Should Not Fail To Hear Lecturer.

From those who have heard Charles G. D. Roberts, the well known poet, novelist, nature student and historian it would seem that the lecture he is to give here Wednesday evening is something to look forward to with interest. It is not often opportunity is offered to meet a famous author but here it is and those who do not take advantage of it will probably regret it later.

Mr. Roberts is a Canadian, a member of a family of writers, and the most famous of them all. Many Prince Rupert boys will have read his stories of animals, which he studied in their native haunts in New Brunswick. His "Heart of the Ancient Wood" is an entrancing tale of a girl and a bear in which the girl learns the ways of the wild things and becomes on good terms with a big bear. The stories while to some extent imaginative, are true to life and excite the sympathies of the reader for the animal as against the hunter. He sees the poetic side of animal and bird life.

The day following the lecture Mr. Roberts will be the honored guest at a luncheon given by the Canadian clubs of the city at which he is expected to deliver a short address. To appreciate the address it will be necessary to hear the lecture.

Flight Of Zanni Across Pacific.

While the glamor of the transpacific flights has been taken away by the success of the Americans in getting across successfully, yet the length of time they took doing it and the difficulties they met indicate that there is yet much to learn about long distance flying, which the flight of Zanni may help to elucidate. Until an airman can land on the opposite side of the ocean in a few days after leaving the opposite side, flying cannot be considered a success. If flying takes longer than travelling in a steamship, why fly?

Zanni will be leaving Japan soon and is expected to make a stop at this port, if he gets this far. We shall look for the Argentine with almost as much expectancy as we looked for the arrival of the American planes which passed north or the McLaren plane which failed to arrive.

There Is Nothing To Do; Let Us Go And Fish.

The trout fishing season has opened and from now on at week ends and holidays those who are attracted by the lure of the streams will be away fishing. Nothing ever tires the fishing enthusiast. He rises early, makes long boat trips and tramps for miles through the muskeg in order to whip the stream or dangle the bait in the hope of bringing home a few small speckled fish.

The poets have pictured the angler as a lazy person who idles away his time on the bank of a stream. As a matter of fact he must be a person of superabundant energy or he does not bring home a very big basket.

There are a number of people in the city who are new to the place and who have not had the opportunities for enjoying the sport that offers. For the benefit of these and others who have not yet taken advantage of the inducements here, it might be worth while saying that there is no place on the continent from which so many fine fishing resorts can be reached. They are not easy of approach else the fish would not be there, but they are available to the person with a reasonable amount of energy and determination and a modicum of skill.

"Exhausted Nerves and Palpitating Heart"

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:

"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I tried several doctors, but it seemed nothing they gave me helped. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I tried it, and can say it certainly has done wonders for me. I did not stop until I had taken twenty-five boxes."

SPIDER GROUP AGAIN BONDED

Property Formerly Worked by Algunican Syndicate is Taken Over by Joe Green.

After bonding the Spider and Webb groups of mineral claims at Stewart, Joe Green of Hyder, Alaska, was a passenger going south on the Prince Rupert this morning to make arrangements for the working of the properties.

The Spider Group, which is one of the best known properties in the Stewart district, was bonded by Mr. Green for the total price of $50,000, a substantial cash payment being made. This property, situated in the Upper Salmon Valley, was located by Charles Larson and William Hamilton and was bonded in 1920 by the Algunican Syndicate who later relinquished it on account, it is said, of the high rate of exchange on Belgian money.

The Webb group, which is owned by W. R. Tooth, Kenny McLeod, Pat McBride and Jack Howse, consists of six claims which may ultimately be of some value in connection with the development of the Spider.

ARRANGEMENTS FOR VISIT OF AUTHOR

Canadian Club Executive Decides That Each Member May Take Guest to Luncheon

At a meeting of the executive of the Canadian Club at the Court House last night, President W. S. Fisher in the chair, final arrangements were made for the Canadian Club luncheon to Charles G. D. Roberts, the famous poet and novelist who is to lecture in the Booth School tomorrow night and incidentally will be a guest of the club Thursday at luncheon in the Boston Hall.

It was decided that each member of the club in good standing should be entitled to bring one guest and members of the Women's Canadian Club had already been invited by the president and the action endorsed. Musical arrangements were left in the hands of the president.

Mr. Fisher mentioned that the main object of the visit of Mr. Roberts was the lecture to be delivered Wednesday evening in the Booth School auditorium and he hoped members of the club would attend it. Mr. Brady who had charge of that event had kindly co-operated in making the luncheon on Thursday possible. The address on that occasion would be quite different from the lecture. Members of the club did not want the luncheon to overshadow the other event or to interfere with the attendance at it.

COMMUNICATION ON WATERFRONT ROAD

Letter From C.N.R. Superintendent Says it is up to Government to Build it

In reply to a letter sent to the railway company regarding the possibility of having a road built to connect the G.T.P. and government wharves, the city council last night received a communication from I. A. McPherson, C.N.R. superintendent, in which the view was given that, inasmuch as the removal of the Manson Way overhead crossing by the government had created the necessity for such a road as asked for, the building of such road should be looked after by the government. Hon. T. D. Pattullo, on a recent visit to the city, told the council that the road asked for would pass over railway property and, therefore, the railway should be approached with a view to having it built.

Sold only at The Rexall Store

To women everywhere Spring brings all the many problems embraced in the word "hats." Not the least of these is the natural question, "Shall I wear last season's straw which only needs a different color and new trimming to suit me exactly, or shall I experiment with a new straw which may not look well on me at all?"

Why not let Elkay's Straw Hat Dye settle the question? With this inexpensive dye you can make last season's straw look new and different so quickly and easily you will wonder why you didn't try it long ago.

The results will delight you and you will save considerable toward other Spring apparel.

Elkay's Straw Hat Dye is permanent and waterproof, dries quickly to a lasting, lustrous color and actually restores life to the straw. Directions and brush with each bottle.

Select your favorite color from the following: Dull Black, Liberty Blue, Burnt Straw, Old Rose, Violet, Natural, Gloss Black, Navy Blue, Gray, Cerise, Sage Green, Cardinal Red, Yellow, Cadet Blue, Brown, Lavender.
