THE HIGH QUALITY OF

Baker's Breakfast Cocoa

is Not an Accident

It is the result of a judicious selection and blending of cocoa beans, of which there are more than thirty grades; of most careful roasting, a very delicate operation; and its further preparation by the best mechanical processes (no chemicals) which preserve the delicious natural flavor and aroma and attractive color of the beans.

STONE YIELDS FISH 2,000,000 YEARS OLD

SAN FRANCISCO, Nov. 20.—A fossil fish, believed to be two million years old and belonging to the oldest known fish family, the ganoidei, has been brought to life by the chisel of a stone cutter in a yard here.

The fish, which was petrified, was found in a block of limestone. It was ten inches long and perfect in every detail, even showing the color of the flesh and the scales. Differing from other specimens of the ganoid family, the fossil is rather round and stubby.

BARE POSSIBILITY WE MAY ALL BE WRONG CROMWELL'S INJUNCTION

(Edmonton Journal)

Some of the ten commandments that Stalin has laid down are not restricted in their application to Russia. That, for instance, in which he declares that "you must not every time you feel yourself in the minority, shout 'crisis' to the housetops," is one that should be laid to heart everywhere. Most of us have need to bear in mind Cromwell's injunction to a delegation of his zealous followers. "I ask you, my brethren," he said, "to consider the bare possibility that you may be wrong."
