CANADIAN NATIONAL RAILWAYS.

Western Region.

SEALED TENDERS will be received at the office of the Chief Engineer, Winnipeg, Man., until twelve o'clock noon, Thursday, the 20th day of August, 1925, for the renewal or replacement with concrete pipe of thirty-four wooden culverts on Smithers Division, and construction of 7 ft. by 7 ft. reinforced concrete box culverts at Mile 66.3 and Mile 134.6, Fraser sub-Division.

Plans, specifications and form of contract may be seen and form of tender obtained at the Offices of Chief Engineer, Winnipeg, Man.; District Engineer, Vancouver, B.C.; District Engineer, Edmonton, Alta.; Division Engineer, Prince Rupert, B.C.; Division Engineer, Calgary, Alta.

Tenders will not be considered unless made on the form supplied by the Railway Company and accompanied by an accepted cheque of a chartered bank equal to five per cent of the value of the work, payable to the Order of the Treasurer, Canadian National Railways.

The lowest or any tender not necessarily accepted.

W. A. KINGSLAND,
General Manager.

Winnipeg, Man.,
August 8th, 1925.

WATER NOTICE.

Use and Storage.

TAKE NOTICE that William C. Splan, whose address is Lockeport Cannery, Q.C.I., B.C., will apply for a licence to take and use 2 miner's inches daily and to store 8,000 gallons of water out of an unnamed stream which flows southerly, and drains into west arm or west portion of Lockeport Harbor, Q.C.I., B.C. The storage-dam will be located at the source of the stream. The capacity of the reservoir to be created is about 8,000 gallons, and it will flood about ¼ acre of land. The water will be diverted from the stream at a point at its source, and will be used for domestic and cannery purposes upon the land described as Lot 518 and Lot 441 Block A, Queen Charlotte Islands, B.C. This notice was posted on the ground on the 18th day of July, 1925. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is July 23, 1925.

W. C. SPLAN, Applicant.

WATER NOTICE.

Diversion and Use

TAKE NOTICE that Engineer Gold Mines Ltd., whose address is Engineer Mine, Atlin, B.C., will apply for a licence to take and use the total or ten cubic feet of water out of Gleaner Creek also known as Butler Creek, which flows westerly and drains into West Taku Arm about at Engineer Wharf. The water will be diverted from the stream at a point about the southwest corner of the Mickey claim, and will be used for domestic purposes upon the mine described as the Engineer Mine. This notice was posted on the ground on the twenty-second day of July, 1925. A copy of this notice and an application pursuant thereto and to the Water Act, 1924, will be filed in the office of the Water Recorder at Atlin. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 6th, 1925.

SUBURBAN LAND TO BE OPENED

First Steps Taken to Make Small Acreage Available for Local People

A special committee of the Board of Trade appointed for the purpose met Hon. T. D. Pattullo, minister of lands, yesterday afternoon and discussed with him the suggestion that some of the provincial lands held in the district should be surveyed and placed on the market, making them available for market gardens, poultry farms, vegetable gardens and suburban residences.

The matter was discussed at some length and the minister expressed agreement with the idea and said he would on his return to Victoria at once instruct the surveyor general to proceed with the preliminary work.

Mr. Pattullo explained that all the lands on the island new road section with the exception of a portion reserved for park purposes was the property of the Canadian National Railway. Digby Island, omitting the Dominion Government and Indian reserves, belonged to the province and so did the stretch of land between Shawatlans Lake and Butze Rapids on the opposite side from Kaien island. These might be suitable for subdivision. The whole matter would be investigated and the committee would be consulted as to what would be the most suitable tract.

The same committee will interview A. E. Field, who is in charge of the land department of the Canadian National Railways, when he visits the city with a view to having some of the suburban land on the Island opened for settlement.

CROWN DECLINES TO MEET EXPENSES OF DEFENCE WITNESSES

Application of L. S. McGill of Smithers, counsel for Albert Edison, who will appear at the Supreme Court Assizes tomorrow morning in answer to a charge that he stole $250 from Carl Fredericksen at Hazelton on June 5, that the crown pay the expenses of four defence witnesses whom the accused, on account of lack of funds was unable to bring to the trial, was refused by Mr. Justice D. A. McDonald yesterday afternoon. The attorney general's department has already refused to meet the expense on the ground that the witnesses are not necessary to the case. His Lordship said he saw no good reason to take the responsibility of overruling the attorney general's department.

