GRAND MASTER PLEASED WITH RECEPTION HERE

Charles E. Tisdall Visited Local Masonic Lodges Last Evening—Attendance Was Large

Charles E. Tisdall of Vancouver, Grand Master for British Columbia of the Masonic Lodge, paid his official visit last night to the local lodges. There was a large attendance and Mr. Tisdall expressed his great appreciation of the warmth of the reception and hospitality accorded him.

Mr. Tisdall returned here last evening after visiting the lodge at Anyox and will leave tonight for Smithers accompanied by George H. Munro, district deputy grand master and a party of some 15 or 20 local members of the craft. Mr. Tisdall will proceed from Smithers to Prince George and thence south by way of the Fraser River and the Pacific Great Eastern.

The local party expects to be back Sunday night. A motor trip through the Bulkley Valley will be included in the program of entertainment to the Grand Master.

Today at 1 o'clock, Mr. Tisdall was tendered a luncheon in the St. Regis Cafe by some forty or fifty local members of the Masonic craft.

WILL DRILL FOR OIL WAINWRIGHT FIELD

EDMONTON, May 7.—There is every likelihood that at least six drills will be at work in the Wainwright - Iram - Fabyan oil field this season, according to the best information available at the present time.

Newton W. Emmons, geologist for the British Petroleums company, whose strike last season created keen interest in the Wainwright area, stated that his company would have two drills in the field all season, working night and day. The location of No. 3 well of this company is on land the oil rights of which have been acquired by the British Petroleums, limited from the Baxter Lake Oil company. The land is school land, and the well will go down just four miles due north of Wainwright.

Camps are being built now for the drilling crews, who are now on their way from California under a season's engagement, and the company intend to go right ahead without intermission all season. "This year's work we hope will prove or disprove the Wainwright area as an oil producing field," said Mr. Emmons.
