SOVIET TO CELEBRATE MAY DAY PEACEFULLY

Will Show the World That It Has Peaceful Intentions But Will Pay Homage to Lenin

MOSCOW, April 29.—May Day will be celebrated in Russia this year by peaceful manifestations on the part of the civil population, instead of militant demonstrations by the red army as in the past.

This may be taken, the Bolshevists say, as symptomatic of the soviet's desire to convince the world of its peaceful intentions and also as indicative of the tranquility prevailing in the country.

Hundreds of thousands of workers and their families are expected to march to the great improvised wooden shrine in Red Square, in which the body of Lenine is interred, and there pay homage to their revolutionary leader.

GRADED SYSTEM OF CITY HALL SALARIES

VICTORIA, April 29.—Victoria is likely to have a graded system at the city hall governing the salaries of officials and employees of all classes. There has been some dissatisfaction shown among the employees and the city council recently refused to take any action toward relieving it. The mayor has now taken up the question with a view to the passing of a bylaw which will become effective next year, which will locate the status of each employee and the salary he or she shall receive.

WILL CHARGE DR. PRICE $75 A NIGHT FOR HALL

At least, that is the figure fixed upon by the finance committee of the Exhibition Association at a meeting and it will be recommended for acceptance by the directors.

WORLD COURT AGAIN IS BEING MENTIONED

Issue Again Being Injected Into United States Politics by Democrats

WASHINGTON, April 29.—(By Canadian Press).— Just at the time when the world court issue was supposed to have been quieted for this session of the U.S. Congress, steps are being taken to stir it up. Democratic leaders are planning to move to discharge the foreign relations committee of the Senate from consideration of the resolution to have the United States join the world court. The matter has been pending before the foreign committee all winter and Senator Lodge, chairman, has carefully allowed it to sleep. Until recently, it looked as if it would be allowed to slumber in the committee for the rest of the session.

If the motion to discharge the committee is made, as now expected, it will undoubtedly arouse an extended debate. The League of Nations debate is likely to be rehearsed, or a large part of it. The irreconcilables have not abandoned their opposition to the world court which they regard as a stepping stone to the League.

Democrats, more especially the pro-Wilson Democrats, are anxious to bring the matter up in order to embarass the Republicans politically. They do not really expect to be able to force a vote. However, they insist that if a vote can be forced, a majority of the Senate will sustain the motion to discharge the committee. The effect of adopting such a motion would be to bring the subject before the Senate and force the Senate to consider it. Moreover, it would probably serve to inject the world court and League of Nations issue into the political campaign much more strongly than would be the case otherwise.

INSURANCE SCANDAL

Policies Issued on Lives of People Who Were Tubercular and Unable to Pay

SAN JUAN, Porto Rico, April 29.—With the trial and conviction of most of those implicated, the conspiracy to defraud the Manufacturer's Life Insurance Company, of Canada, a scandal that has engaged the attention of the entire island for several months, is just ended.

After trials in which the accused offered no defense, Municipal Judge Rodriguez Serra, imposed a sentence of six months in jail and a fine of $500 on Juan J. Geraldino, of Ponce, on each of two counts, and on third count, imposed a fine of $100 and costs.

Enrique Valedon was fined $200 and costs, on one count, and $100 and costs for infraction of the insurance law. Sixto Luccioni was fined $100 and costs, as was also Joaquin Tellechea.

All the principals were charged with conspiracy to defraud the insurance company by obtaining life insurance policies on the lives of persons known to be tubercular, and who in most cases were shown to be unable to pay the premiums involved, the accused advancing the money and receiving the amounts for which the policies were taken out.

As a result of the conspiracy several companies have cancelled policies for more than $250,000 insurance.
