Olof Hanson, M.P. for Skeena, who also attended the convention, stopped off at Smithers and will be in town later. The convention, the delegates report, was an interesting and useful gathering. The people of Quesnel also proved excellent hosts and the gathering was most enjoyable.

A highway linking Jasper and Prince Rupert was the major demand by the convention.

Other resolutions passed by the convention dealt with re-extension of the Dominion Housing Loan Act to rural centres, the appointment of a cattle inspector at Prince Rupert, weed free seeds, reduction of railway passenger fares, listing with the commissioner of lands of reverted crown lands available for purchase, reclassification of land other than timber lands, the establishment of a game sanctuary in Tweedsmuir Park and the improvement of radio service for the northern portion of B.C.

J. G. Turgeon, M.P. for Cariboo, told the meeting of the start on construction in Vancouver of the new power unit which will increase the power of CRCV station from 500 to 5000.

## Curious Dahlia Is Being Shown

**Frank Dibb Has Yellow Dahlia Almost Half of Which Is Bright Red**

Frank Dibb was much surprised this morning to find in his garden a yellow coltness dahlia almost half of which was bright red. The bloom was divided vertically just to the left of the centre, the red color permeating the flower and showing at the back as well as the front. The centre, however, was yellow.

Mr. Dibb will be watching other flowers on the same plant to see if the color scheme is similar to this one and if it is, he will save the seed and try to develop a flower that is half red and half yellow. The bulb also would be valuable if the coloring were constant. The flower is exhibited in the Capitol Barber Shop and is attracting the attention of people passing.

## Connell Asserts That Communist Rump is in Charge of C. C. F. In Province; Telford "Dictator"

Charging that a Communist rump is in control of the Co-operative Commonwealth Federation in British Columbia, Rev. Robert Connell, deposed leader of the party in British Columbia, has issued a candid reply to recent criticisms of the provincial executive of the party with which he has quarrelled. The reply is written by A. B. Sanders, official spokesman for Mr. Connell. In it Mr. Connell charges that his platform was rejected and sabotaged behind closed doors by Dr. Lyle Telford, whom he suggests would be the absolute "dictator" of the C.C.F. in British Columbia, controlling radio, press and even the elected representatives of the people.

The statement of Mr Connell is lengthy but, in view of the current interest in internal affairs of the C. C. F., a considerable portion of it is being printed as follows:

Anybody who was not an economic illiterate would be aware that the idea of "social credit and finance" alongside of the existing monetary system is insane, as I have frequently demonstrated on the platform and in the local press. It is ultra vires of a provincial government under the combined effect of the B.N.A. Act and the Bank Act.

Don Smith's recent contention that the errors of Aberhartism are obviated by issuing scrip after "the production of commodities," is one that nobody with any grasp of the elements of production would advance. The process of production is continuous and generates an equivalent stream of purchasing power, and, if that stream is diluted by the issue of further money credit, or scrip, inflation inevitably follows with disastrous results for all wage and salary earners and other persons with fixed incomes. As some of the puerilities in Mr. Smith's letter are repeated verbatim in the letter under reply it is a reasonable inference that the unsigned reply from the office of the C.C.F. provincial executive is in fact the product of that very immature youth.

In that reply complaint is twice made that "Mr. Connell did not voice his objections on the floor of the convention when the points raised in his letter could have been thrashed out by the movement."

**Railroaded Through**

When this plank was proposed Angus McInnes, M.P., stated that it was impracticable and that he could not endorse it. The president of the executive, Arnold Webster, expressed the same view. Convention chairman Lefeaux, who is well versed in economics, pointed out that it was impossible for him, as a Marxian to endorse such a proposal. Grant MacNeil, M. P., went further and delivered a reasoned argument showing that the proposal was unworkable, unsound and ultra vires. Thereupon Dr. Lyle Telford rose and although admitting, as he had previously done in Victoria, that he was ignorant of economics and unable to explain the proposal, yet resorted to the methods of the intolerant demagogue by denouncing as "sabotage" any criticism of the proposal and so worked upon the vast majority of the delegates, who were, like himself, economic illiterates, that when he sat down frenzied shouts of "question" compelled the chairman to put the matter to the vote unexplained and practicably undebated. There was, in fact, no proper debate on this or any other portion of a platform, which was railroaded through at lightning speed.

As a result, delegates like Mr Connell, who were opposed to this and other planks, were afforded no adequate opportunity to express their opposition, and the atmosphere created by Dr. Telford and his followers and the fate of Mr. MacNeil's attempt to debate, proved that criticism was utterly useless and impracticable.

