TOM MIX SCORES IN COMEDY OF ACTION

"Ladies to Board" Provides Many Funny Situations at Westholme Tonight

Tom Mix has scored another motion picture comedy success. It is called "Ladies to Board" and will be shown here tonight.

Jack Blystone, who directed Mix in "Soft Boiled," his most recent example of screen humor, adds another feather in his cap in this production. It is funny, virile and full of Mixian action and proved to be a type of picture admirably adopted to Mix's work.

William Dudley Pelley, who wrote "Ladies to Board" has furnished a genuinely funny situation. Mix inherits an old ladies' home and his efforts to conduct it get himself and Pee Wee Holmes into all manner of laugh provoking complications. Tony, the wonder horse, is at Tom's disposal and he makes the best of his superb horsemanship. He furnished some additional thrills by climbing perilously around the structural work of a half completed sky scraper.

Gertrude Olmsted as the girl is winsome and displays a rare dramatic ability. Others in the cast are Phil McCullough, Gertrude Claire, Fay Holderness and Dolores Rousse.

SOFT BOILED IN STORY HERE DURING MID-WEEK

Tom Mix on His Famous Horse Tony Does Wonderful Trick

Tom and his famous horse, Tony, do it again. They stage one of the most thrilling and beautiful races of their screen career in one of the scenes from Tom's new William Fox exciter, "Soft Boiled," which comes here at the midweek.

A beautiful girl on the Observation car of the "Flyer" drops her handkerchief. Tom sees the disaster. Urging the fleet Tony on, he rides like fury. He swings head down in the saddle and retrieves the handkerchief. Then the race to give it to the girl ensues. Horse and man gain on the train. Tom has almost reached it ,when a high fence looms up.

With a low spoken word of encouragement to the high-strung Tony, horse and man soar with thrilling beauty over the fence, making a perfect jump and landing. Tom reaches the train, but the girl, her eyes sparkling with appreciation for the marvellous horsemanship of this Knight of the Range, kisses the handkerchief and throws it to him.

REALISM PORTRAYED IN ELEMENTAL PASSION

"Anna Christie," a Stage Play Shown on Screen at Week End

"Anna Christie," written for the stage by Eugene O'Neill and translated to the screen by that other lover of the sea and artistic realism—Thomas H. Ince—is a strictly twentieth century offering, which comes at the week end. The "Situations" that wreck homes and lives today are almost identical with those that have troubled other ages.

The plot maker finds his scope of invention limited because life likes to repeat. In the past centuries a stilted prudery has encouraged hypocrisy and false modesty. Only in this day and age have playwrights and picture producers had the courage—and audiences the assurance — to dissect stark realism that goes into the making of a masterpiece like "Anna Christie" behind the footlights and on the screen.

Not for a second does Mr. Ince in his latest picture production permit his audience to escape from realism. Elemental people and elemental passions are the strong meat of this powerful story. He has told it in a rising tempo that bursts into a crescendo of fury in the "great scene' when "Anna" fought over by her father and sweetheart as two dogs would worry a bone, tears herself away from them in a passion of rage and quiets their futile bickerings with the confession of a sordid past, that reduces them to gaping stares, shuddering horror and then murderous rage.

VANCOUVER PAPER IS BEMOANING DECISION FLYERS TO GO NORTH

Bemoaning the decision of the flyers to keep the northerly route by way of Prince Rupert, the Vancouver Sun says:

If the party of British aviators, now on a world flight, makes a generfal policy of skipping centres of population like Vancouver, the most important value of their exploit will be totally lost.

Both American and British commanders have emphasized the fact that the flights have not the slightest element of a race. Obviously then, the saving of three hours involved in passing up Vancouver in favor of a northern route can bring no particularly important advantage.

The real value of the world flight lies in the publicity it gives to aviation.

It is only the spectacular element in new scientific and mechanical discoveries that stimulates the imagination to the point of applying those discoveries extensively to commercial uses.

The airplane has been invented and perfected. But, in this country particularly, the airplane idea has not been "sold" to industry.

"Stunts," like the present flight, help materially to interest the public in the airplane as a factor in business.

But, certainly, if the flight is to be confined to the world's wilderness, and cities like Vancouver are to be studiously avoided, the publicity value of the project will be a total loss.

SALVATION ARMY IS OUT AFTER FUNDS TO CARRY ON ITS WORK

Is Asking Prince Rupert For $800 in all; Roof For Citadel Needed

The self-denial campaign of the Salvation Army needs no introduction to the people of Prince Rupert. Ever since the Army opened its work in this city fifteen years ago the self-denial funds has seen an increase each year.

This year the Salvation Army in Canada West, is out to raise $100,000 for the maintenance and extension of its social and rescue work in the west, and also contribute to the army's world-wide missionary and hospital work in 79 countries and colonies.

Prince Rupert is asked to contribute $440 to this work on behalf of the lost and fallen. Captain and Mrs. Coleman who are in charge of the local corps, have every confidence that the people of this city will again come to the army's help and over subscribe the above amount.

The Salvation Army citadel and officers quarters in this city are in need of a new roof before another winter's rain, so that $350 is being added to the above target as Prince Rupert's half of the total cost of the new roof. The other half of the cost comes as a grant to the local corps from the Army's property board in Winnipeg.

In round figures the Army is asking for $800 in this campaign and has every hope the amount will be realized by the closing date, May 17.

