STORM 3000 MILES DIAMETER ON PACIFIC

CITY COUNCIL DECIDES ON LINE OF POLICY FOR COW BAY SETTLEMENT

City Council Agrees on Policy with Regard Settlement at Cow Bay

City will be party to transfer of authority if Dominion undertakes to provide facilities for fleets

After a long and tedious discussion the city council last night decided unanimously that the city should take up with the Dominion authorities the question of having provision made here for the fishermen and that when an agreement was reached the city would relinquish its right in Cow Bay. The resolution covering it was a compromise one.

Alderman Stephens was anxious to throw the matter back to the Provincial Government to negotiate with Ottawa, but Alderman Casey urged strongly that the city, being the most interested party, should carry on negotiations and eventually the latter prevailed, although it was agreed that until the whole question was settled, the city should not sign off its rights or take over the waterfront property.

The first resolution moved by Alderman Stephens was that Mr. Pattullo be advised to take the matter up direct with Ottawa and when protection is afforded for the fishing fleet the council would not withold its consent to the filling of Cow Bay. This was seconded by Alderman Brown.

Prince Rupert's Duty

Alderman Casey emphasized that the people of Prince Rupert were the ones most affected when it came to doing anything for the fishing fleet. The fishermen thought the council should bestir themselves with a view to protecting the industry and they could not dispose of the matter as easily as Alderman Stephens suggested. He proposed that the city sanction the transfer and the filling in of Cow Bay providing action were taken to provide accommodation for the fishing fleet and yacht club. They should take the matter up with Ottawa. Fred Stork had pledged himself and Engineer Forde had showed plans of the proposed improvements. Should the Government change to Conservative, they have H. H. Stevens' pledge that they would take care of the fishing fleet. Public opinion was in favor of some action being taken along those lines. The engineer said he could make the improvements, the Governments said they could have them so they should do what they could to complete the arrangements.

Alderman Joe Greer suggested that the city was in no position to undertake the work of caring for the fishing fleet unless they had some assurance that the work would be done by the Dominion. The Provincial Government had been putting in some money for the maintenance of the floats. He was in accord with the idea that they should interest themselves in bringing about a settlement. It had been hanging on for fourteen or fifteen years. He seconded the amendment.

Should Negotiate

Mayor Newlon suggested that the amendment to the motion was the one most likely to bring results. He objected to allowing the matter to drag on for years. Last year Mr. Naden had come and asked them to exchange the East 200 feet of waterfront for the Westerly 200 feet. They then went on record as asking for 300 feet. The matter was allowed to lie in abeyance and now they

Man and Woman Are Alleged to Have Stolen $3,000 From Woman's Husband

LOCATED PRINCE GEORGE

REGINA, Jan. 27.—Taken into custody on January 18 at Prince George, Ernest Flanagan, Mrs. Josie Burge and the latter's daughter, Mary, aged six, were brought to Swift Current where the two adults were identified as the couple who were wanted in connection with the theft of $3,000 from the woman's husband, George Burge.

The discovery that the trio were at a Prince George boarding house ended a four months' dominion-wide search by the Saskatchewan police.

Flanagan and Mrs. Burge will appear for preliminary trial here on February 1.

R. H. POOLEY IS AGAIN MARRIED

International Wedding Took Place Yesterday at Rhode Island Home

PROVIDENCE, R.I., Jan. 27.— The marriage of Robert Henry Pooley, K.C., member for Esquimalt in the Legislature, and leader of the Conservative party in British Columbia, to Miss Mary Tillinghast, was solemnized at the home of the bride's mother on Tuesday night. The groomsman was Charles Plummer Hill of Victoria.

Among the messages of congratulation was one from Premier Oliver extending the congratulations of the British Columbia government to their leading opponent on the happy occasion.

Mr. Pooley, who is 48 years of age, is a native son of Victoria, his father, the late C. H. Pooley, being for many years member of the same constituency which he represents in the Legislature. Harry, as he is known to his friends, was educated in England where he acquired the accent and many of the peculiarities of the public school Englishman.

Mr. Pooley was previously married to Miss Loewen of Victoria, who died a year or two ago.

PRINCE JOHN IS COMING IN TOW

Cape Scott Going to Q.C. City Today to Pick up Disabled C.N.R. Steamer

The Hecate Straits Towing Co. reports the tug Cape Scott due here tomorrow having in tow the Canadian National steamer Prince John, Capt. Neil McLean, which lost her propeller at Queen Charlotte City on Monday morning and has since been crippled. The Cape Scott is proceeding to Queen Charlotte City after having delivered the coal laden barge Drumrock at Ocean Falls and will reach the Island point this afternoon.

