# LABOR LEADER IN THE CITY

**J. S. Woodsworth Addressed a Meeting Last Night and will Be Here Again Sunday.**

Before a good-sized audience in the O. B. U. hall last night, J. S. Woodsworth, one of the indicted and acquitted labor leaders involved at the recent Winnipeg strike trial, delivered an address on "The Winnipeg Strike and Trials." The meeting had been called for 8 o'clock but, on account of the delay of the train on which the speaker arrived, it was about an hour later before the meeting was under way. S. V. Cov was chairman and after the address a collection was taken in aid of the Winnipeg strikers' families.

The speaker, who has an excellent delivery and has been heard here before, lead up to the trials, telling of the strike and the causes and objects of it. It had not been incited through alien or Bolshevik influences but was the manifestation of an honest desire among the laboring classes for higher wages, better conditions and collective bargaining. In passing Mr. Woodsworth mentioned that it was not Canadian born generally who were the leaders in labor movements, but more often those from the industrial centres of England and the British Isles. The Canadians, following professional and business lines, somewhat lost interest in the welfare of the laboring classes, while the British, coming from an industrial country, were trained from a workingman's standpoint.

**Criticized Trials.**

Mr. Woodsworth criticized the way the strike trials were conducted and also the reports that had appeared of it in the press. He said the most reliable information in connection with these trials was given in the labor press. Certain amendments to the immigration laws were criticized, Mr. Woodsworth stating that he did not favor the deportation of aliens. They were now in the country and should be entitled to a square deal. The raids of the mounted police were also mentioned and were described as being quite unfair.

After the address, Mr. Woodsworth readily answered a number of questions that were put to him by the audience. Today he is speaking at Dundas Island and on Sunday he will again speak in the city.

# BUTCHERS WON FROM TINKERS

**Big Crowd Watched Cleaver Wielders Bring Home Bacon in Beating Pipe-Fitters.**

The Butchers brought home the bacon last night and defeated the Tinkers 13 to 11 in a ten-inning baseball game at the Acropolis grounds. Although the game may not have been of professional quality from a skilled standpoint it was quite exciting and a large crowd gathered at the grounds to witness it. All through the game it was backward and forward and neither side could gain much advantage, the score at the end of the ninth being 9-9. In the tenth inning the butchers added three runs while the tinkers could only produce one. Mahogany Tite and Blackie Hunter were the referees and some of the players say their refereeing wasn't much better than the playing. A collection taken netted $28.35 for the dressing room fund.

"Garbage Can" Joe Ratchford and "Plunger" Jack Crossley were the Tinkers' battery, while "Tenderloin" Bob Frizzell and "Brisket" Harry Astoria acted for the Butchers.

# VENEREAL DISEASE CAMPAIGN NOW ON

**Provincial Committees are Being Formed — National Council Meets.**

TORONTO, May 28.—At a meeting of the executive committee of the Canadian National Council for combatting venereal diseases held here a number of important matters were brought forward in connection with the council's efforts to help the Dominion government and the various provincial governments in their campaign against venereal diseases.

The secretary reported that provincial committees have been formed in Nova Scotia, Manitoba and Saskatchewan, while all the other provinces have committees in process of formation.

It was decided that steps should be taken to put the situation as regards venereal infections before physicians throughout the country as well as the government plans, and the use of films and special lectures for the purpose, was discussed.

# BRITISHERS SHOULD BE WELL SATISFIED

LONDON, May 27.—"Britishers should be very well satisfied with the existing situation. They are outstripping the United States in the trade race. I admire perticularly the fearless way in which the taxation situation was faced. The first thing that will happen is that we shall find Britain paying off her national debt in large chunks. Then look out, for things will pick up with a jump." That is the opinion of the head of a New York firm of brokers given here.

"The present taxation here averages about $70 per capita a year, against $25 in the States and France, which shows that Britain is dealing with the taxation question rigidly. There is just a possibility that she may overdo it, for a point is reachable where increased taxation doesn't increase the revenue, but discourages industrial enterprise."

**A NEW AIR SCREW**

A public demonstration is to be made shortly of a new type of air screw, the invention of an Australian engineer. It is made on the turbine principle, both faces of the blade being fitted with a set of fins in staggered relation. Workshop tests have shown that for a given number of revolutions per minute the air speed produced by this propellor is, in comparison with that produced by the ordinary type, as five to three.

It is claimed that the turbine fins can be fitted to ordinary propellers by a simple metal attachment. The fins have the effect of giving the necessary extra strength required to act against any increase of lever action on the leading edge of the blade.

# HART AS "PETTICOATS"

**Gives Himself That Title When He Inherits Modiste Shop**

"John Petticoats" is not only the name of the picture which is coming to the Westholme Theatre tonight. It's the name William S. Hart, who stars in the film, gave himself when he discovered that the modiste shop which he inherited from his deceased uncle was not a saloon, as he in his lumberjack fashion rather hoped, but was a dainty little establishment selling ladies' frocks and furbelows. According to the story, Bill is so put out by this knowledge that he poses as the store detective to hide his ownership of the place. But murder will out, and, after several exciting adventures and a tempestuous love affair, Bill admits his depravity and wins forgiveness and the girl.