SHANKS GOES NORTH TO STIR UP STEWART

Was Recently Announced as Independent Candidate For Victoria but Will Shave Portland Canal

J. A. Shanks of Victoria, better known there as "Five Point Shanks," breezed into the office Saturday stating that he was on his way north to open up a barber shop at Stewart. He will be remembered here about two years ago as one of the barbers in the Empress Barber Shop.

Mr. Shanks is Victoria's candidate. He has run for every office in the city and is now announced as an independent candidate for the Legislature. He runs a barber shop in his own block at "Five Points" at the corner of Moss Street and Fairfield Road in the Fairfield district of Victoria and when he is not running for office may be heard from in letters to the press. He is a good booster for the city and wherever he happens to be is sure to make the dust fly.

Mr. Shanks will help to put Stewart on the map and if he does not offer himself as a candidate for the House of Commons or the Provincial Legislature pretty soon, will at any rate be head of the boosters club of the thriving mining town on Portland Canal.

PROCLAMATION

BYNG OF VIMY
[L.S.]

CANADA

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India.

To all to whom these Presents shall come, or whom the same may in anywise concern.

GREETING:

A PROCLAMATION

E. L. NEWCOMBE, Deputy Minister of Justice, Canada

WHEREAS the protection and perpetuation of our forests are vital for the continued industrial welfare and national strength of Canada and to its individual health, comfort and prosperity;

And Whereas it is shown by the statistics of the several forest authorities of the Dominion that the forest resources have suffered enormous losses through the occurrence of forest fires and that the loss through such fires has far exceeded in amount the depletion in timber wealth through legitimate cutting operations;

And Whereas Our Dominion is recognized as the main source of supply of coniferous timber within Our Empire and it is essential that, if Canada is to retain and develop her position as an exporter of forest products, the unnecessary losses through forest fires must be curtailed;

And Whereas in many cases forest fires have resulted in disastrous loss of life, and of valuable property other than timber wealth;

And Whereas apart from direct loss through the agency of fire, the vitality of the forest is thereby seriously impaired, thus rendering it unduly susceptible to attack by insect and fungus pests;

And Whereas forest fires disturb the equilibrium of stream flow, lower the water table, and frequently give rise to serious erosive effects;

And Whereas the great majority of forest fires are entirely attributable to inexcusable neglect or ignorance, and are therefore preventable, and the exercise of reasonable Prudence and proper carefulness on the part of responsible individuals would reduce the timber losses by fire in Canada to small proportions;

And Whereas it is desirable that the attention of the public be directed to the extent and underlying causes of the preventable loss of life and property by fire and to the best and most practicable means for its control and that a specific period of the year be set apart and properly designated for the dissemination of such information;

Now Know Ye that We, by and with the advice of Our Privy Council for Canada, have thought fit to appoint and do appoint the week commencing Sunday, the twenty-seventh day of April and ending on Saturday, the third day of May in this present year as "Save the Forest Week," during which period the citizens of Our Dominion shall be entreated earnestly to consider the facts hereinbefore set out, to give careful heed to information disseminated by the various forest protective agencies, and in particular to act upon the following suggestions:

1 That settlers and others engaged in the clearing of land should fully observe the fire laws of the Dominion and of the province, which laws have been enacted for their protection, as well as for the preservation of Our timber resources:

2 That at this time of the year, when thousands are looking forward to spending their summer vacations in the woods, all should take cognizance of the fact that the camp-fire, which is one of the most pleasant and valuable adjuncts to camp life, may, if neglected, easily result in disaster; and that to prevent repetition of such losses as have been annually sustained from this cause, all persons should familiarize themselves with the proper methods of building, using and extinguishing such fires;

3 That loggers, saw-mill operators and others interested in timber operations should see that all equipment and appliances designed to prevent the origin or spread of fires shall be overhauled and placed in a state of thorough repair; that such persons should review with care the fire protection requirements of the legislation under which they operate; and that they should see that all employees working under their direction are properly instructed as to the danger of fire.

Of all which Our Loving Subjects and all others whom these presents may concern are hereby required to take notice and to govern themselves accordingly.

In Testimony Whereof, We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed Witness Our Right Trusty and Well-beloved Julian Hedworth George, Baron Byng of Vimy, General on the Retired List and in the Reserve of Officers of Our Army, Knight Grand Cross of Our Most Honourable Order of the Bath, Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George, Member of Our Royal Victorian Order, Governor General and Commander-in-Chief of Our Dominion of Canada.

At Our Gvernment House, in Our City of Ottawa, this twenty-eighth day of February, in the year of Our Lord one thousand nine hundred and twenty-four, and in the fourteenth year of Our Reign.

By Command,
THOMAS MULVEY,
Under-Secretary of State.

TERRACE NOTES

Mrs. D. D. Munro who has been spending the past few months in Smithers returned to Terrace on Thursday.

The monthly whist drive and dance of the Ladies Auxiliary of the G.W.V.A. was cancelled on account of the meeting of the Provincial Party held the same night.

A son was born to Mr. and Mrs. E. Farr of Terrace at the Hazelton Hotel.

Henry de Fontaine lost a large number of poles, logs and shingle bolts when his boom across the Little Canyon slough broke and the high water carried off the result of much of his winter's work. Little's teams have been busy hauling the remainder out of the danger zone as quickly as possible.

The Provincial Party held a public meeting Friday evening which was well attended. S. J. Tener of Vernon, the first speaker of the evening, outlined the origin and organization of the Provincial Party, explained the party platform, and gave a description of the Royal commission and its results as seen by members of the Provincial Party. His speech was supplemented by a short witty speech by John Connell, driving home in detail a number of points.

Mrs. Grieg met with a very unpleasant accident this week when she fell and sprained her ankle.