Mr. McGill explained that the purpose of these witnesses would be to give evidence as to money earned from them by accused during the four months preceding the alleged theft. Mr. Patmore, crown prosecutor, said that, if these witnesses could not identify the money, they would be irrelevant to the case. He would not attempt to contradict any evidence that might be presented as to the amount of the money that had been earned by accused.

The witnesses referred to are J. McNeil of Telkwa; H. G. Olsen, and Oscar Lundstrom of Smithers, and S. Anderson of Decker Lake.

LAND ACT.

Notice of Intention to Apply to Lease Land

In Prince Rupert Land Recording District of Prince Rupert, and situate at Yes talton Bay, Massett Inlet.

TAKE NOTICE that Eugene H. Simpson, of Massett, B.C., occupation canneryman, intends to apply for a lease of the following described lands:—

Make your own Mustard Pickles

Home-made mustard pickles. How delicious — and how easy to put up. Here's the recipe:—

MUSTARD PICKLES

1 qt. small onions — 1 large cauliflower
1 qt. cucumbers — 2 heads celery
2 red peppers

Peel onions, cut vegetables in small pieces, cover with weak brine and let stand overnight. In the morning bring to a boil and drain off.

Take 2 cups brown sugar, 1 cup flour, 6 tablespoonfuls Colman's D.S.F. Mustard, 1 tablespoonful turmeric and 2 quarts vinegar. Boil this mixture for twenty minutes, stirring continually. Pour over vegetables hot. Let stand ten days, stirring every day, then bottle.

CANCER CURSE KILLING MANY

Dr. Ernest Hall Tells Victorians of Advance in Methods of Treatment

"It is estimated by a distinguished London surgeon that of those now living in the United Kingdom 5,000,000 are doomed to die of cancer if they do nothing to prevent it," Dr. Ernest Hall, L.R.C.P., Edin., said on his return to Victoria according to the Times of that city.

"In the United States the number doomed to die of cancer is ten million, that is, one in ten, and possibly one in five."

Dr. Hall declared that the large attendance at Dr. Hoffman's centre in Memorial Hall this week indicated the importance which the cancer situation is assuming in the minds of the public.

"The public reasonably looks to our profession for guidance in such matters," Dr. Hall went on "As corroborative evidence of what Dr. Hoffman states about the prevalence of cancer, I may say that I have lost three patients during this last week from this disease.

"Out of 100 cases operated upon with the knife by the best available skill, sixty will be dead or dying at the end of five years, and this, remember, is the result after the ablest talent of the profession has been overshadowed in attempts to save the situation.

"No wonder, then, that consternation reigns where cancer rules, and terror strikes home when a diagnosis of malignancy is given.

"Why all this? Were we created to die from cancer? Why this wide-spread prevalence which indicates a cause as far-reaching in its malignancyi s active?

Emphasize Causes

"You ask what we are doing to prevent cancer? Little. True, Dr. Hoffman mentioned certain facts of causation of great importance, but these need to be emphasized, and over-emphasized.

"We need a society for the prevention of cancer as we have for prevention of consumption.

"Sir A. Lane has developed the 'New Health Society' in London whose purpose is to educate the public along the lines of action that will tend to limit the intensity of the disease. He says if the public would eat proper food and attend to elimination, that in 100 years cancer would be as scarce as leprosy.

"Cancer is nature's protest against disobedience, the penalty which nature imposes upon those who disobey her laws.

"'I shall not die of cancer,' cries Sir Arthur Arbutnot Lane, 'for I keep my blood clean and see that my elimination is free.' What he does the people of British Columbia may do.

Civilized Habits Blamed

"Dr. Mayo says, 'We have come to the conclusion that cancer has to do with the soul of the individual—the way he lives.' And wtih this, there seems to be general agreement among those of the greatest experience.

