REMEMBER THE HAPPY DAYS?

When you and the kids could step in the family jalopy and go a-visiting?

Until Victory is won, all pleasure travel must be forgotten. But if it is necessary for you to be away from home for a few days, leave your refrigerator at vacation setting — or only as high as is necessary to keep the interior cool while the door remains closed.

If you are going to be absent from home for a longer period, defrost, clean and empty your refrigerator and leave it disconnected until you return.
