BRINGING UP FATHER

By George McManus

GIRL KNOWN IN THIS CITY SCORES SUCCESS IN MUSICAL STUDIES

Miss Ruth Pryce, Daughter of Local Professor, Wins First Prize For Violin Playing in Brussells

Professor H. Aubrey Pryce, of this city, has just received word from Brussels telling that his daughter, Miss Ruth Pryce, who has also visited here, had secured first prize for her violin playing at the recent examinations of the Royal Conservatory of Music. The ladies' quartette for two violins, 'cello and alto, in which she played first violin, also took first place, winning the "Prix Marie Ererra." With each of these scholarships there is a money prize of 4000 francs.

Miss Pryce is a Winnipeg girl, and received her early training on the violin from her father, Aubrey Pryce, who, previous to the war, was a well-known conductor in that city. She later studied under Emile Couture, many of whose pupils are well known throughout Canada. When Mr. Couture left the prairie city to reside in Montreal her parents, realizing that Ruth would make better progress by remaining under his tuition, sent her to Montreal, where she made such excellent progress and won much praise from the critics for her concert work. Her success abroad has been no less satisfying, for she has already filled concert engagements in Brussels and Paris.

At present Miss Pryce is on a concert tour in France and her father has received a program of a concert in the Salle de Concerts Majestique, Paris, on February 19 in which she played the Sonata by Lekeu.

COPPER GOES HIGHER

France, Germany and England Are Chief Buyers With Other European Countries Also in Market

Domestic buying of copper continued good Saturday with price of electrolytic copper advanced ⅛ cent to 16½ cents a pound delivered to end of May, says Burdick, Logan & Co., Ltd. in their weekly report. Foreign sales were largest of any day in many months with total for Copper Export Association and independents close to 7,000,000 pounds. Germany France and England remain main buyers with the rest of Europe taking metal in good volume.

Some producers are already asking 16⅝ cents a pound delivered and it is predicted by some that continuation of the unusually strong demand will force price to 16¾ cents by Tuesday. Fair sales were made Saturday to British dealers at 16½ cents aside ship New York. This is equivalent to approximately 16¾ cents delivered on domestic shipments.

Inspiration Copper Co. has declared dividends of 50c a share, payable April 2 to stock of record March 15. Last dividend payment of Inspiration was $1 a share, in October, 1920.

In resuming dividends directors of Inspiration Copper Co. simply declared the 50 cents a share as a dividend, but with such a sudden rise in price of copper, directors, evidently thought it best not to attempt as yet to establish the peacetime quarterly rate for Inspiration. With copper selling at 16½ cents and every promise of going higher, and with demand large, the declaration three months from now may be $1 a share. Inspiration Copper Co. is producing at a rate of 9,000,000 pounds a month. This is about 90 per cent of normal capacity although during the war the company produced as high as 11,000,000 pounds for a few months. With the property producing at the rate of 9,000,000 pounds a month, Inspiration's cost of making copper is somewhat under 10 cents a pound, including taxes and all charges except depletion, which is bookkeeping charge.

WIRELESS REPORT

8 a.m.

DIGBY ISLAND. — Overcast; light south-east wind; barometer 29.76; temperature 34; sea smooth. Steamer Prince George passed out at 1.30 a.m. bound for Stewart.

DEAD TREE POINT.—Cloudy; calm; barometer 29.78; temperature 40; sea smooth.

CHAIN STORE PROVES UNUSUALLY SUCCESSFUL

Woolworth Campany Had Remarkable Year and Profits Were Large

NEW YORK, March 8.—F. W. Woolworth Co. had a remarkable year in 1922. Sales and profits were the largest on record; preferred stock was called for cancellation; "good will" was reduced $20,000,000 by draft on accumulated surplus while $10 a share paid on common was the largest ever paid. The result for 1922 was another proof that chain store merchandising with its rapid turnover for cash is profitable. The best illustration is Woolworth's 1922 sales of $167,318,265 with accounts payable of but $659,134 and no bank loans.

J. H. McVety, general superintendent for B.C. of the Employment Service of Canada, will arrive on tonight's train from Prince George. He is returning from Winnipeg where he attended a conference of Western employment officials and will sail for Vancouver on the Prince George tomorrow morning.

J. A. Stephen, assistant public works engineer for the provincial government in Atlin district, arrived on Tuesday from Alice Arm and sailed last night on the Prince George for Stewart. He will be back on the same steamer tomorrow morning.

John Williman, president of the Kleanza Co., Usk, arrived last night from the interior. C. A. Bjornstad, vice-president of the company, will arrive on tonight's train from Minneapolis.

Indian Agent W. E. Collison and Dominion Constable Constable A. J. Watkinson left by the gasboat Murillet this morning for Kitkatla on an official visit. They will be away two or three days.

CHILDREN LOSE LIVES

MONTREAL, March 8. — Two small children were killed in a fire which destroyed a house at the east end of Montreal. Two other children were carried to safety by the mother.

"My Boy was Starving to Death"

"As He Was Getting No Nourishment He Was Gradually Wasting Away."

"Here's a story which will interest every mother. Before my boy was born, I was in such delicate health that the doctor didn't think I would survive the ordeal. For weeks after he was born my life was despaired of, so I couldn't feed him and the poor little fellow was left to the care of friends. He wasn't naturally strong. No care was taken in choosing his food and his poor little stomach became so weakened that he couldn't keep anything on it. As he was getting no nourishment from his food, he was gradually wasting away. Finally, in desperation, we sent for a child specialist and he said that my boy was starving to death. He gave him some medicine and advised a certain diet. The child did improve but somehow couldn't seem to get strong. This went on for four or five years and the boy still continued weak and puny looking. He could not play like other children without having to lie down and rest. My sister who lives on a farm near the sea, said that she could fix him up if I would send him to her. While I hated being separated from him, I was ready to make any sacrifice to get him strong. He was away from me for three months and it was with feelings of great excitement that I awaited his return as my sister had written me that I would be surprised when I saw my boy. When my sister got off the train, I could not believe that it was my own boy that she was leading by the hand. I never saw such a change in any child. He was fat and rosy and full of life with a happy smile! 'What on earth have you done to him,' I said. 'Why,' she replied, 'I simply made him live out of doors, gave him good food—and here's the real secret, I gave him three bottles of Carnol! Before he had taken half a bottle his whole appearance had changed. He got heavier, his face took on a colour and he would run round for hours at a time.' The change in my boy is the most wonderful event in my life. I am a regular 'fan' for Carnol and never lose a chance to boost it. As I write I am looking out of the window and when I see that rosy, active, healthy child running round, I cannot believe that he was once a puny, delicate boy."

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 6-922

Sold by Orme's Drug Store and McCutcheon's Drug Store.
