Giant flying boats to 'bomb' forest fires

VANCOUVER (CP)—Six major British Columbia forest firms will join to buy four aircraft so forest fires can be "bombed" with water from the air.

Formation of Forest Industries Flying Tankers Limited was announced Wednesday. Four Martin Mars flying boats, among the largest of their kind in the world, have been bought from the United States Navy.

The price was reported unofficially about $1,000,000.

Sponsoring the project are B.C. Forest Products Limited, Canadian Forest Products, MacMillan and Bloedel, Powell River Company, Tahsis company and Western Patricia Bay airport, it was announced.

Each of the aircraft will be capable of carrying 7,000 gallons of water, to be dumped on forest fires. Aircraft now using similar methods against fires in the province can carry only about 700 gallons at most.