The steamer Prince Charles is now being put in shape at the dry dock to relieve the Prince John in service and she will go on the run toward the end of the week.

Capt. Neil McLean will transfer from the Prince John to the Prince Charles as well as some of the other officers. Chief Engineer C. F. Davies, Second Engineer McGregor White and Chief Steward Frank Bray arrived from Vancouver on the Prince Rupert this morning to join the Charles. J. W. King, port steward for the company, was also on arrival from the south today to take charge of the outfitting of the vessel for resumption of service.

FELL 44 FEET TO HIS DEATH

Hector Queeneville was Member Ancient French-Canadian Family in Quebec

In falling 44 feet from a staging at the elevator about 1 o'clock yesterday afternoon, Hector Queeneville, announcement of whose tragic death was made briefly in the Daily News yesterday afternoon, sustained a fracture at the base of the skull and he died in the Prince Rupert General Hospital, to which he was hastily removed, at 2.30. An inquest is being held this afternoon.

Queeneville, who was employed as a rigger, was working on the staging bolting the base of one of the grain spouts. A boom holding the spout in place buckled and swayed against the staging and snapped off its supports, Queeneville being precipitated 44 feet to the deck below. Another man was on the staging at the time but he managed to avoid the fall by grasping another part of the building.

Inquest Today

The inquest, which opened at 1:30 this afternoon, is being presided over by Coroner Norman A. Watt. The jurymen are Steve King, Thomas McMeekin, J. Arthur Smith, John Bulger, J. H. Thompson and W. H. Sherman. Witnesses are A. McDougall, Sam Preston, H. M. Hale and Harry Osler, all employees on the elevator construction and who were working near Queeneville.

Deceased, who was forty years of age and a native of Quebec, was a pioneer of this city and district having come here over eighteen years ago. He owned several lots and at least two houses in the city and was widely known and highly respected by his many acquaintances. He was a member of one of the oldest French-Canadian families in Quebec, his ancestors having held one of the old French land grants before the conquest of 1859. Members of the family still live on the old grant.

Brother Coming

Some thirty-two years ago, the family of deceased moved to Massachussetts and his mother and brothers now reside at 75 Amherst Street, South Hadley. The B.C. Undertakers, who have funeral arrangements in hand, have been advised by a brother Eli Queeneville, to send the body east tonight on the train.

Only the night before his death deceased had been admitted as a member into Prince Rupert Assembly, Native Sons of Canada. His oldest acquaintance here was Ben Bolivar. He made his home at the Osborne House.

EDMONTON HOCKEY TEAM IS WINNER OVER SASKATOON

SASKATOON, Jan. 27. — Edmonton hockey team is beginning to make itself felt as a factor in the Western League. After picking up a victory over Calgary on Saturday it proceeded to the Saskatchewan centre last night and took the local team into camp to the tune of three goals to one. This suddent revival is likely to have an effect on the league standing if the winning streak of the Edmontonians continues.

Father Godfrey arrived on the Prince Rupert this morning from Ocean Falls.

YUKON MINER HOLDING FORT IS SURROUNDED

Shot Revolver From Hand of Police Who Went to Arrest Him in Cabin

DAWSON, Jan. 27. — John Smith, an old time resident miner of Sulphur Creek, 40 miles from here, ran amuck on Saturday when he fired a rifle shot in the direction of Edward Lowe, a neighbor. He then barricaded himself in a cabin, which had been loopholed for rifle firing and held at bay the police who had been sent to arrest him.

One constable approaching the cabin had the revolver shot from his hand by Smith who is an expert with the rifle.

Reinforcements sent from here Monday surrounded the cabin and it is expected Smith will be taken alive.

Local Drama Has Very Wide Appeal.

The dramatic works of William Shakespeare have a very strong appeal to many in this country, but they have nothing like the appeal that there is in a local drama. When two hijackers in the dead of night seized a rum running schooner, cruelly butchered the owner and his son and escaped to the United States, it aroused a feeling of resentment. When they were cleverly captured by the police and brought back to Canada, tried and convicted, it caused a feeling of satisfaction that crime was being properly rewarded. When the men appealed to higher courts to delay the time of execution and possibly to escape from the toils and get free, an emotion of fear was registered throughout the country—fear that they might by some subterfuge, through the manipulation of some clever lawyer make a getaway. Again there was satisfaction that they were to be rewarded according to their desserts and when the climax approached the mind of the populace was ready to receive a strong impression. Most dramatically it was given when Sowash, who was once a better man, warned people that the methods now employed were not producing proper results and could not produce them. It was no new message but the mind of the people was just ready to receive it.

