130 WHALES AT ROSE HARBOR

Total Catch For Season on Queen Charlottes Has Been 163.

Whales seem almost as numerous as ever, judging by reports received from the whaling stations on Queen Charlotte Islands.

Up to date a total of 163 mammals have been caught. Of this number 130 go to the credit of the Rose Harbor station, which is the largest and opened up earlier than Naden Harbor. The other station has caught thirty-three whales. In the case of Rose Harbor an increase of thirty is shown from last year, while Naden Harbor shows a decreaes of five whales.

Naden Harbor has been experiencing very foggy weather and was somewhat handicapped in not starting so early in the year as Rose Harbor. If weather conditions improve near Naden Harbor, however, a good catch can be expected from this station.

During the last twelve years 7,619 whales have been taken by the British Columbia whaling fleet. The largest yearly catch was 1,198, and the smallest 187. Last season 269 whales were taken and processed.

In the British Columbia whaling industry which has been highly modernized, the entire carcass after being inflated with air is towed back to the whaling station and there stripped of its blubber and meat. The Canadian Pacific coast industry annually produces about 400 tons of whale bone meal and 900 tons of meat and blood for fertilizing purposes. A small quantity of the latter is sold as fertilizer in British Columbia and the remainder is exported, principally to the United States.

JOHN OLIVER AT MEETING

Took Seat Near Chairman's Table at Meighen Gathering Yesterday Afternoon

VICTORIA, Aug. 18. — With John Oliver, British Columbia's premier, sitting near the chairman's table, Premier Meighen yesterday afternoon addressed a public meeting from the steps of the Parliament Buildings.

After a general reference to Mr. Oliver's presence, Mr. Meighen proceeded with his speech, announcing the intention of his Government to present a bill for the revaluation of the soldier settlers' lands on a practical basis.

Speaking of the effect of dissolution on uncompleted legislation, the Premier turned to the accusation of "Dictator Meighen" being responsible for what the Governor-General had done. He said if he was to be held responsible for the Governor's conduct, "I am glad to accept the responsibility. They do me an honor I don't deserve. But if they insist on pressing it upon me I am ready to accept it."

PROHIBITION EFFECT CHICAGO DOWN TOWN

Survey Made With Result That Business Blocks Have Taken Place of Old Shacks

CHICAGO, Aug. 18.— Saloons renting for an aggregate of $1,000,000 a year, wiped out in Chicago's "Loop" or down-town district by prohibition, have been supplanted by other lines of business which, with few exceptions, are paying two or three times as much rent. This fact was revealed by a door-to-door survey by a representative of The Christian Science Monitor, visiting 216 addresses listed at City Hall as paying "Loop" liquor licenses in 1919, and consulting with real estate authorities.

The transition observed covers an area of 35 average blocks, comprising the centre of the office, theatre and shopping district.

Twenty-four former saloon sites have been erased from the map by new buildings, either complete and occupied or now under construction. The buildings already up are of the sky-scraper variety, replacing in a number of cases obsolete structures of three and four stories, ramshackle fire menaces. Such old buildings held back values for entire neighborhoods, or contributed to the general depression in their vicinities. The betterments have helped foster a common upward tendency in "Loop" rents since the war.

If profits of the saloon were still rolling in, many of these destroyed obsolete buildings would still be hanging on, according to rental authorities. New buildings have tended to clean up their localities, to empty other outdated structures, to bring desirable business, raise rents and increase real estate values.

PROVINCE OF QUEBEC HAD GOODLY SURPLUS

Liquor Profits For Year There Were Over Five Million Dollars.

QUEBEC, Aug. 18.—A surplus of $1,520,146.75 of ordinary revenues over expenditures incurred by the Province of Quebec in the fiscal year ending 1925-26, ending June 30 was announced today at the close of the Cabinet meeting, and later followed by the detailed statement issued to The Globe by Premier Taschereau and Hon. Jacob Nicol, provincial treasurer.

Incidentally the premier announced that the surplus of the Quebec Liquor Commission for period mentioned was of $5,081,876.96, a considerable increase over last year, but he was not in a position yet to give any details in this connection.

Hon. Jocab Nicol stated that it was the intention of the province to redeem in November next an issue of $6,000,000 5½ per cent bonds on which an option for redemption exists. These bonds are succession duty free and also bear a higher rate of interest than can now be obtained by the province.

Considerable increase in the lands and forests revenues are recorded in the detailed report given out by the provincial treasurer. They attained $6,061,854.74, as compared with $4,853,230.74 last year.

ABNORAML HEN'S EGG IS FOUND NEAR EDMONTON

Large Egg Has Ordinary Egg Within It and is Large as Turkey's

EDMONTON, Aug. 18.—A rare curiosity in the form of a large egg, the size of a turkey egg, properly shelled and complete to white and yolk, which contained within it an ordinary hen's egg, also well shelled and complete as to content, which was found within the body of a chicken killed by Mrs. Thomas Godard on her farm in the Sion district.

The larger egg was found on measurement to have a small circumference of 8¼ inches, with a circumference of exactly 10 inches the long way. It is correct as to shape, with larger and smaller ends, was covered with a strong shell, and contained a large yolk and white in addition to the smaller egg. The two were not adherent in any way, and the smaler egg is of medium size and when examined apart from the larger one in which it was contained, is not in any way unusual.
