MANSON'S NOT AN EASY TASK

So Says Editorial Writer Commenting on Enforcing of Beer Legislation

If anybody thinks the Attorney-General of this Province is enjoying the situation into which beer has thrown him it is time to think again says the Victoria Times. His task is just about as difficult as it could be and it is highly probable that in quarters where he should be able to find support and encouragement he looks in vain.

To all intents and purposes Mr. Manson has merely ordered that a section of the Government Liquor Act which has been openly defiled ever since the measure went into effect shall now be enforced to the letter. The only person authorized to sell beer is the Government vendor. Organizations which have been selling beer to date have been breaking the law. There is no relation between the recognized club which operates for the benefit of its members and the institution into which twenty-five cents and a signature have admitted thousands.

No Demand

Nor do we agree that Mr. Manson knows "that a demand for means of obtaining beer by the glass is made by a very large number of people," and that on this account the "period of abstinence before the vote is taken" seems unnecessary. We have yet to hear of a petition to the Government or Legislature asking for wider facilities for obtaining beer than exists at present. As far as we know there has not been a single public meeting called for the express purpose of drawing attention to this supposed fault in the law.

Mr. Manson is entitled to the support of the people in this determined effort on his part to enforce the law in a simple but highly important particular.