In common fairness and ordinary courtesy, Mr. Connell should have been placed on the plat-

On the first ballot, Telford received 34 votes and Turnley four. Arnold Webster, a Connell sympathizer, declined to enter the contest for the nomination, withdrawing from the running for "personal reasons."**

**The nomination of Telford is seen as a victory for the left wing element of the C. C. F.**

**Neither Liberals or Conservatives have yet nominated for the by-election which is expected to take place early in September. Howard Forrester seems favored as Liberal candidate and Dr. F. T. Patterson as Conservative.**

### BURRARD ELECTION

It seems quite likely that the election in Burrard will be a lively one. With Dr. Telford in the field representing the radical section of the C. C. F. backed by the Communists it is difficult to say what will happen. So far the Conservatives and Liberals have not yet nominated and there is always the possibility that one of the Connell Socialists may enter the lists against Telford. The difficulty is that they seem to have no outstanding man to take up the fight.

In an election of this kind a great many people who love to see a fight vote for a firebrand in order to see what he will do when he is elected and generally they are disappointed.

### MADE A PROFIT

The Pacific Great Eastern Railway made a profit during the first half of this year. True, it was not a large profit. It amounted to about twelve thousand dollars, but that was better than the deficit of over twenty thousand for the corresponding half year of 1935. All that was lost was a few millions in interest charges which nobody expects will ever be paid. What is needed now is a few more producing mines developed in the country surrounding the railway and it will become a valuable asset to the province. The difficulty is to find the mines.

### LESSON IN PREPAREDNESS

Now that the war in Abyssinia is almost forgotten, we may possibly without any emotion consider what it means. Here was a country of little value to anyone and yet a grave danger to health, coveted and taken by a "civilized" nation just as Britain would have done without compunction fifty or one hundred years ago. It happened because Abyssinia had no airplane protection or other adequate fighting force to repel attack. Compared with it, here we have Western Canada, a thousand times more attractive from a settlement point of view, wholly undefended, trusting to the United States, the elusive British Navy and the Almighty for defence, just as Ethiopia depended upon the powers of Europe and the All-Highest for its defence.

In Victoria there are a few obsolete forts. In Vancouver they have some militia forces but nothing of any value in repelling the landing of an enemy with guns. In Prince Rupert we have a very small naval unit and a more or less disorganized infantry militia which it is understood is being changed into artillery soon. None of these would be of much value without guns and planes and fortification. Our little destroyers have no place to which to retreat when pursued.

Possibly we may not need defences. We have not needed them yet but possibly we may need them badly some day and they will not be there. Russia feels it necessary to call all her young men to the colors for military training. We sit calmly and hope for the best.

## KIRKPATRICK IS TRUSTEE

**School Board Affairs Still Agitating Town of Terrace**

TERRACE, Aug. 12:—On Saturday a special meeting of the school district was held for the purpose of electing a trustee to replace Nigel Sherwood, who has resigned. There was a full attendance and W. A. Kirkpatrick was chosen for the unexpired term of two years.

In this connection there has been a bit of a rumpus in the village. Mr. Sherwood resigned, being unable to agree with his colleagues, but the placard calling a special meeting contained references to Mr. Sherwood which that citizen regarded as libellous. He promptly hauled the other two trustees into the local police court to answer a charge of defamatory libel. The presiding judge, Dr. Stanley Mills, held that an action for libel against trustees must be preceded by statutory notice extending over a term of four months. Therefore the case was dismissed.

Whether the case will be proceeded with is doubtful. Mr. Sherwood says the only people who are likely to make anything would be the lawyers and he isn't going to put good money in their way. He says, however, that he got a great kick at the police court observing his two colleagues in the position of defendant.

## WAKE-UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Dr. C. H. Hankinson leaves on this evening's train for Jaspe. Park where he will meet and return with Mrs. Hankinson who has been paying a visit to her home in Ontario.

W. D. Moxley, well known Canadian National Railways conductor, returned to the city on this morning's train. Recently he received beneficial treatment at the Mayo Clinic in Rochester, Minnesota, after which he paid an extended visit to Ottawa. For the past few days he has been at Smithers. He is now feeling so much better that he hopes to resume his railway duties in two or three weeks.

E. G. Brown, Government Telegraphs agent at Anyox for the past ten years, sailed this afternoon on the Prince George for Skagway enroute to Atlin where he has been appointed permanent successor to J. D. Lawrence, formerly of this city, who has left the service. Two weeks from today Mrs. Brown and four children will leave for Atlin. A. R Hayes, who has been relieving as agent at Atlin for the past year, will return to his regular post in the Yukon.

