## SHOPPING DAY

A Port Burwell Eskimo mother leaves a co-operative store with groceries and tobacco for her family. The co-op at Port Burwell on Ungava Bay in the Northwest Territories is one of several set up by Eskimos to market their stone carvings and other handicrafts.

# Death sub plagued by malfunctions

PORTSMOUTH, N.H. (AP) — A U.S. Navy lieutenant says more than a dozen malfunctions were discovered in the nuclear submarine Thresher before she sank April 10 with the loss of 129 men.

Lieut. Raymond A. McCoole, 33, told a navy court of inquiry Thursday the heavy load of corrective work had robbed the crew of sufficient training in disaster procedures.

**However, McCoole testified he feels all the work needed to be done was completed properly and the Thresher was in excellent condition for the sea.**

He also said the Thresher's officers and men "undoubtedly were the greatest submarine group anywhere."

McCoole, electrician officer on the Thresher, was given emergency leave the night before the Thresher sailed April 9 for a deep-sea test dive 220 miles east of Cape Cod. McCoole's wife had suffered an eye injury and he requested leave to stay home.

## DOCTOR BOYCOTT ENDS IN ITALY

ROME (AP) — Government mediation ended today a week-old boycott of medical insurance agencies by 45,000 Italian doctors. The doctors' refusal to co-operate with the agencies provoked demonstrations that turned into riots in the city of Tarano.

Negotiators for the doctors and Italy's 200 state-controlled medical insurance agencies agreed on an immediate 40% increas in fees for the doctors and negotiations to revise fee schedules and simplify the insurance forms the doctors must fill out.

India's people have about 4,800 castes ranging from the top Brahmmins to 55,000,000 untouchables.

# Astronomy professor claims discovery of new planet

TUCSON, Ariz. (AP) — An astronomy professor reported today he has discovered a planet outside the solar system which is 1.5 times as massive as Jupiter.

Dr. Peter van de Kamp, director of the Sproul Obervatory and professor of astronomy at Swarthmore College, said that in mass this new planet all but closes the gap between two stars of low mass and Jupiter, the solar system's largest planetary mass.

Man has identified nine planets in his solar system.

FORT ST. JOHN (CP)—Two men whose light aircraft flipped over when making a forced landing near Fort St. John were picked up unharmed Thursday.

Earlier the men, who landed Wednesday when they became lost in the northern region, reported on a radio transmitter dropped by an RCAF search plane that they were not injured.

The aircraft, a single-engine Aeronca 15, is owned by Merton J. Attwood of Sandpoint, Idaho, who was a passenger. The aircraft pilot was L. M. Peterson, also of Sandpoint.

# Income alone doesn't govern buying habits

VANCOUVER (CP) — Using income alone in assessing consumer buying habits may be misleading says John S. Towgood.

In a report entitled An Investigation of Buying Habits and Social Stratification in the City of Vancouver, Mr. Towgood says that while the bulk of the population today falls into the middle income category, buying behavior, tastes, spending and saving aspirations in this group "can be poles apart."

For this reason, he says, it's necessary to take into consideration other factors such as occupation, education, age and family commitments.

The paper, prepared as a graduating essay for the University of British Columbia's faculty of commerce and business administration, is a 122-page analysis based on answers to a three-page questionnaire.

The questionnaire was filled out by 711 families chosen to reflect the attitudes of the 85,000 families in the Greater Vancouver area.

**DIFFERENT HABITS**

For example, if a woman's husband is under 40 years of age and there are no children, she is more likely to purchase her new dress at a specialty store. Her neighbor, whose husband is over 40 and has children under 19, probably buys her dresses at a department store.

But if the head of the house earns $7,000 a year or more, the odds are the family will purchase furniture at a department store while someone earning less than $3,000 a year may buy his furniture at a specialty store.

His study indicates that although independent downtown and suburban stores are popular with women in both the high- and low-income brackets, chain stores are much more popular with lower income groups.

# Rexall 1¢ sale

GET TWICE AS MUCH FOR A PENNY MORE!

# ORMES DRUGS LIMITED
