. H. King said he believed that in the not far distant future the ports of Vancouver and Prince Rupert would dominate the trade with the Orient. While we have believed that Prince Rupert would be a factor in this trade it is good to have a minister of the crown state it in Vancouver. It is an indication that Hon. Dr. King is a party to the encouragement of trade out of this port and that he is not backward in publicly stating the fact. It is advertising for Prince Rupert of the best kind.

Smuggling Cigarettes Into This Country.

Apparently in the East they are smuggling cigarettes in Canada. We are all used to tales of liquor running from one country to another, but outside of a few purchased along the waterfront by those who prefer American brands to Canadian, little is ever heard of illicit importation of cigarettes.

In Ottawa the other day ten million coffin nails were received through the customs department from Brockville, none of which had paid duty and it is estimated that over half a billion are annually imported without the formality of paying the small charges to the government required by law. This means that Canadian manufacturers did that much less business and the government is out the duty. The loss to the government is placed at something like three and a half millions. That is a big sum and is in addition to the loss to the Canadian manufacturer.

Wildcat Speculation Responsible For Loss.

Wild cat speculations are responsible for losses in Canada aggregating $35,000,000 a year, according to an estimate made by a trade paper. If this amount had been spent wisely it would have brought a large income in interest and the principal would still have been in the hands of the owners. As it is, the interest and principal is gone never to return.

There are plenty of natural resources awaiting development by those who have money to invest, but the fake stock salesman is more persuasive than the legitimate salesman and the people like to be swindled anyway. The most difficult thing on earth is to protect people against get rich quick proposals. There are always men of the Ponzi type to fatten on the unwise and there are always fools to buy stock which has nothing behind it but the weird tales of the salesman.

Grain Goes Out By American Routes.

Grain is still going out of Canada by Eastern American routes when at the same time there are open ports on the Pacific ready to receive it and it can be transported just as cheaply if the railways give equal rates to the west and east. Last year, according to an Edmonton paper sixty million bushels of grain went out through Vancouver, seventy-five million bushels through Montreal and the remainder amounting to over two hundred million bushels through New England ports. This is largely because the New England route has a preference in rates over the Pacific route, a condition which should not be allowed to continue.

Robert Baird, inspector of municipalities, was an arrival from the south last night on the Prince Rupert. He will proceed to the interior on this evening's train.

Mike Sheady of Edmonton and formerly of this city was a passenger arriving from the south last night on the steamer Prince Rupert. He is registered at the Prince Rupert Hotel.

The Man in the Moon SAYS:-

AN optimist is one who lists his ten year old launch as an asset.

PEOPLE say we have no leisure class in Canada and yet we always have someone we can send to attend a convention.

SOMEONE is sure to ask Watt is the name of the new Government agent ?

A DESPATCH from Montreal yesterday stated there would likely be a record for hunting in Canada this year. The person who sent the despatch must have heard of some of the bags brought in by local nimrods.

SO far as I have been able to hear, only one person got a dear last Sunday—a doe.

THANKS to the telegraphers' strike we are getting no stories over the wire telling of the forthcoming defeat of Dr. K. C. MacDonald since he joined the Oliver cabinet.

CLASSICAL music is the kind most people don't like, even those who pretend they do.

IF rain stops a civil war it is no wonder the people of Prince Rupert do not openly quarrel.

BURNS LAKE

[illegible] Ramsden's radio set which he recently installed is [illegible] very successfully. Con[illegible] from San Francisco and [illegible] has been clearly record[illegible]

Mrs. J. S. Cochran of Moose Jaw has arrived here to visit her daughter, Mrs. Gordon B. Robb.

Mrs. A. Eastment has returned to Colleymount after an extended visit to the Old Country.

A slight frost which damaged tomato, potato and squash vines was experienced here last week.

J. Yool, local manager of the Royal Bank, has returned from his holidays and A. Flaten, who was relieving him, has returned to Prince George.

Dr. M. F. Lucas of Southbank left last week for Vancouver on a vacation trip.

Ten Years Ago in Prince Rupert

September 16, 1914.

Robert Auld, an employee of the city power gang, was instantly killed at Shawatlans Lake last night when he was shot by Thomas Graham who mistook him for a bear. Auld was climbing in a tree near the cabin at the head of the lake.

Smithers people are refusing to pay their installments on townsite property because the townsite company is not living up to the promises it made when the lots were sold.

W. J. Spears of London, England, has just completed a tour along the Grand Trunk Pacific Railway line from Edmonton to Prince Rupert.

NEW HAZELTON

Mr. and Mrs. Leo Spooner and Peter Spooner shot three bears on the Mud Creek trail last week.