Victoria Eager To Get The Message.

A day or two before the execution Dr. Clem Davies of the Victoria City Temple went to Vancouver and got the message from the man who knew he was about to die. We in our snug complacency do not know anything about what it means to be a criminal and neither do we realize how near many of the most respectable citizens have come to being criminals. We do not realize how many of them ought to be classed as criminals, if all the truth were known. Dr. Davies is a young man of rare insight, and he knew. After the execution he told the story to his congregation in the Royal Victoria Theatre and he spoke to close on four thousand people that evening, one group at 7.30 and the other at 9. On two consecutive evenings during the following week he preached again to record congregations in another hall and told the same story. He warned them against the pitfalls of crime and used the dramatic story of Sowash to bring it before them with sufficient force to leave a lasting impression.

Another Drama Two Thousand Years Ago.

The drama was used for a somewhat similar purpose two thousand years ago, when the greatest of men was crucified between two thieves. The execution, horrible as it was, is remembered to this day and told about in every pulpit in the country. True it was not the execution of a criminal but the tragedy was there and was used to impress the human mind.

Why Not Use Human Drama For Teaching?

Why not use the human drama for bringing home lessons and impressing them. Principal Brady, in a letter published yesterday, objects to this, yet he is an exponent of the dramatic art, as set forth by Shakespeare. The drama of life around us, we think, is just as impressive as Hamlet or Macbeth. Mr. Brady writes a good letter, but we think he has missed the point. Life as it is lived today is the life we have to meet, the bad influences of today are the ones we have to counteract. We have all been puzzled in regard to the prevalence of crime and the failure to reform the criminal. The old methods have proved abortive. Here is a man who is criminal and who knows from bitter experience whereof he speaks. Why not hear him? Some newspapers refused to pass on the message. We think they were wrong. We are glad that a small portion of it was telegraphed to this paper and given out here.

TIE VOTE ON TIME KEEPER

Proposal to Appoint New Official in Addition to Engineer is Not Favored

MAYOR RESERVES DECISION

Charge Made That in Past Cost Sheets had Been Faked by City Engineer

The proposal was made last night at the city council meeting that a time keeper who understood cost accounting should be employed who should report direct to the finance committee and the city treasurer and not to the engineer for the purpose of keeping track of the city work and checking up on the apportioning of the costs of the various jobs in the city.

In urging the employment of such a person Alderman Casey made the charge that there was some five thousand dollars of city money unaccounted for during the regime of a former engineer and he was not satisfied with the way city tenders were made when bidding against private contractors. When there was the whole city to draw from he did not see how any contractor could hope to compete.

Enough Official

Alderman Stephens thought there were enough officials in the city. They were appointing an engineer and if the aldermen would quit interfering with the engineer in the discharge of his duties they would not need anybody. If he could not keep the time they had better let him go. He was opposed to confidential men and preferred to do the city business in the open.

Mayor Newton also opposed the appointment. If there had been defects under former engineers, let them wait and see what the next man measures up to before taking such action.

Alderman Casey with some heat said the cost sheets had been faked in the past and in future there would be the same latitude. What he wanted to do was to safeguard the public.

Alderman Perry expressed the opinion that in the past everything had been done honestly and he favored trying the new engineer before making such an appointment.

Cost of Rock Work

Alderman McKechnie said it was an easy matter to make estimates come out right. A time keeper would check up on the work. He criticized the cost of putting the rock on the streets today and advised that such an official as proposed should be employed.

Alderman Joe Greer did not see how a man who was time keeper and cost accountant for the whole city could be on the job all the time. He would have to get his information from the other officials.

On a vote being taken four aldermen voted for and four against and the mayor reserved his decision for a week. Those voting for the appointment were Aldermen Casey, Brown, McKechnie and Larson and against were Aldermen Stephens, Joe Greer, J. W. Greer and Perry.

HAZELTON COUPLE ARRIVE IN CITY ON WEDDING TOUR

CAPT. MORRISON IS FAVORITE HERE FOR FISHERMEN'S AGENT

At one of the largest meetings of the Deep Sea Fishermen's Union that has ever been held in Prince Rupert, the local vote for the agent at this point was taken last night with Robert Hanna as returning officer. There were 141 votes cast, 104 going to Capt. John Morrison of the schooner D.S.T., and 33 to J. H. Meagher, the present incumbent of the office. The poll on the local agent is also taken at Ketchikan and Seattle and the final result will not be known until these returns have been received. This will probably be late today.

