# ANOTHER PULP MILL FOR B.C.

VANCOUVER— Possibility of the erection of a pulp mill in British Columbia by the Newfoundland Pulp and Paper Mills Ltd. has been under consideration for some time. Sir Eric Bowater, president, is reported to have said in an interview with a financial paper that British Columbia would be the most probable locale of the company's future expansion.

ed one to the visitors proposed by Mr. Youngman and responded to by James Stanley who has bowled in various cities from Halifax to Prince Rupert, also taking part in Dominion championships. He expressed particular gratification at the warm reception he had received in Prince Rupert.

In the course of general discussion of bowling, in which Jock McGreish, Angus Macdonald and others took part, the desirability of the playing season here being so arranged as to permit of local participation in provincial competition was stressed.

The entertainment program was highlighted by an impressive display of locally taken colored moving pictures by Sergeant L. A. N. Potterton and piano-accordion and novelty piano playing and singing by Miss Norah Thompson. W. T. Terry also told stories. S. C. Thompson presided at the piano.

A vote of thanks was tendered to the entertainers on motion of J. A. Frew who suggested that steps should be taken to preserve as a matter of local record the fine moving pictures of Sgt. Potterton. Bert Morgan seconded, making a suggstion, while speaking generally, that bowling trophies might be kept on permanent display, like other local sporting trophies, at the Civic Centre.

The committee in charge of arrangements for the evening included Neil Cameron, Jack Judge, Bert Morgan, William Rance and Vic Duncan.

# UNDERTAKING IS ENORMOUS

VANCOUVER.—A preliminary survey, in connection with determining the location of an aluminum plant site in British Columbia is still going on. The director of information for the aluminum firm, I. S. Decarie, says there are three up coast sites. Present surveys will conclude next summer, and then, if findings warrant it, another $1,000,000 survey will commence.

"Then," said Mr. Decarie, "the decision whether or not to go ahead will have to be made. If it is 'yes,' between $300,000,000 and $500,000,000 will have to be obtained for the construction of power lines, a city, an aluminum plant and probably a port."
