BRINGING UP FATHER

By George McManus

BRITISH WORKERS ARE NOT ALL AMENABLE TO METHODS IN CANADA

WINNIPEG, Sept. 28.—Strong exception is taken to the complaints of British laborers against the conditions in the west, the cudgels in defence of the west being taken up by A. A. Young, of Fowler, Young & Holden, contractors. He declared that his firm is only one of several victimized by gangs of British laborers brought to Canada for the harvest.

Mr. Young reports his own experience, saying: "I went to the Dominion government employment office, Henry Avenue, a short time ago and engaged 27 of these harvesters who had returned, some of them, from the grain fields, and were looking for work. Mr. Jacob, of the employment office, accompanied me and them to the train, for which I had spent $504 in tickets for the gang to go to Edmonton to work on our pipe laying contract from Viking to Edmonton. The gang left as scheduled, but of the 27 only 22 arrived, five having jumped from the train en route. Within a few days 18 more had deserted the job and only four remained at work. They were guaranteed six weeks' work at 50 cents per hour, yet we hear a lot of them yelling that there is no work. I think they do not want work but think they can live on a dole system such as was forced on the British government."

Mr. Young also announced that there is plenty of work at Drumheller, Alta, where his firm is building a sewer and sewage disposal plant. They sent a good-sized gang from St. Boniface to that job recently, and stripped the civic employment office of St. Boniface so thoroughly City Engineer Meinde has found great difficulty in getting enough men for the odd jobs in his department. The only men he could get, willing to work, were the feeble old fellows who were kept busy on street cleaning and such work.

Of the 11,000 brought to Canada for the harvest, Mr. Young says about 65 are making a terrible fuss and giving the country a black eye.

RAPID PROGRESS ON EMPIRE EXHIBITION BUILDINGS AT LONDON

Five Thousand Men Will be Employed on Buildings During Winter

LONDON, Sept. 28. — Rapid progress is being made with the buildings of the British Empire Exhibition at Wembley, on which something like £2,000,000 will have been spent by the organizers and exhibitors when it opens next spring. The foundation stones of the West African and Malta Pavilions have ben laid this week. Over 2,000 men are now at work, and during the winter months the number will be increased to 5,000. The contractors are said to be ahead of time, as some of the buildings are expected to be finished this autumn, and all quite early in the New Year.

The Indian section may be completed early next month, and the Canadian section in the first days of November. In the West African section four compounds (enclosures) are now being prepared as "homes from home," to receive skilled native craftsmen of different types and tribes. A few of the exhibits promised us are a whole Zoo from the Malay States, a reconstruction of a working colliery, a Chinese quarter, and a marvellous display covering every branch of electrical science—the generation, distribution and application of electricity for all kinds of industrial, commercial and domestic purposes.

MAH JONG IS NOT A GAME OF CHANCE

Manila Court Rules That it is Game of Skill and Not Gambling

MANILA, Sept. 27.—Mah Jong, the great Chinese game of dominoes, is not a game of chance. A competent court of the land has ruled thus, and it is so ordered.

The decision was rendered in a case against Teo Tong, Lee Loy, So Chee and Kuong Chang, all Chinese, arrested on the charge of gambling. The case came before Judge Manuel V. Moran, who based his decision on the case of the United States vs. Liong-sin. In his decision, however, Judge Moran regrets the fact that local authorities have not approved any measure regulating the game, as he believes that Mah Jong is a game in which fortunes may be won and lost.

Judge Moran makes a lengthy analysis of the game in which he says that while the element of luck plays an important part in the winning of the hand, the game in itself is one of ability rather than luck. He concludes that the element of luck is limited and as the game advances this element is more and more reduced by the proficiency of the player.

Donald Fletcher, accountant at the British American cannery, Port Essington, passed through on the steamer Venture this morning bound for Vancouver where he will spend the winter.

TERRACE NOTES

A. Oleson returned from Prince Rupert on Monday.

Mr. and Mrs. Warner of Rosswood returned from their holiday on Monday and are spending a few days in town.

Mrs. C. Lindstrom of Remo spent the week end in town.

Mr. and Mrs. McCutcheon of Prince Rupert who have been at Lakelse Lake returned home on Sunday.