A previous vote on the local agent was taken and a majority of one was given in favor of Mr. Meagher, although Capt. Morrison had a majority at Prince Rupert. The new vote was called for on account of there having been an irregularity in connection with the Ketchikan ballots in the first.

PRESENTATION MADE TO MRS. J. JONES AT TERRACE BY LADIES

TERRACE, Jan. 27.—Mrs. J. Jones was guest of honor at an afternoon tea given by the members of the W.A. of the Anglican Church at the home of Mrs. T. J. Marsh on Saturday afternoon last. A large number of ladies were present to bid Mrs. Jones farefell before her departure for Vancouver. As a token of appreciation of her help in the work of the Auxiliary, Mrs. Marsh presented Mrs. Jones with a very pretty little boudoir clock. Mrs. Jones very feelingly thanked the ladies for their gift and for the many kindnesses that had been shown her during her stay here.

Refreshments were served during the afternoon by the Auxiliary members.

BALL AT SMITHERS

Oddfellows and Rebekahs Unite for Big Annual Event Which Was Well Attended

One of the most important social events of the season took place in the Town Hall on Monday night, when the Rebekah and Oddfellows' lodges combined in the holding of their annual ball. There was an extra large and happy crowd in attendance and they thoroughly enjoyed every number on a program of dances, that started sharp at nine o'clock and continued without a break until after 2 a.m.

The Gray Orchestra of six pieces had a number of new and catchy tunes.

R. L. Gale acted as floor manager with an energetic committee assiting him. Upstairs in the lodge rooms, from 11 to 1 o'clock, E. E. Orchard and a committee of ladies served a buffet supper of the most delicious home-made dainties.

Paul Aivazoff arrived on the Prince Rupert this morning from Vancouver on a business trip. He expects to return south about the first of next week.

Headaches and Biliousness
Are quickly relieved by Dr. Chase's Kidney-Liver Pills.

When you feel irritable, cranky and downhearted, you can easily blame the liver, for there is no organ in the human body which so quickly throws the system out of sorts as a torpid, sluggish liver.
You do not need to be in the blues long, if you know about Dr. Chase's Kidney-Liver Pills for by their direct action on the liver they relieve promptly and prove lastingly beneficial.
Once the liver is right the bowels function regularly and the whole digestive system resumes its work. You feel fine and take a delight in telling others of the merits of Dr. Chase's Kidney-Liver Pills. This is why this favorite prescription of Dr. Chase is so popular and is found in every store where medicines are sold.

MEN'S BANQUET AT CATHEDRAL

Large Attendance and Interesting Addresses at Annual Event Last Night

LADIES IN CHARGE

Labor and Industry Themes Discussed by Some of Speakers After Dinner

The tenth annual men's banquet held in St. Andrew's Anglican Church last night was an outstanding success, well over two hundred men being in attendance. G. Percy Tinker presided over the gathering and the clergy of the diocese were represented by Archdeacon G. A. Rix and Rev. Walter Allen of Prince Rupert and Rev. A. J. Wright of Kincolith. Four large tables were laden with a bounteous repast served by the Women's Auxiliary. There was a splendid program of speeches and instrumental and vocal music. Special features of the evening were vocal solos by Miss Adele Advant, Mrs. D. D. McTavish of Victoria and S. K. Campbell, all of whom were in excellent voice. J. Gawthorn rendered a cornet solo. Mrs. R. P. Ponder was accompanist of the evening and community singing was led by Wallace C. Orchard. There were a number of five-minute talks which proved interesting and instructive and, in some cases, humorous.

S. D. Macdonald, president of the Trades & Labor Council, spoke on "Labor." He thanked Archdeacon G. A. Rix for interpretations he had given of the labor movement and counselled the advisability of round table conferences when differences arose between employers and the employed.

Col. J. W. Nicholls, comptroller of the Canadian Fish & Cold Storage Co., followed Mr. Macdonald and spoke on the subject of "Industry." He referred to the fear that often existed reciprocally between capital and labor and agreed with Mr. Macdonald that by direct negotiation much more satisfactory arrangements could be made.

Various Addresses

Taking as his subject "The Professions," Dr. H. E. Tremayne gave an outline of the development of medical practice from primative to modern times. He referred to the great advance of preventative measures in the treatment of disease and gave some interesting figures in comparing mortality from disease in the South African and Great Wars.

George Hill spoke on "Merchandising" stating that he, as a retailer, was the go-between the producer and the consumer. The requirements of the public for varieties, Mr. Hill stated, caused higher prices to prevail than would be the case if necessities only were demanded.

