Those New Odd Shaped WRIST WATCHES

Some people are afraid to buy them because they think they might not run as well as the common shape.

The difference, however, is mostly in the case and trimmings as the wheels and working parts are the usual kind.

We have a girl's rectangular gold filled 15 jewelled watch, which is a good timekeeper, as low as $15.00 in white, green or yellow gold.

Other fancy shapes at the same price but we have others all the way to $85.00.

In accordance with a petition submitted by the requisite proportion of merchants in the city, the council last night put through its first readings a new Early Closing by-law setting out the classification of businesses which was lacking in the old by-law. There was no change from the provisions of the old by-law as regards the hours that stores may be kept open. The old bylaw was simply defective and this one is to replace it.

Ald. Casey reported at last night's council meeting that there were several workmen in the city desirous of registering for the municipal election but who would be unable to do so within office hours without losing time. NOW READY TO HANDLE DEISEL FUEL IN BULK

Imperial Oil Co. Extends Plant to Meet Requirements of Specially Engined Boats

The Vancouver tanker Hercules is due in port with 3,000 barrels of star oil on arrival of which the local branch of the Imperial Oil Co. will be enabled to cater for the first time to the bulk requirements of deisel and semi-deisel boats. Heretofore, star oil has been sold here only by the case.

The marked increase during the past year in the number of deisel and semi-deisel engined boats being used here resulted in the decision of the Imperial Oil Co. to extend its local facilities to meet the requirements of these boats. Accordingly, two new tanks have been built to take care of the local coal oil business releasing two of the larger ones for the carrying of star oil.

All that is now awaited to put the plant in a position to cater to this business is the arrival of the bulk oil on the Hercules from Ioco.

The Hercules is a local Vancouver boat. She is a small craft but is equipped with special pumping apparatus.

PROPOSED AUCTION CITY LOTS WI'L NOT TAKE PLACE JUST NOW

Ald. Clapp, at last night's council meeting, abandoned his notice of motion calling for the sale at auction of all tax lots held by the city with the exception of those in Section 1. The motion was then taken up by Ald. Casey but was defeated when put to the vote only Ald. Casey and Ald. Macdonald supporting it.

In withdrawing the motion, Ald. Clapp stated that he had found it advisable to do so in view of legal complications. Ald. Casey's reason for following up the matter was that a situation had risen which sooner or later must be met.

A petition against the proposed sale was received by the council.
