Sanitation in The Laundry

Hygeia, March, 1927

A kitchen is properly a food shop and should be used for little else. It is distasteful to think of the possibilities attending laundry work in the kitchen in the winter when doors and windows are closed to keep out the cold and when steam from the boilers, and later from the drying clothes, mingles unchecked with the foods that are being prepared.

PLAN ANOTHER SLOGAN EFFORT

Chairman of Committee of Judges Makes Suggestion Regard to Competition

F. G. Dawson, chairman of the committee of judges, who passed on the slogans submitted to F. W. Hart, in discussing the matter this morning with the Daily News, said the slogan they had chosen was the best for the purpose that had been submitted. Several others were very good but not as well suited for advertising the city. Several had been too long but otherwise were excellent.

Mr. Dawson suggested that after Christmas another competition be held and this time an effort be made to get away from the local idea. If the Orient is mentioned, it would be remembered that last year 75 per cent of the grain shipped from here went to Europe and not to the Orient. He thought it not wise to mention the Orient, the Peace River or any other locality. Prince Rupert is a world port and does business or hopes to do business with all parts of the world and does not expect to restrict its business activities. Any slogan adopted, he thought, should have a very general application and be brief. Having that in mind and with the experience of what has gone before, he thought possibly a still better slogan might be found.
