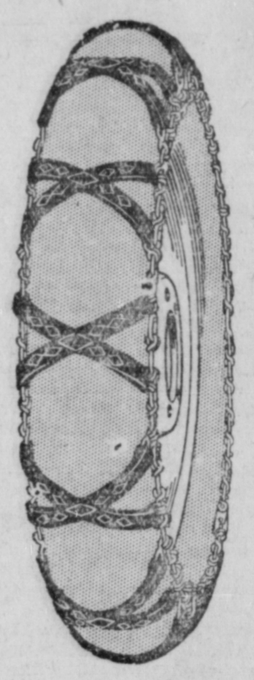
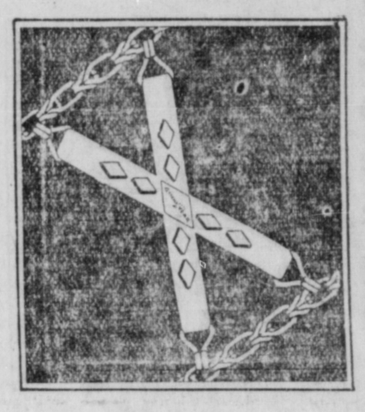
They save the tires *and they* OUTWEAR *any tire chains you ever had*

GOODYEAR rubber Tire Chains overcome all the objections to ordinary chains. *Rubber* cross links is the answer.



They are saving of tires. The broad, rubber cross links guard against cutting or bruising of the tire tread and give valuable protection to the sidewalls. They're quiet. So quiet you can leave them on all the time. They outwear several sets of metal chains.

And yet how they grip. They have the famous All-Weather Tread design magnified for greatest effect. They pull like a tractor through mud or snow.



Now Goodyear Selected Dealers have ample stocks and can supply Goodyear Tire Chains for any size of tire.
