MAIL SERVICE MAY BE BETTER

Rumor That Canadian National Lines May Take Over Contracts From C.P.R.

There is a rumor prevalent in railway circles, although it cannot be confirmed locally, that the Canadian National Railway is to take over from the other companies concerned all mail contracts that can be handled by them and that the new arrangements will include a daily mail service to Prince Rupert.

The present mail contracts with the C.P.R. are said to be about expiring and these, according to the rumor, are to be taken up by the National line. The plans include a daily mail service to Prince Rupert and the serving of nearby points from this port instead of from Vancouver, as has hitherto been done. This is something that has been often asked by the Board of Trade here and is the logical thing from a national standpoint.

While there is no confirmation locally of the change, it is evidently the move which may be expected as it seems illogical to pay out subsidies to rival concerns while the Canadian people are meeting the deficits on the National Railway losses.

WEDDING LAST NIGHT OF WELL KNOWN COUPLE

Miss Emily Scott of Port Simpson Becomes Bride of John Albert Garner

A wedding of considerable local interest took place last evening when Miss Emily Scott of Port Simpson became the bride of John Albert Garner of New Westminster, Rev. G. G. Hacker officiating. The event took place at their new home, 921 First Avenue, the place until now being occupied by Miss Lena Silver who is leaving the city. Following the wedding, supper was served to about twenty guests at which the toast to the bride was proposed by the officiating clergyman.

FATHER OF PRINCE RUPERT MAN RETIRES

H. D. Johnson Gets Word of Event: Well Known in Railway Circles

J. J. Johnson, father of H. D. Johnson of Prince Rupert, has just retired from the service of the railway having made his final trip as engineer a few days ago. In the Toronto Star is a picture of him and his engine and the Belleville Intelligencer, speaking of his retirement, says:

"Congratulations are due J. J. Johnson of this city who tomorrow celebrates his fifty-first year in the service of the Grand Trunk. Mr. Johnson will make his final trip tomorrow and will then retire to spend his remaining days with his sons and daughters in California. Mr. Johnson, who is now sixty-six years old, began his railroad career at the age of fifteen in the city of Toronto. He followed in order as call boy, cleaner, fireman and then realized his ambition, that of becoming an engineer on this great railroad.

"He received part of his early training at York where he started as fireman. He spent fifteen or sixteen years in a passenger train after which he went on the International Limited for some years. At the present time he is on the Canadian National train running to Kingston thence to Toronto and back to Belleville. Mr. Johnson has been an honored citizen of Belleville for the past thirteen years. He retires with a clean and enviable record and has had no accidents to speak of.

"Mr. Johnson will retire with a remarkable record and will have reason to feel proud of his career. He will receive a pension upon his retirement."

DANCING PENDULUM IS SWINGING BACK TOWARDS DECENCY

Wriggling and Squirming Lose Popularity and Modesty and Propriety Take Place

LOS ANGELES, Aug. 15.—Wriggling, squirming, jazzy dancing is losing its popularity in nearly every part of the United States, and modesty, propriety and reserve are coming back in the dance halls, according to Fenton Bott, national director of dance reform, who attended the summer session of the normal school of American National Association of Dancing Masters here.

The touching of faces, semi-embraces and excess of muscular response to overdone syncopation are now taboo in virtually every dance hall in America, said Mr. Bott. Men and women have swung back to the human normal of propriety and good taste, he said.

Oriental Atmosphere

"The most undesirable of jazz dancing was the result of adding a dreamy oriental atmosphere to highly syncopated music," continued Mr. Bott. "It is almost impossible properly to supervise dancing when the time of the selection is broken up by a great number of beats. When the jazziest of music is played, it is hardly possible for the dancers not to respond.

"Improper deportment off the floors of dancing schools and public halls has become a rarity in the last three years. The campaign conducted by the National Association of Dancing Masters for clean dancing is partly responsible for the change. It is also to be credited to the people themselves.

Days of Polka

"Private clubs and cafes have been beyond the influence of the association, and in these privileged places jazz dancing in the extreme may still prevail, but the bulk of the nation's dancers, those who attend schools and public halls, are dancing with as much modesty, propriety and reserve as ever was seen in the days of the waltz, polka, schottische and their running mates.

"The waltz will never be dropped and the two-step is still with us in the fox-trot, but I believe what is known as the new school of dancing has come to stay.

"The west has adopted the reform more quickly and perhaps more thoroughly than the east."

Sport Chat

With the double purpose in mind of providing a program for baseball fans between now and Fair time and of keeping the players in practice for the several inter-town games that will take place here at that time, the Baseball Association is now planning to stage a three game series between the Married and Single Men of the city. Such a series, it is thought, would provide an interesting and closely contested series for the local talent is well divided between the two classes. Bert Morgan, president of the Baseball Association, made announcement to this effect yesterday.

The provincial government forest cruising party under E. E. Gregg, junior forester, which is arriving in the city on the Prince Rupert this afternoon en route from Anyox to Prince George, possesses a crack football team which contains five players who were formerly with the University of B.C. team in Vancouver. A challenge was sent out by the team to any aggregation in Anyox or Alice Arm. If the team remains in this city long enough it might be possible to have a local aggregation meet them.