## From the Waterfront

Having been delayed at Wales Island where she had cans to discharge and canned salmon to load, Union steamer Catala, Capt. James Findlay, arrived in port at 11 o'clock last night from Stewart, Anyox and other northern points and sailed a couple of hours later for Vancouver and waypoints.

Prices were slightly higher again on the Seattle Fish Exchange yesterday when eight halibut boats sold catches totalling 154,000 pounds. Western fish was paid 9c and 7½c and local fish 9¾c and 8½c. Cod was paid 3c per pound and sablefish, 3½c.

The Seattle trolling boat May, reported sunk off Cape Flattery, was seized off Massett at the same time the Catherine B., now on the Digby Island ferry run, was taken several years ago. Two years later she was seized again near Goose Island and in each case was tied up here for some time.

With a capacity list of round trip tourists for Alaska, C. N. R. steamer Prince George, Capt. H. E. Nedden, arrived in port at 9:45 this morning from the south and sailed north at 1 o'clock this afternoon.

C. N. R. steamer Prince Charles, Capt. Dan McKinnon, is in Massett Inlet today and is due tomorrow morning from Vancouver via the Queen Charlotte Islands.

The Alaskan freighter Evelyn Berg arrived in port at 10 o'clock this morning from Ketchikan and after discharging one carload of fresh fish for transshipment East over Canadian National Railways sailed oin continuation of her voyage to Seattle.

With an Alaska Southern Airways seaplane, Pilot Bob Ellis, well known northern commercial flier arrived here at 7:30 this morning from Ketchikan and left at 8:10 a.m. on his return north. Pilot Ellis brought in a passenger who will be proceeding East by rail from here this evening.

On its way back to Vancouver after a flight to Dease Lake with a mining party, the Air Travel and Transport Waco seaplane piloted by Capt. E. C. W. Dobbin arrived here at 12 noon today and, after refueling up, continued south at 2 p.m. picking up Capt. Paul Armour here for Vancouver.

# BOY, DOG AND CROOK

**Are Principals in Picture Showing —Here"Sotorm Over Andes" Second Feature of Bill**

Jackie Cooper, the popular juvenile star, is featured in "Tough Guy," one of the double bill pictures at the Capitol Theatre for the middle of this week. A boy a hunted criminal and a dog figure in strange adventures which are a part of this romance of the secret service. Jackie plays the part of a boy approaching High School age and gives a clever portrayal in a character part. Joseph Calleia takes the part of a crook who is regenerated by friendship and companionship. The dog actor is the son of the famous Rin-Tin-Tin. Other members of the cast include such well known players as Harvey Stephens, Jean Hersholt and Mischa Auer.

The other feature of the double bill is "Storm Over the Andes," a South American thrill romance with the veteran Jack Holt and the charming Mona Barrie in the leading roles.

## CONNELL ASSERTS THAT COMMUNIST RUMP IS IN CHARGE OF C. C. F. IN PROVINCE; TELFORD "DICTATOR"

Continued from Page 1

form committee. Had his views and criticism in fact been desired he would have been placed there as a matter of course. As parliamentary leader he has to explain and justify in Parliament and on the platform the policy of the party. His platform, which has the support of the vast majority of the 90,000 C.C.F. voters, came before this committee as well as Dr. Telford's platform and the Burrard campaign platform. Dr Telford and his friends, Blenday and Stephens, were on the committee to support his platform and Arnold Webster to support the Burrard platform, and three other delegates.

But Mr. Connell was deliberately excluded and his platform was rejected by Dr. Telford and his friends behind closed doors without a hearing, thereby denying him the right to defend it and the opportunity of criticizing the defects in the alternative platform at the only time and place where such criticism could be of any practical use. It is consequently th veriest humbug to suggest to the public that the executive "regrets" that Mr. Connell did not engage in open warfare with Dr. Telford on the floor of the convention.

**"Preposterous Proposal"**

And now these men who "sabotaged" a sound and sane platform and rushed through their own, which is largely impracticable and ultra vires and in its economics positively insane, have the effrontery to charge "their ablest, finest leader and most appealing personality" with attempting to "dictate the course of the movement according to his own personal ideas," simply because he has stated that he cannot honestly support a platform of this nature, which is in fact a fraud on the electorate.

This suggestion involves the impudent claim that Mr. Connell and the rest of us are bound to support an irrational dogma which Dr. Telford and his supporters are unable to explain, one that has been condemned by all competent economists, living or dead, and by every member of the C.C.F. who has any grasp of the elementary principles of economics.

Dr. Telford stated it would have to be worked out by a trained economist, but no economist would in fact father such a proposal.

The charge of "dictatorship" recoils on the head of the man who made it.

