Oriental Percentage Gradually Falling.

The report of the minister of labor made through his deputy, J. D. McNiven, tells of a steady falling off in the proportion of Oriental labor in the province including Chinese, Japanese and Hindu. According to that report there were last year only 11.97 per cent of the industrial workers of Asiatic origin. In the year 1918 the proportion was 20.37, in 1920 it was 16.64 and in 1922 it had dropped to 13.85.

The report does not attempt to account for the change but undoubtedly it means that the influx of Orientals has been stopped and the influx of Europeans and the natural increase of Canadians is steadily reducing the Oriental menace and making the Oriental less a factor in Canadian industrial life.

New B.C. Public Service Bulletin.

The Provincial Government has issued from Victoria the first number of a monthly journal "The British Columbia Public Service Bulletin," which deals with the most important matters from a governmental viewpoint taking place in the province during the month. In the first number it deals with the by-election in Grand Forks-Greenwood, mines production, Doukhobors and education, university land sale, Wembley fair exhibits, Oliver settlement, Lieutenant-Governor's scholarships, vaccination precautions, public accounts, music in schools, industrial development, beer sale regulations, policing of municipalities, Dease Lake mining and women's institutes.

The bulletin is written from a non-political point of view and of necessity deals with questions which have already been discussed in the daily press. One article might be criticized as being out of date and that is the one dealing with the Dease Lake situation. It mentions "a rush which is looked for" whereas everyone knows that the rush, such as it was, is over long ago and the people who went in are now in many cases returning. It is desirable that such a journal should be up to date in its news.

Good To Kill Seals If Good To Kill Sea Lions.

Seals and sea lions eat the same kind of food. They all live on fish, the kind that Prince Rupert people catch. The Domonion government has seen it worth while to send out a vessel and at considerable expense and without any hope of direct return to kill off thousands of sea lions. At the same time they refuse the people of Prince Rupert the right to kill the seals that eat our fish and yet all that is necessary is to annul the treaty with the United Statesand let the halibut fishermen get a chance at them.

Commissioner Babcock is anxious to protect those seals, but just what benefit the protection is to Canada we have yet to see. If the sealing were thrown open, Canadians would have an opportunity to earn an honest dollar by hunting them and local fur dealers would have a chance to earn a dollar by buying them. As it is everything goes away and we get nothing.

Much Sympathy With Santa Barbara.

We have much sympathy with the people of Santa Barbara. Fire insurance does not cover the loss on buildings shaken down and it will be very difficult to rebuild.

Old Mother Earth shook herself and the ants on the surface were disturbed. A few were killed and others injured and their habitations destroyed. What does it matter? says Mother Earth. There are lots more like them.

Yet to us, who live not far from the scene and who also are in the belt that is likely to be shaken at any time, the condition of the Californians appeals. There is a feeling of kinship which makes us sympathize when ruthless Nature crushes out the lives of a fellow.

SALARY VOTE FOR ENGINEER IS DEFEATED

Mayor Assumes Right To Vote Even Though There Is No Tie At Council Meeting.

CHALLENGED BY SOLICITOR

The discussion on the matter of paying former city engineer Pearson for the month of June was resumed in the council last night. Those participating in the discussion being Aldermen Perry, Casey, Larson and Brown.

Alderman Larson contended that the city would be establishing a precedent in paying this amount which seemed to be in opposition to the stand taken some time back when Rolf Walker left the employ of the city and asked for two weeks' holidays. At that time the matter was very strongly contended by certain members of the council and it would be a very bad business to attempt something at this time which was not supported then.

Alderman Brown was of the opinion that the money was for June salary to which the Engineer was really entitled.

Alderman Perry felt that the Engineer had really done good work for the city and he knew to his own personal knowledge that he had worked every Saturday afternoon and overtime without any remuneration and felt that he was entitled to salary for June.

Mayor Newton said that he wished to further emphasize that the Engineer had received his salary for holidays which were taken last fall for the year 1925. Further, he said, the Engineer was on several occasions ill and incapacitated for work, and no deduction had been made in the salary, and he could not see that the city was justified in voting money for this purpose.

Alderman Casey referred to the case of Rolf Walker and also to his own experience in the employ of the city as fireman for three years and could not see any justification for the vote. He doubted whether the matter had been properly brought up, as the proper notice was not given and he considered the whole thing out of order.

Upon the vote being taken Aldermen Smith, McMordie, Brown and Perry voted favorable and Aldermen Casey, Larson and McKechnie opposed. The Mayor then said that he would vote with the opponents, which action was challenged by the City Solicitor. The City Solicitor then proceeded to read from the Municipal Act to support his contention, and the Mayor said that he would take such sections to mean that he had the power to vote and he would consequently declare the motion lost, since a tie vote could not carry. Alderman Stephens was not present at the meeting.

CLIMBED MOUNT EDITH CAVELL IN ONE DAY

Guides at Jasper Made Quick Work on Well Known Jasper Park Peak.

