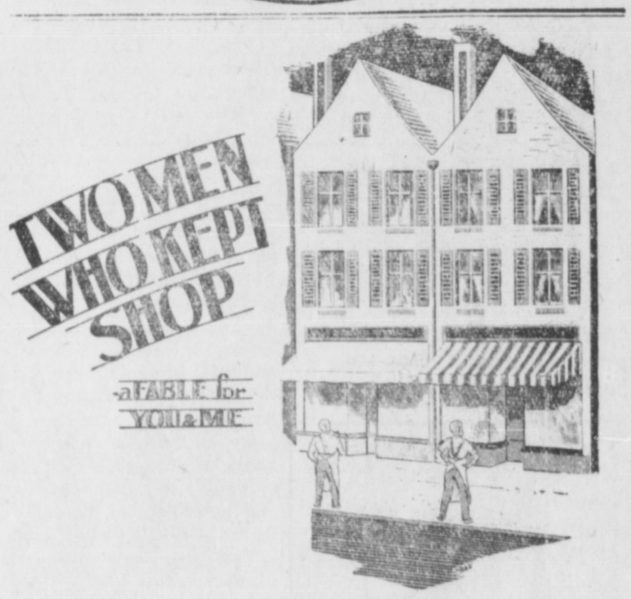
HIS MASTER'S VOICE



ONCE there were two men who kept shop. Both shopkeepers were in the same mode of business, but their methods differed widely. In fact it was only a matter of time, a short time, before one must close.

Now the other shopkeeper was different, he was prosperous. His store looked neat and clean, spruce, tidy and colorful; with a front that bespoke quality and service. Now this shopkeeper was a great community booster. His bid for patronage was based on selling his customers the products of his local industries first. He claimed that the industries in his locality employed men who earned wages, who spent wages, and kept others employed. His pet theory was, the more of Pat's mouse traps he sold the more Pat must make, and the more Pat would earn to buy goods from him, the wise shopkeeper. And so he succeeded and became prosperous and popular, and his philosophy and wise counsel spread rapidly.

Now, there's a moral to this story:

Every dollar paid for foreign made goods departs from your homeland never to return; but, each dollar exchanged for a B.C. product remains in British Columbia and quickly grows in value. It enriches industry, ensures employment and introduces prosperity into the homes of the workers.

This is the third advertisement of a series authorized by the B.C. Products Bureau of the Vancouver Board of Trade in the interests of the manufacturers of British Columbia.
