Formosa Patrols Become Routine

TAIPEH, Formosa (AP)—Nationalist air and sea patrols along the China coast opposite Formosa have become such a daily routine that communiques have been discontinued, an official spokesman said today.

There were sporadic artillery exchanges between defenders of Quemoy, Nationalist island base seven miles off shore, and Red batteries on the mainland, the spokesman said.

Older people need a balanced diet without which they may suffer a mild form of malnutrition. If there are dental troubles the meat grinder will help to break down tougher foods.

Yugoslav-Italian Pact Near

WASHINGTON (AP)—Yugoslavia and Italy may sign within a few days an agreement finally settling the long dispute over Trieste territory, which has disrupted their relations since the end of the Second World War.

Britain and the United States have pressed hard for an agreement for several months. Officials are cautiously hopeful that settlement may be concluded at a meeting in London late this week or early next week.

They are cautious mainly because the dispute has appeared several times before to be at the point of decision and then some last-minute hitch has arisen to cause further delay.