Who controls C. C. F. proaganda over the radio? Dr. Telford.

Who also desires to control the press by obtaining possession of the only independent Socialist paper in the province that maintained an open forum for free speech and discussion? If that happened, Dr. Telford, by controlling all organs of propaganda would be able to silence criticism and mold opinion as completely as any Mussolini.

**Members Under Control**

Who again controls the members we elect to represent us in Parliament? All candidates are required to pledge that they "will resign the seat on the order of the provincial convention." This is, of course, illegal.

If the unhappy member wishes to address his constituents he must realize that "he is under control of the speakers' committee of the provincial executive." He must "attend the speakers' conference held at headquarters." If he fails to do so for "three successive meetings" his name shall be removed from the official speakers' list." He cannot arrange any "meetings" or "tours" without the consent of the speakers' committee.

Moreover, the clubs must report as to "the presentation, effect and nature of the address" of such speaker. Further, "all parliamentary representatives are required to present a quarterly report to the provincial executive and their district council," and are "at all times subject to the authority of the executive." and the so-called leader can be removed at any time by the executive, and is thereby on constitutional principle disqualified from holding the position of Premier or Leader of the Opposition.

Who forms his cabinet? The minister cannot follow the law of the constitution and select the men with whose aid he feels he can carry on the government. Dr. Telford and his executive have complete "control."

What about finance? The members of the C.C.F. are requested to purchase "plenty for all" groceries from Dr. Telford, who controls the profits.

And what about the unhappy taxpayer? The executive stated in its bullentin: "As a proletarian movement, we are not particularly concerned with protecting the interests of taxpayers. It is probable on the contrary, that added pressure on the taxpayer would ultimately result in strengthening our cause by bringing about intolerable conditions at an increased speed."

Moreover, "the C.C.F. labor code is to be enacted before the closing of the first C.C.F. legislative session." "All physically unfit persons are to labor" and it is declared to be "society's right to compel them to do so." We are all to be "registered" and "aligned in categories." "No person registered shall refuse to work" and disiplinary action" is to be taken against us "if we fail to conform to decisions."

In other words, we have only to vote the C.C.F. into office and we shall all of us be, Premier and Cabinet included, completely under the thumb of Dr. Telford.

Yet in truth, he and his executive merely represent the Communist wing of the C.C.F. clubs, whose total membership is only about 3 percent of the 90,000 voters in B.C. who supported socialism at the federal election. Most of the electors are outside of these clubs, because, as Guy Sheppard proved, they are centres of Communist propaganda, and nearly all such voters are, like Mr. Connell, supporters of the Regina Manifesto, which plainly excludes the "class war" and "proletarian revolution" of the Marxists.

And now that the provincial executive has endorsed Marxian Socialism, it is impossible for those of us who are loyal to the creed of the party to be associated with this insignificant Communist rump, which the executive, in flagrant disregard of the truth describes as "the movement."

An executive which excommunicates everyone with sufficient intelligence to reject the delusions of Aberhartism and "phoney money" proposals merely plays the role of the mediaeval Inquisition in a spirit of ignorant fanaticism that stultifies reason and intellectual honesty.

Like the rest of the statements in the letter of the executive, the assertion that Mr. Winch was elected "by a large majority" is untrue. It was, in fact, microscpic. Equally untrue is the assertion that Mr. Connell accepted the counsel of "discredited advisers." He requests me to state that his decision was entirely his own. In any event the character of his friends would bear favorable comparison with that of the most of the members of the executive.

# ARE YOU ON THE BORDERLINE OF ACTUAL SICKNESS?

**Constipation* Causes Discomfort, May Lead to More Serious Troubles**

You may have days, perhaps even weeks, when you feel below par. Not sick enough to go to bed, but certainly not at your best. The trouble may be with your diet. Poorly balanced meals can affect your physical condition.

Meals which lack proper "bulk," for instance, may lead to common constipation. Continued neglect of this condition causes discomfort, may lead to headaches, poor appetite, listlessness.

Guard against common constipation.* Make sure the meals you eat contain plenty of "bulk." Kellogg's ALL-BRAN is a generous source of effective "bulk." Within the body, it absorbs moisture, forms a soft mass, and gently cleanses the system.

Two tablespoonfuls daily, with milk or cream, are usually sufficient. Stubborn cases may require ALL-BRAN oftener. Serve ALL-BRAN either as a cereal, or cooked into muffins, breads, etc. Eat it regularly for regular habits.

ALL-BRAN is guaranteed by the Kellogg Company. Sold by all grocers. Made by Kellogg in London, Ontario.

*Constipation due to insufficient "bulk"