United States Consul E. A. Wakefield, who said it was the seventh time he had had the privilege of addressing the St. Andrew's Church men's banquet, opened along humorous lines and coming down to more serious matters, said it would be a better thing for the world if the cult of the "unknown soldier" were adopted in every day life.

Rev. Walter Allen gave a very interesting talk on church work in pioneer areas such as the Peace River district.

An inspiring address was given by Archdeacon G. A. Rix on the history and geography of the diocese of Caledonia. He made special reference to the work of the late lamented Archbishop F. H. DuVernet and spoke of the prospect for the appointment of a new bishop, stressing an appeal for support of the Diocesan Endowment Fund.

The gathering opened with the singing of the National Anthem and closed with "O Canada," "Should Auld Acquaintance be Forgot" and "Blest be the Tie that Binds."

Ladies' Committee

The serving was in charge of a large ladies' committee consisting of Mrs. T. Andrew, general convener, Mrs. G. H. Arnott, Mrs. R. A. Creech, Mrs. H. O. Crew, Mrs. D. A. Candow, Mrs. J. P. Cade, Mrs. T. A. Clarke, Miss B. Coulter, Mrs. C. V. Evitt, Mrs. David Wilton, Mrs. H. T. Willett, Mrs. J. A West, Mrs. W. H. Vickers, Mrs. E. M. Tucker, Mrs. W. H. Tobey, Mrs. George Skuce, Mrs. Macey, Mrs. R. B. Morgan, Mrs. C. C. Mills, Mrs. Wallace C. Orchard, Mrs. A T Parkin, Mrs. G. A. Rix, Mrs. M. M. Stephens, Mrs. B. West, Mrs. G. A. Clothier, Mrs. Fred Pyle, Mrs. W. J. Greer, Mrs. C. W. Homer, Mrs. C. F. Kemp, Miss Lennox, Mrs. R. V. G. LePine, Mrs. E. C. LaTrace, Mrs. R. L. McIntosh, Mrs. E. McCoskrie and Mrs. Adam Mackie.

TOWN ELECTION AT SMITHERS

Nominations Took Place Monday and Election is to be Tomorrow

SMITHERS, Jan. 27.—An election is to be held here tomorrow to elect three commissioners to act as the village council for the next two years, and much keener interest is being taken than in any previous municipal election held in Smithers.

The nominations were made on Monday:

Groat, Jas. H., train despatcher. Nominated by F. Watson, seconded by J. S. Kennedy.

Hann, Ernest, carpenter Nominated by Geo. P. Whight, seconded by L. B. Warner.

Mayer, Sylva J., locomotive engineer. Nominated by C. W. Waite, seconded by W. J. Dawson.

McIntyre, John R., locomotive engineer. Nominated by N. P. Moran, seconded by C. A. Rowland.

Orchard, Edwin E., Hotel Proprietor. Nominated by Charles Ried, seconded by D. F. Hall.

Warner, Lawrence B., publisher. Nominated by L. S. McGill, seconded by E. T. Harris.

Of the nominees J. H. Groat and E. E. Orchard are members of the present board, while J. R. McIntyre served on the first council for a term.

ANGLICAN LADIES HONOR MRS. WILLETT

Presented With Life Membership at Gathering in Cathedral Yesterday

In recognition of her many years' faithful and efficient service as a member of the Women's Auxiliary of St. Andrew's Anglican Church and her leadership of the Auxiliary in 1924, one of the organization's banner years, Mrs. H. T. Willett was presented yesterday afternoon at the Cathedral with a life membership in the Women's Auxiliary of the Anglican Church of Caledonia. Mrs. G. A. Rix read the address, Mrs. Lionel Holtby presented the certificate and Mrs. T. Andrew, the gold Winchester Cross which is significant of the honor that was conferred. Mrs. Willett replied feelingly. There was a large gathering of ladies in attendance.

Mr. and Mrs. Willett will leave on Friday morning's steamer for Vancouver where they will reside. Mrs. Willett has long been identified with work of the church in the city and her departure is causing distinct regret to her many friends.

SPORT CHAT

Organization of a badminton club has been completed in Anyox. There is a big membership and great interest is being manifested in the game. Perhaps it may be possible to arrange some inter-town games between Prince Rupert and the smelter town before long. The officers of the Anyox Badminton Club are: President, James Wilson; secretary treasurer, Mrs. E. J. Conway, executive, Mrs. W. F. Eve and E. G. Brown.

