COUNTY COURT IN MAY LIGHT

ONLY TWO CASES SET DOWN FOR HEARING THIS MONTH—JUDGMENT IN ONE GIVEN YESTERDAY

Only one new case for May was presented at the monthly session of County Court before Judge F. McB. Young yesterday afternoon. This is an action in which Thomas Pickering and several men are claiming under the Woodmen's Lien Act wages from the defunct Dumont-Emerson logging concern. W. E. Fisher and Williams, Manson & Gonzales are making the claims with Patmore & Fulton acting for the defendants. The actions were set for hearing this afternoon.

In the case of Dudoward vs. Clarence Flewin, the claim of the plaintiff for $50 was allowed with the reservation that the case may be reopened within two months by the defendant who is out of the district. The case had been hanging fire since last August, evidently through inability to get the appearance of the defendant. W. O. Fulton appeared for the plaintiff and W. E. Fisher for the defendant.

At the request of John V. Clyne, counsel for the plaintiff, it was decided to proceed with the case of Rawlings H. Carter vs. H. A. McLean this Thursday. It is a commission case and the sum of $200 is involved. Patmore & Fulton have the case for the defendant.

The case of Brynildsen and sons vs. Gus Egan et al was set over until June.

In The Letter Box

NO RELATION BETWEEN CHRISTIAN SCIENCE HEALING AND WITCHCRAFT HEALING

Editor, Daily News:

An interesting letter appeared in your paper on April 25, by W. H. Pierce entitled "Stories of Witchcraft in Early Days of B.C."

In his letter, Mr. Pierce said "Anyone who compares these heathen practices with those of Christian Scientists, Dr. Price's healing, and Fortune Tellers, does not know what he is talking about."

I would like to explain why the practice of witchcraft, which was described so clearly by Mr. Pierce, has no relation to the practice of Christian Science. Before doing so, however, permit me to also state that neither Dr. Price's healing or Fortune Tellers have anything in common with the teachings of Christian Science.

The weapon used in the practice of witchcraft was fear, as evidenced by these words "Threats of all kinds were used, and through fright, many yielded to their influence, and once more became under the control of conjurors." On page 98 of "Miscellaneous Writings" by Mary Baker Eddy, are the words: "Fear is the weapon in the hands of tyrants."

If the Indians had understood God as being good, rather than being both good and evil, they would have resisted the fear which overwhelmed them. "Submit yourselves therefore to God. Resist the devil, and he will flee from you."—James 4:7.

Christian Science teaches that fear is due to a lack of trust in and understanding of God, for, we read in 1 John 4: 18, "There is no fear in love; but perfect love casteth out fear: because fear hath torment. He that feareth is not made perfect in love."

In contrast to the methods used by the conjurors of witchcraft, I herewith quote from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, page 410, under the heading "Mental Treatment Illustrated," as follows, "Christian scientific practice begins with Christ's keynote of harmony, "Be not afraid!" Said Job: "The thing which I greatly feared is come upon me," and again from page 411 of the same book, we find these words. "The procuring cause and foundation of all sickness is fear, ignorance, or sin."

ARTHUR G. LOTHGREN,
Christian Science Committee on Publication for British Columbia.

WORKINGMAN'S VIEWPOINT.

Editor, Daily News.

In spite of the fact that in every city in Canada there are hundreds of idle, half-starving workers looking for work, a useless quest, which almost always ends in disappointment and despair, the public press is able to fill its columns with stories of prosperity.

Even the local press is not immune from peddling some of the prosperity dope, although all that the editor has to do is to go and see the squalid hovels where the unemployed are forced to live in poverty.

I have been in this country for five years and in all that time I have been consistently looking for the corner around which prosperity is hiding but as yet have not found it. I am now disillusioned so much that the hopes of prospering has given place to the desire to live like a human being, but even that claim denied.

We are constantly being reminded and extolled to look on the bright side, to pursue the policy of optimism as opposed to that of pessimism but in view of the present prospects and past experiences it is extremely hard to follow such a high ideal.

In some of your editorials you have expressed the views of the business elements and their continued faith in the future development of the city, but it should not be forgotten that most of the population is composed of the working class who for the most part live on the present, and being denied the opportunity of even making wages can not be expected to visualize this much desired state of well being.

My reason for writing this is to bring the conditions mentioned before the public and help to dispell some of the illusions on which at present the workers are forced to live.

Thanking you in advance for the publication of this letter.

ALEX. MORRISON.

RATS NOT SO THICK HERE

CITY COUNCIL RECEIVES REPORT ON SITUATION FROM MEDICAL HEALTH OFFICER

A report from Dr. J. P. Cade, medical health officer, to the city council last night expressed the belief that rats were not numerous over the city generally and that there was no such menace as there was several years ago. The report, which was presented in response to a request made by the council two weeks ago, stated that possibly there were a large number of rats at the city dump on Park Avenue and suggested that virus be laid out there. To burn the dump might cause the rats to spread over the city. John Carroll had been formerly looking after the rat situation in the city by laying out virus but it was possible Mr. Carroll might not be able to resume his former position.

The report also suggested that a systematic inspection of sanitary conditions in the city should be resumed, such as had been carried out several years ago. This was something which Mr. Carroll had also been looking after in a manner.

The report was referred to the board of works for report.

SAFETY OF WESTHOLME THEATRE IS DISCUSSED

Building Inspector to Make Inspection on Behalf of City but not for Owners as Asked

Following receipt of a letter from H. G. Helgerson Ltd., agents for the owner of the building, the city council decided last night to have an inspection made by the building inspector to ascertain the safety of the Westholme Theatre. The building inspector will report to the city council but not to the agents as was requested.

The letter from H. G. Helgerson Ltd. stated that rumors had reached their ears that the building was in a dangerous condition. They had asked the building inspector to make an examination but had received no reply. They were now asking, on behalf of the owner, Cliff Ford of London, England, that the council instruct the building inspector to make the examination.

Ald. Collart thought that it was up to the owners to inspect the building themselves and assure that it was in a safe condition. It was not the building inspector's duty to make an examination of a building on behalf of the owners. He believed that they were trying to get an inspection for nothing when they should pay for it themselves.

If anybody were hurt in the building the city might be placed in an ambiguous position, stated the city solicitor.

If the building inspector found that any public building was not safe, the city could demand that the owners put it in shape. The duty of the city ceased, however, after the factor of safety had been determined. It was not necessary for the building inspector to report to the owners but to the council.

Ald. Prudhomme felt that, on behalf of the city, the building should be inspected. If it was dangerous, it should be condemned and its use prevented.

It was decided, on motion of Ald. Prudhomme, seconded by Ald. Collart, that the theatre be inspected and a report as to its condition made to the council.

Ten Years Ago in Prince Rupert

Halibut boats in today include the James Carruthers, 40,000 pounds; Norma, 1,500; Fearless, 3,500; Margalice, 6,000; Mayflower, 2,000 pounds.

Another party of Siberians arrived in town from the north last night. They are on their way overseas for military duties.

There was a merry surprise party at the home of Mr. and Mrs. J. J. Alexander last evening. Those present included Miss Jamieson, Miss May Ryan, Miss Margaret Ryan, Mr. and Mrs. S. E. Parker, Mr. and Mrs. H. S. Parker, Mr. and Mrs. Ed. Stilwell, Miss Louise Astoria, W. Balagno, Charles Balagno, Paul Aivazoff, H. Walford and Lloyd Conant.