Angus Clairmont has been given the contract for the erection of the cottage for the house surgeon at the Hazelton Hospital.

R. W. Smith of No. 6 cabin on the Yukon Telegraph line has returned from a holiday trip to Vancouver.

Miss Hazel Cox left last week for Prince Rupert where she will take a commercial course. Her mother accompanied her.

Mrs. C. H. Sawle has returned from a trip to Edmonton and Sangudo, Alberta.

HOLIDAY WORKING AGAIN DISCUSSED

Men Were Not Compelled to Work on Labor Day, Board of Works Reports—Questions Asked

The Board of Works brought in a report to the city council at last night's meeting stating that no men had been forced to work on Labor Day and that the foreman and three men who had been working at the rear of Union Bank building when that building was damaged by a blast had volunteered their services.

Ald. Casey said that the report as far as he had been able to ascertain, represented the facts of the case. Later in the evening, he inquired of Ald. Macdonald why the utilities force had been working last Thursday when a half holiday had been declared by the mayor. Ald. Macdonald said he was not aware whether or not they had been working at the time in question and came back with a question as to why Board of Works employees had been working a week ago Sunday. Mayor Newton answered both questions by stating that in each case it had been found necessary to work in order to advance certain essential work. Ald. Casey felt that, when a holiday was declared by the city, the city employees should at least observe it. Ald. Collart was not in favor of preventing men on day labor from working if they so desired and the work was necessary.

Food-value counts

Don't be deceived by bulk, when it comes to cereal foods. The largest package may be very low in food-values. Every particle of Shredded Wheat is rich in muscle-building elements and is easily digested. Cut out the heavy fat-making, heat-making foods and eat Shredded Wheat with fresh fruits and green vegetables. Two Biscuits with milk furnish all the energy you need for a half day's work. It is ready-to-eat—no kitchen worry or work.

Stop falling hair
Money Back If It Doesn't

Scalp specialists will tell you the big problem with scalp treatments is to get the people to form a consistent habit of taking care of their hair. Van Ess Liquid Scalp Massage comes in a patented bottle with a special rubber applicator attached. The method of application is easy—and cleanly. The medicament is fed through rubber nipples directly to the roots of the hair while the scalp is gently massaged. One minute a day with Van Ess stops falling hair, relieves itching scalp and grows new hair. Ask about 90-day treatment plan. We give you an iron clad guarantee.

LOCAL FROSTS ON PRAIRIES

Threshing Well Under Way in Manitoba But Not Started in Alberta

RAIN DELAYS HARVEST

In Some Districts Crop Being Cut Green; Good Yield in Manitoba

WINNIPEG, Sep. 16—Harvesting operations were held up generally throughout Western Canada by wet weather during the latter part of the period covered by the 22nd crop report issued by the Candian National Railways for the week ending Saturday. Cutting in Manitoba is about finished, in Saskatchewan it is 85 per cent done and in Alberta not more than 50 per cent as crops there are still growing in some parts. Threshing operations are well under way in Manitoba, and will be general in Saskatchewan this week but have not started yet in Alberta and will not be general there before the end of September. Alberta and Saskatchewan suffered most from frost but damage is mostly local and, although severe in a few places, general reports indicate the grain is only touched.

In the Lake Head and Port Arthur divisions cutting is practically finished and threshing, although delayed a couple of days by rain, is now in full swing with wheat turning out well, and running from 30 to 40 bushels to the acre and barley around 50 bushels.

Manitoba

Threshing is well under way in Manitoba but operations were held up during week on account of wet weather. The quality of the grain is good and yield is up to expectations, in spite of finding some damage by frost and rust. Up to 75 per cent grain is cut and wheat is yielding 20 to 30 bushels. The heavy frost during the week affected standing grain to a considerable extent.

Saskatchewan

Cutting in Saskatchewan is 85 per cent done but rain during the week has held back threshing, which will not be general until middle of present week. Tonkin sub-division suffered damage of about half of the total crop from frost and large tracts of green grain are now being cut. High winds have caused some grain to shell, but this with frost damage is local. Elrose reports four cars of this year's wheat which graded No. 1 Northern has been marketed.

Alberta

Alberta reports cutting general with wheat turning out better than expected. Oats are late but it is expected they will be ready for the binder when wheat is finished. Cool, wet weather delayed the harvest and slight damge from frost to low lying grain is reported. Crops are about fifty per cent cut but threshing will hardly be started for fifteen days. Operations are somewhat more advanced in the southern part of the province.

James Wallace was fined $25 in the city police court this morning for intoxication.
