PLANE DUE BACK FROM ISLANDS ON WEATHER ALLOWING

Flight Lieutenant Earl McLeod, in flying boat GA of the local fisheries patrol detachment, will return from the Queen Chariotte Islands the first day now that weather conditions permit. He will bring with him Major E. J. Ashton, commissioner of the Soldiers' Settlement Board, whom he took across last week. On the return of Lieut. MacLeod one of the planes will go back to the Islands to be engaged in patrol work for the balance of the season. It is possible that Squadron Leader J. H. Tudhope may make the next flight himself.

FLIGHT PLANNED FROM LONDON TO CAPETOWN

Ambitious Feat to Be Attempted in Order to Test Out Route

LONDON, Sept. 2—Plans have reached an advanced stage for a flight from London to Capetown and back by Alan J. Cobham and A. B. Elliott, who last winter flew to Burma and back. It was at first hoped that Sir Sefton Brancker would accompany them, but he is unable to do so.

The trip, it is hoped, will be made late this year in a DH-50 of the same type as was used on the flight to Burma except that the 240 h.p. Puma engine will be replaced by a radial air-cooled Jaguar engine of 385 h.p. In 1920 Sir Helperus van Ryneveld flew from London to South Africa on a Vickers-Rolls Royce and found that owing to the altitude at which the aerodromes on the route through Africa were situated there was great difficulty in getting the machine off the ground. The higher-powered engine is being installed to overcome this.

The journey is being undertaken in order to survey the air route between London and Capetown. This will be the first time that an attempt has been made to fly to the Cape and back, and owing to the nature of the country it is a much more ambitious feat than the flight to Burma.

CROPS FAVORABLE ALL PARTS OF CANADA

No change of importance has taken place in crop conditions during the past week, says the Bank of Montreal weekly report. Harvesting is in full swing in the Prairie Provinces, although there has been some delay from rain and with favorable weather threshing will be general within the next few days. Slight frost with possible small damage is reported from northern sections. In Quebec Province general conditions are still very good and in Ontario harvesting of abundant grain crops is being completed in warm dry weather. In the Maritime Provinces the outlook is promising, except that appeals are only fair. In British Columbia heavy rains have been of benefit to all crops.

JAPANESE DESTROYERS AUCTIONED AT KURE

Others Are to Be Sold Soon and Steel Used for Building Purposes

TOKIO, Sept. 2.—The destroyers Oboro and Akebono were auctioned off to Yasutaro Kagawa of Kure at 7,109 yen apiece recently at the Kure naval station. The ships originally cost 200,000 yen each. They are for breaking up, the steel to be used for building purposes. The warship Suma and the destroyers Nowake, Matsukaze, Shirayuki and Arare are to be put up for auction at the Sasebo Naval Station shortlyll Ensigns and coats-of-arms will be removed and placed in the naval museum to be created on the warship Mikasa.

RATE TO CHINA IS CHEAPER THAN COAST

Plan to Encourage Export Trade Seems to Work Hardship on Local People

Canada is selling bread to China cheaper than it is selling it to Vancouver, says the Vancouver Star. That is, the wheat of our Western prairies is laid down in China at a lower cost than that same grain is delivered to Vancouver bakers. In return Chinese living in China and Chinese living in this city are boycotting the trade of this port. They aim to garrotte the very people who are feeding them. Here's the proof:

Railways give a special freight rate on grain through this port intended for export. That rate is, per ton, $4.50. Ocean rate to China is, per ton, $2.75. Total rate to China from Calgary, per ton, $7.25. Railway rate to Vancouver from Calgary, per ton, $8.30.

In another way, the domestic railway rate on grain to Vancouver from points in Alberta is 41½ cents per 100 pounds. That same grain laid down in the elevator here for export is 22½ cents. On a bread basis—Canadian bread at that—it is cheaper by $1.05 a wheat ton to live in China.

Canadian railways give that cheaper freight rate to encourage export trade. If that trade boycott against British Columbia ships keeps up Canadian bread in China must be made dearer.