The gymnasium at Anyox seems to be one of the most popular institutions in the town if attendance records may be taken as any criterion. During the months of November and December, the number of persons attending the Beach Gymnasium totalled 5,615. This included school children, basketball players and spectators and made an average of ninety persons per day including Sundays. When the Anyox gymnasium is put to such good use, does it not stress the need for such an institution here in Prince Rupert? However, in spite of agitation, there seems to be nothing doing yet.

The city council last night decided to subscribe to the Municipal News at a cost of four dollars a year.

AUSTRALIA IS AFTER POWER

United States Engineers Going There to Advise Regarding Electric Resources

NEW YORK, Jan. 27.—(By Canadian Press).—Two United States engineers, W. H. Sawyer, of Columbus, Ohio, and H. W. Earles, of St. Louis, Mo., will sail for Australia early in February to make a survey of electric power resources of that country, according to Sir James Elder, commissioner for Australia in the United States. Officially they have been appointed by the government of the state of Victoria to "investigate and report on the Yallourn brown coal electricity generation scheme and connected power undertakings of the government electricity commission." Actually, however, they have been summoned to place benefit of the United States electrical experience at the disposal of Australia which is preparing for extensive industrial development.

"With an area almost as large as that of the United States, with a population of nearly 6,000,000, and with natural resources so abundant and varied that it produces all essentials of an economic independence," said Sir James Elder, "Australia finds itself chiefly engaged in producing raw materials for other countries to manufacture into finished products. What Australia needs is development of its electric power resources so that it can manufacture the materials which it produces. Given power facilities comparable with those of the United States, Australia will be in position to make rapid industrial development.

"Until recently Australia has been a primary producer of wheat, wool, meat, gold, silver, lead, zinc, timber and other basic materials. Now our people are ready definitely to launch into manufacturing with the idea of attaining a sound industrial development and independence.'

She Was Troubled With Chronic Constipation

Once your bowels become constipated you are in for a lot of trouble, as constipation is one of the most prolific sources of disease that the human race is addicted to, therefore a free motion of the bowels every day should be the aim of everyone who aspires to perfect health.

Mrs. O. W. Lawrence, Cloverdale East, N.B., writes:—"I was troubled with chronic constipation, and became so bad I was almost afraid to eat anything.

One day I saw your advertisement of

Milburn's LAXA-LIVER PILLS

so I got three vials, and after taking them I have never been troubled since with constipation."

BREEDING NEW RACE OF TAILLESS SHEEP

Selection Results in Securing Short Tailed Variety and One Without Tail

BROOKINGS, S.D., Jan. 27.—Nine years' experimental work in the development of a tailless breed of sheep under the direction of Professor James W. Wilson, director of the South Dakota experiment station at State College, is beginning to show results.

Lambs have been born in the State College flock with tails so short that they do not have to be docked. They have been developed from crossing native Siberian rams with ewes of the Shropshire, Hampshire and Rambouillet breeds.

After several years' work in fusing these breeds a ram lamb was born which had neither the marked characteristics of the Siberian breed nor any evidence of a tail. Eighteen out of twenty-one of this ram's offspring have been born with tails so short that they needed no docking.

Among the objects of present experiments is that of determining whether the strain of sheep born thus is prepotent. In the working out of this phase, all of the short-tailed breeds are being used, particularly in the crossing of short-tailed rams with western-bred ewes.

WOMEN WORKERS IN JAPAN ON INCREASE

Three Quarters of Million in Large Factories: More Than There Are Men

TOKYO, Jan. 27—Governmental investigations have developed that the number of women workers, both in factories and on farms, is steadily increasing. Figures disclose there are approximately 725,000 women workers in the employ of various large manufacturing plants, not including those employed by small factories. Nagoya leads in the number of women workers, with Osaka second and Tokyo third.

Compared with the number of men workers in the large factories it is found that women are in the majority by about 123,000. The inquiry was prompted by the government's desire to insure the relief and protection of the country's feminine workers.

DISCARDS MONOCLE FOR HORN RIM SPECS.

Sir Austen Chamberlain Assumes Complete Disguise When he Changes Glasses

LONDON, Jan. 27.—Hornrimmed spectacles are a complete disguise for Sir Austen Chamberlain. He usually wears a monocle in his right eye. But for writing and reading he dons the blinkers which give him the appearance of an American professor.

At the signing of the Locarno Treaty he put on his spectacles before attaching his name to the historic documents and the moving picture cameras caught him wearing the heavy rims which English comedians always wear when they are portraying American character. Mr. Harvey always wore horn-rimmed spectacles and Mr. Houghton also wears them.