JASPER, June 30.—Setting a new record for the climbing of Mt. Edith Cavell which is over 11,000 feet in height, Henrich Fuhrer and Hans Kohler, Swiss guides stationed at Jasper Park Lodge, on Sunday, climbed to the peak of Mt. Edith Cavell and returned to their quarters at the lodge before dark the same evening. The climb of Mt. Cavell has previously taken most of two days to accomplish.

Leaving Jasper Park Lodge at 3 o'clock Sunday morning the guides motored to the end of the Cavell highway and then crossed the glacier to begin their ascent from the south side. The peak was reached at 8.05 in the morning and the descent commenced at 9 o'clock. The climbers descending by the back pass. Packing their equipment back to the lodge the guides made the return journey and checked in at their quarters at 7 o'clock on Sunday evening, establishing a new record for the scaling of this difficult peak.

The Man in the Moon SAYS:-

A HICK town is one where even a bum can get unlimited credit.

I DO not mind a person being good as long as he does not air his goodness too much as a comparison with my badness.

WHAT I like about animals is that the moment they have enough they stop grabbing.

WHEN you see suspenderless summer pants clinging close to a round tummy you wonder if there really is such a thing as gravitation.

EDISON says that noise is necessary in a busy world. That accounts for some of the noisy people one hears around Prince Rupert.

A FAMOUS music teacher advises her pupils to smile when singing. It's easy enough for the singer to smile but too often the audience feels like swearing.

IN this part of the country most of the bachelors have piloted safely through June. If they can only pass July there is hope they may escape the wiles of the temptress.

Business in the country will be picking up soon. The potato digging season is coming.

THE latest fish story is of an angler who is also a progressive businessman. He went to Khtada Lake and while there went out with a fish hook in his pants pocket. First thing he knew the fish were jumping out of the water nipping at the pants trying to get at that hook.

They met in the park at the first of spring,
When the lambkins gambol and the birdies sing.
They loved each other like everything—
Even as thee and thine.
They courted at eve in a parlor dim;
They walked an aisle to a wedding hymn,
And their cup of joy was full to the brim—
Even as yours and mine.

The story's as old as "The Prodigal Son,"
That two can live as cheaply as one;
But soon they found it couldn't be done—
Even as us and we.

An apartment house with a fancy name,
Was their abode till the 'heiress' came,
And they said, "We'll beat the landlord's game"—
Even as thou and thee.

So they journeyed out from the city's smoke,
And bought a lot where the bullfrogs croak;
They built a house and went quite broke,
Even as me and my.

Each eve they watch the flivers go by,
The mosquitoes sing and the hoot owls cry,
And they sometimes wonder and often sigh—
Even as you and I.

Ten Years Ago in Prince Rupert

June 30, 1915.

Dr. Weymouth of Stanford University, who has been employed by the Provincial Government to study the history and habits of the crab in order if possible to preserve this industry for sometime, is in the city and is studying specimens as they are brought in to the Crown Fisheries on the government wharf.

The Sons of England and the Callies played to a draw in their scheduled game at the Acropolis hill grounds last night. The score was three all and was not without considerable interest.

Lieut. Nichols has just returned from Victoria where he took his qualifying course at Work Point Barracks.

The total catch of halibut for the month of June which was shipped through this port, totalled 1,700,000 pounds. The total amount of salmon handled during the month amounted to 1,255,500 pounds.

DOES EVERY MEAL CAUSE YOU DISTRESS?

IF IT DOES YOU SHOULD TAKE

BURDOCK BLOOD BITTERS

Mr. M. P. Eldridge, Beaver Harbor, N.B., writes:—"I was troubled with my stomach for some time, and everything I ate seemed to distress me. I tried many different medicines, but without any results. Finally I was advised to try B.B.B., and after having taken several bottles I was completely relieved of my trouble. I can now eat anything I wish, thanks to B.B.B."

Burdock Blood Bitters puts the stomach into perfect shape by promoting proper digestion; and during the past 46 years it has been on the market has made a reputation, second to none, for relieving all stomach troubles.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO END OF DECEMBER, 1924.

Has produced Minerals as follows:—Placer Gold, $77,382,953; Lode Gold, $118,473,190; Silver, $68,824,579; Lead, $70,548,578; Copper, $187,489,378; Zinc, $32,171,497; Miscellaneous Minerals, $1,451,349; Coal and Coke, $260,880,048; Building Stone, Brick, Cement, etc., $42,225,814; making its Mineral Production to the end of 1924 show an

Aggregate Value of $859,427,386

Production for Year Ending Dec. 1924, $48,704,604

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any colony in the British Empire
Mineral locations are granted to discoverers for nominal fees.
Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.
Full information together with Mining Reports and Maps, may be obtained gratis by addressing—

THE HON. THE MINISTER OF MINES
Victoria, British Columbia.

N.B. — Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.