"Again he says, "Cancer of the stomach includes three-quarters of all cancers in men." And then he asks, 'Is it not possible that there is something wrong in the habits of civilized man, either in his cooking or in other preparation of his food, that acts to produce the pre-cancerous condition.' Meat eating has increased 400 per cent. within the last 100 years. If we ever hope to cope with cancer we must go back to its cause.'"

Dr. Hall has just returned from the Mayos, the great central depot for the surgical treatmen of cancer.

"But with all the unrivaled skill of modern surgery the mortality rate from cancer is yet at least fifty per cent—a most discouraging factor—so discouraging that some surgeons are abandoning the knife and adopting other means," Dr. Hall went on.

"X-rays and especially radium has been beneficial in many cases, but the latest advancement in the treatment is by the cautery, and a word of hope can be extended to our cancer patients."

Cautery System

Dr. Hall has spent a great deal of time and money instudying cancer, having spent a time in Dr. Massy's hospital in Philadelphia studying the ionization system and subsequently the Abrams system only to find disappointment. But recently he was associated with Dr. Percy in Los Angeles, who has for thirty years tested the application of the cautery in all malignant conditions with the satisfaction of reducing the death rate at least twenty-five per cent. Dr. Hall remained with him for several weeks and left convinced that the supercedence of the knife by the cautery has marked a decisive advance in the treatment of cancer.

"If seventy-two per cent remain cured after five years, surely the outlook need not be painted so black, and this is what Dr. Percy claims," Dr. Hall went on. "Remember that we know of no treatment but extirpation, but for that the electrical cautery is apparently the best method up-to-date, and Dr. Percy is anxious that this information be extended as widely as possible."

Dr. Hall also expressed willingness to give a public address on the subject of cancer at any time he was called upon, and will deal exhaustively with the apparent cause, and the most up-to-date system of treatment. He is also anxious to start an anti-cancer crusade, or co-operate in the development of an anti-cancer society for British Columbia.

Are You Strictly Up-to-Date?

EVERY day new inventions appear to save you time, money and effort. All the time new comforts, new conveniences and new pleasures are being thought out for your individual benefit.

Do you know about them? Are you up to the minute on this vital news?

The advertisements bring you information of all this progress. Read them and you will know about the very things that concern you most---things that have a very direct influence on your life and that of your family.

The advertisements tell you where to get these things, how to get them and how much to pay. For advertising is a daily directory to wise buying.

Don't rob yourself of the benefits that come from regular and systematic reading of the advertising columns. Advertising is altogether too important to be missed. Read it every day.

It's a profitable practise

MORE OFFICIALS COMING TO LOOK OVER POWER POSSIBILITIES OF CITY

(Continued from Page One).

ish Columbia is moving ahead with stolid indifference to the difficulties of the times; is increasing in population; is turning its natural resources into liquid assets and is solving its political and fiscal problems."

Mental Attitude

Mr. Pattullo said that having felt that way himself for some time he was particularly glad to see an opinion from the East that agreed with his. The mental attitude was all that was working detrimental to Canada The only thing to clear up the situation just now, he thought, was an election.

In Prince Rupert people worried because things had not come as fast as they should. He had, since he came to the city, visited the elevator and some of the other improvements, and he had been asked half a dozen times if any grain was likely to go through it. This was the wrong mental attitude. He then read the editorial article from the Vancouver Sun about Prince Rupert getting everything when Vancouver got nothing, which was published in this paper yesterday. He thought it unwise to cultivate the spirit of self-depreciation.

Appearance of City

Mr. Pattullo spoke of improvements he saw going on in the city. The city councils of the past few years were to be congratulated on the improvements they had made. Prince Rupert now had a city-like appearance. Much of her prosperity he considered was due to the class of people here. He would not hesitate to say that he knew of no town, and he knew a good many, where there were so many high-class businessmen as in this. All that was needed now was power and plenty of it to insure steady progress.

ANCIENT TOURISTS.

WINNIPEG, Aug. 21. — An age record has been set for automobile tourists registering here this year. J. A. Sargent of Crookston, Minn., aged 79 and Mrs. Sargent, aged 77, arrived in their trusty car, aged ten. Mr. Sargent is a veteran of the American civil war.