DIED IN SHACK DIGBY ISLAND

Body of Alfred Parker, Metlakatla Indian, Brought to City by Constables Yesterday

Having died a few hours previous in the cabin which he occupied on Digby Island, the body of Alfred Parker, a Metlakatla Indian, was brought to the city late yesterday afternoon by Dominion Constable A. J. Watkinson and Provincial Constable Fred Markland. The remains had been found by a fisherman, John McKay, who lived nearby and who notified the police.

The death was apparently from natural causes. Parker was known to have been ill for two or three days previous and, when his remains were found, they were doubled up indicating that the man had been suffering at the end.

Deceased was 65 years of age and is survived by a widow at Port Simpson and a son who is in the asylum at New Westminster.

Coroner Norman A. Watt was advised of the circumstances of the case and an inquest was deemed to be unnecessary.

The body is in the hands of the B.C. Undertakers.

ALICE ARM

The Mayflower group of claims down the Inlet near the old molybdenum camp, has been consistently developed during the past year and high grade ore is now showing. It is the intention of the owners, G. W. Bruggy and William McFarlane, to continue work until the property has been brought to the shipping stage.

A petition is being circulated here asking the provincial government to take some action to protect the town from being flooded during high water periods of the Kitsault River.

The launch Awake made a special trip to Anyox on Monday taking local people to attend the Burns' concert at the smelter town.

Al Falconer will conduct logging operations on the hillside overlooking the town on the west next summer. The logs will be cut into lumber here for local demand.

STEWART

Mrs. Harry Hicks has returned to Stewart after an extended visit in the United States.

The annual meeting of the Porter Idaho Mining Co., Ltd. was held here last week. Clay Porter was re-elected president and managing director and the board of directors, consisting entirely of local citizens, includes J. P. Hawkinson, William Bunting, Oren F. Hill, Joe Morin, Walter Blanton and W. R. Tooth. The financial statement showed the company to be on a sound basis with almost $16,000 cash on hand.

The United Service Club has elected officers for the year as follows: Past President, H. W. M. Rolston; president, J. W. Wilson; vice-president, H. D. Rochfort; secretary, James Morrice; treasurer, S. G. Lawrence; sergeant-at-Arms, John Scott; chaplain, Rev. A. W. R. Ashley; executive committee, H. C. Bennett, E. A. Lewis and Harry Wilkinson; trustees, G. C. Andrew, R. W. Kennedy and John Scott.

G. W. Smith has left to spend five or six weeks visiting in Victoria. During his absence the Unversal Supply Co. store is in charge of O. N. Mansbridge

Mr. and Mrs. William Newell have left for a trip which will include Langley Prairie, Victoria, Seattle, Portland and San Diego.

James Nesbitt, pioneer Stewart mining man, has returned after having spent two months at Belle Isle Hot Springs near Ketchikan.

Jack McCallum, one of the original owners of the Porter Idaho property, has returned here after an absence of a year or more in central and Eastern Canada.

William McIntonmey left last week on a trip to the Slocan country.

Edward Bronson, well known old timer of the district, died recently in Hyder at the age of 60.

An Infallible Guard

HEIMDAL, according to Celtic mythology, was the perfect sentinel. His hearing was so acute that he could hear the wool growing on a sheep's back His eyesight was so keen he could see everything that happened even though it occured while he slept.

Advertising, if you use it properly, is an infallible sentinel for you. It guards you against fraud and inferiority. It protects you against making unwise and unsatisfactory purchases.

Merchants and manufacturers who advertise must give full value because they have good names to protect. The makers of well-known products and the stores that sell these products often value the names at millions of dollars. They cannot afford to jeopardize the worth of these names by selling any but good goods of full measure and fair price.

So, you can bank on this. Advertised goods must be as advertised. That is why it pays to deal with advertisers and to buy advertised products.

Advertising is your guard

ALL FOR CANADA IS PLEA OF NEWSPAPER

(Ottawa Citizen)

Narrow partisans directed bitter criticism against Premier Mackenzie King for calling parliament instead of resigning office to Mr. Meighen, but many people reserved judgment until the will of the nation could be expressed in the new parliament. The first vote has vindicated the prime minister's stand. Although the Liberals are in the minority, so are the Conservatives.

Under such circumstances, surely the patriotic course it to set aside party politics. The paramount question is not who is for the Liberal party, or who is for the Conservative party, but who is for Canada?

HUMAN HAIR USED FOR MAKING CLOTH

In Spite of Bobbing, Supply is Wholly Inadequate to Fill Demand

AMIENS, France, Jan. 27. — The manufacture of strong linen for the filtering of extra heavy oils and other fats is the latest use found for Milady's beautiful hair.

