KEIR HARDY
SEES BREACH
WIDENING

Before leaving for New York the other night, J. Keir Hardy, the British labor leader, who arrived aboard the Hesperian, announced that the breach between the Labor party and the Liberal government in Great Britain was growing wider and wider and that at the next elections the Independent-Labor party intended to fight their own way, irrespective of Liberal promises. This was shown by the number of three cornered contests that are already arranged for the next elections in England.

TO FIGHT
BULL MOOSE
VIGOROUSLY

Philadelphia, Sept. 5.—"Within forty-eight hours court proceedings were instituted obtaining the removal of Roosevelt electors from the regular Republican ticket in Pennsylvania and the substitution of Taft men," said U. S. Senator Penrose, after conferring with his political lieutenants in the city and state. "There will be action, drastic and vigorous."

Launch Alice B. W. J. Thomas.
Phone Green 391. Govt. Wharf.GERMANY CERTAINLY HAD
SPIES EMPLOYED IN BRITAIN

London, Sept. 6.—Despite statements to the contrary fear of war between England and Germany is increasing rather than decreasing. Arrests made of persons accused of espionage by the military officers of both nations have inflamed public opinion. That Germany is watching every movement made by the British war office is proved conclusively by revelations made during the trial of Armgaard Karl Graves, who has just been sentenced to 18 months' imprisonment by the justices of the Scottish high court sitting at Edinburgh.

Graves laughed in the faces of his judges, and when sentenced remarked: "Well, it has been a fair trial."

Secret Codes.

Secret cipher codes, cryptogram cable note books with pages gummed together to conceal records made by the spy, were unearthed by the detectives who trailed Graves.

A few of the many notes were

deciphered after patient investigation, were the following: "Current rumors. Present. Incoming. Outgoing. Clearing for action. Have lowered defending nets. Land fortifications are ready for action. Protective manoeuvres are being carried out at sea. Coal being carried by rail. Coal steamer arrived at town. Preparations are being made. Remarkable influx of reservists. Mine fields being laid. All is quiet. Important to report. Liners are appearing."

Important Discovery.

There were also the names with code equivalents, of various classes of battleships, cruisers and destroyers, such as the Orion class, the dreadnought class, the Lord Nelson class, the Lion class and the invincible classes.

"It is an extensive code dealing with practically the whole of the British navy, including torpedoes, destroyers and submarines, mine layers and mine searchers," declared the solicitor general for Scotland; "there are also code words for Scaflow, Morayfirth and Cromarty."

BRITISH HARVEST RAIN SPOILT
WILL MEAN HIGHER PRICES
FOR CANADIAN WHEAT

New York, Sept. 6.—A cable to the Tribune from London says: The deluge of rain was renewed with increased severity in most parts of England yesterday. In some places rain has been falling continuously for 48 hours. More than half an inch fell in London yesterday, the downpour lasting for nine hours, which means that the remarkable total of more than 3,750,000 tons of water deluged the country around London before 10 a. m.

For 12 hours yesterday Norwich was swept by a rain storm of unparalleled violence, in the course of which a fall of six inches was recorded. This eclipses all previous records in the British Isles.

There seems to be no immediate prospect of improvement in conditions. The outlook is extremely grave for agriculturists. Crops are rotting in the ground. The records show this to be the wettest August since 1881.

Crops Are Ruined.

This is the crucial time for crops. Unless at least a fortnight of good sunny weather gives crops a chance to ripen and be gathered the English harvest will be a total failure. Under

the best conditions the crop will be only fair in quantity, while in quality it will be far below the average.

It is estimated that the continuance of rains and the untoward weather of the last week has cost British farmers close to \$100,000,000 in the destruction of crops, and another fortnight of the same kind of weather will mean a total loss of a quarter of a billion dollars.

The English wheat market is now depending on America's prospects. The crop reports from Canada and the United States are watched anxiously, as it is certain that large imports from these countries this year will be needed.

Prices to Be High.

The total sales of wheat in the London market last week were only 18,500 quarters, at an average price of 35 shilling and sixpence, as compared with 105,600 quarters, at an average price of 31 shillings and eightpence during the same week last year. The prospects of good crops in Canada and the United States, with a large surplus for export, have held the prices down so far, and America is looked to to save the situation in England.

SUPPOSED
TUBERCULOSIS
ANTI-TOXIN

The scientists at the Johns Hopkins' hospital, Baltimore, Md. are of the belief that an anti-toxin has been discovered that may make the human race immune to tuberculosis. For a long time Dr. Louis Hamman and Dr. Charles F. Austrian have been working on a virus, and for several months have been experimenting on rabbits. About six months ago a rabbit was inoculated with the anti-toxin, and later was given an injection of tuberculosis germs. At the end of a month the rabbit showed no signs of ill-health. On the contrary, its appetite improved, and it took on weight. Naturally the formula of the anti-toxin is a great secret with Drs. Hamman and Austrian. The latter has gone to Germany to further his great discovery.

LABOR
SEEMS
SETTLED

Ottawa, Sept. 5.—The Labor department reports quiet conditions throughout the country insofar as regards industrial disputes. Strikes in July did not extend into August, and there are only a few disputes pending. In all cases conciliation boards have either been appointed or are at work.

BETTER BE
PREPARED
FOR BILLS

Officers of the New York Coal Merchants' Association are now agreed that there will be a serious shortage of coal throughout the east this winter, no matter how much is mined during the next two months. The suspension of mining in April and May, it is declared, will be, under the most favorable conditions, a supply one-tenth less than normal this winter.

Independent operators, who are not bound by the schedule prices of the coal carrying companies, have begun to sell anthracite at a premium of 25 cents a ton and upward. The officers of the Coal Merchants' Association insist, however, that there is no necessity for becoming alarmed, because the anthracite will be distributed in such a way that there will be no serious distress.

RUINOUS
RAINS IN
OLD LAND

Continued rain has done \$35,000,000 damage to the British crops it is estimated by high agricultural authorities, who also predict that winter food prices will reach famine figures unless the rain ceases.

Every Home Has
its Purse

Ana 99 out of every 100 unprejudiced people will tell you THE DAILY NEWS is the home paper of Prince Rupert.

Advertisers also tell us and will tell you that results obtained from publicity carried in the columns of this paper have exceeded by far those obtained through any other newspaper published in Prince Rupert

The successful business man today is the one who advertises judiciously, who chooses the medium most generally read by citizens of a community; a business man who does not look upon an expenditure for advertising as an expense, but, on the contrary, as an investment. This type of business man you will generally find in the front ranks of his profession, turning his dollars daily and moving his goods rapidly—and all through the liberal use of newspaper publicity.

Try advertising as an investment, if only for a short time, and watch your business grow.

Let our solicitors call and explain why The News is the best medium through which you should inaugurate your initial campaign.