The supply of women's hair being totally inadequate to meet the demand of the manufacturers, it is now being mixed with hair obtained in China from the fast disappearing "queues" of modern Celestials.

The carding, spinning and weaving of human hair for the manufacture of cloth is an industry just established here, but which has made great strides. The cloth or linen obtained from very close weaving of hair is virtually untearable and is in demand by refining plants and distillers of heavy oils, which require that the cloth used as filters be subjected to a very high tension.

Several washing operations are required before the hair can be sent to the carding room. Thereafter it is handled just like wool and woven on special looms.

TAHITI MIRACLE MAN OUSTING PHYSICIANS

Tales of Marvellous Cures by Successor to Turai, Greatest of Healers

PAPETTE, Tahiti, Jan. 27. — When old Turai, greatest of native Healers of Tahiti, died seven years ago he left a prediction that after him would arise a healer who would be his superior. Now the native populace is flocking to Turai's successor.

Tales of the "Miracle Man's" marvellous cures are in circulation and although the natives of Tahiti are civilized and ordinarily highly sophisticated, they are abandoning European physicians and transferring their faith to the new healer. Hundreds are taking their ailments to him daily.

No claimant of curative powers had the reputation or commanded the faith of the natives in a manner equalling Turai. But his prophecy of a successor is now aiding the man enjoying popular acclaim.

SMITHERS

Mr. and Mrs. Olof Hanson of Prince Rupert spent the early part of the week end in town, returning to their home on Tuesday night's train. Mr. Hanson is an important factor in many business ventures in this district and his present visit to look into his interests wil most likely be a final one before he and Mrs. Hanson start on an extended holiday during which they intend to visit South American countries.

Mr. and Mrs. F. B. Messner entertained a number of friends at bridge on Saturday evening.

Mrs. L. B. Warner entertained at bridge on Tuesday afternoon, having Mrs. Olof Hanson as the guest of honor.

Thomas Cole of Victoria, provincial auditor and supervisor of government agencies, paid an official visit to the local Provincial offices, coming in last Thursday and leaving again for Prince Rupert on Tuesday.

CITY COUNCIL AGREES ON POLICY WITH REGARD SETTLEMENT AT COW BAY

(continued from page one)

were offered 400 feet.

There was danger, the mayor thought, in allowing matters to drift along. He thought they should give him authority to ask the provincial government for a still larger frontage as the Yacht Club needed 200 feet. Should it be impossible to get the Dominion Government to undertake the work he would favor spending from $40,000 to $75,000 and he believed the citizens would vote to proceed with the project.

Criticized Plans

Alderman Larson stated that the Yacht Club wanted the same site they at present occupied. They were willing to maintain their own improvements and did not want anything except the site.

Alderman Stephens criticized the Forde plans and suggested that they would be useless. The more waterfront they got from the Government the greater would be their liability. They had enough to do with the money already without it. He thought the property should be conveyed direct from the provincial to the Dominion Government.

Alderman W. J. Greer suggested that they lay it over and take the matter up with Ottawa.

Alderman Stephens then agreed to incorporate the idea of Alderman Casey in his motion which passed unanimously as follows:

The Resolution

"That Mr. Pattullo, the Provincial Government and the Department of Marine and Fisheries at Ottawa be advised that when either the Provincial Government or the Dominion Government or both agree to taking care of the mosquito fleet and fishing fleet and yacht club the city will not withold its consent to filling in of Cow Bay.

"The City Council will co-operate in any way possible without any financial obligation in the matter.

"Mr. Pattullo's letter will be transmitted to Ottawa with a request to assume the cost of making the desired improvements and take over the waterfront and provide for its upkeep."

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers, up to ten head.

FRED THOMSON
— in —
"That Devil Quemado"

The Horseman of the Hills. Picturesque! Dauntless! Stalwart! A Romeo, Lothario and Lochinvar combined. A be-sashed, be-ribboned, be-tasselled Devil of a man; his horse a Pegasus of Speed—himself a Paragon of Daring. Feared. Hated. Loved, as no man ever was. An Avenger of Wrong; his Sash a Signal of Vengeance. His messengers were pigeons. Twice he stole girl brides at the altar. Shod with Seven League Boots his name was an awestruck whisper. A buccaneer of damsel's hearts. He swept the border like a Black Plague. Mexican patios, sun-kissed hills, beautiful women, Fred and "Silver King." Strong cast: **Fred Thomson, Gloria Hope, Albert Priscoe, Byron Douglas, Joseph Bell, Nola Luxford,** and others.
