BC Halibut Catch Double During June

Halibut catch in British Columbia in June jumped from 3,000,000 pounds, valued at $663,000, compared with $386,000 pounds valued at $1,160,000.

It brought the total value of fish caught and landed in this province last month to $2,752,000, compared with $?O386,000 in the same month last year.

The Department of Fisheries monthly report says crab, shrimp and oyster were up in June this year but total catches of sole and ling cod were down. Oyster catch was more than doubled.

The trawl fleet, tied up pending price negotiations, returned to the grounds on June 23, but total trawl catch was about one-third of that reported in June, 1951.

The later halibut season was partly responsible for the increase in value in the B.C. catch, the report states.

Both gillnet and troll caught spring salmon were up substantially over a year ago, although average prices for all salmon were down, the department reports.

PROUD DUTY

Britain has seven regiments of "household troops," whose special duty it is to guard the reigning monarch and the metropolis of London.

BLACKWOOD on Bridge

By EASLEY BLACKWOOD

How Should Partner Read Signals at Opening Leads?

Players like Mr. Masters have a lot of ways to sent legitimate messages to partner. Of course, it takes a good, alert partner to understand some of them. How would you have read the message in Mr. Masters's opening lead in this deal?

He decided to open a heart in response to his partner's overcall. Holding four or more of a partner's bid suit, the standard accepted lead is the fourth highest card—in this case, the six spot. But Mr. Masters opened the DEUCE.

Miss Brash won the first trick with the ace of hearts and watched Mr. Dale drop the queen. She was good enough to realize that something funny was going on. Why the deuce? Mr. Dale's queen of hearts looked like a singleton and the bidding of the hand strongly suggested that he actually did have just one heart.

It was clear that Mr. Masters had none of the top honors in clubs or diamonds. Probably he had little or nothing in the spade suit. Obviously, then, he had made his four heart bid principally on distributional values.

East dealer
Neither side vulnerable

North
(Mr. Champion)

C—K J 8 6

South
(Mr. Dale)
S—A K Q 7 6 2
H—Q
D—5
C—Q 9 7 3 2

The bidding:

East	South	West	North
1 H	1 S	4 H	4 S
Pass	Pass	5 H	Pass
Pass	5 S	All pass	

The evidence seemed overwhelming that Mr. Masters had started with more than four hearts. If so, his duece lead being an unnatural lead must be a signal of some sort. After some thought Miss Brash figured the lead of the lowest heart was asking for the return of the lower of the other two plain suits; in other words, clubs.

On this reasoning, Miss Brash forgot about a trump return, which she had at first considered, and led back a small club. Mr. Masters ruffed and subsequently Mr. Dale could find no way to avoid the loss of a straight club trick, for down one.

Forest Value Rises Yearly

Value of British Columbia's forests is increasing yearly with new uses being discovered for the raw materials, Leander Manley, secretary of the Canadian Pulp and Paper Association, western division, said in Vancouver.

"Our forests account for 54 cents out of every dollar in B.C. today, but by 1960 it may well be 60 cents.

"Forests temper our climate, regulate stream flow and protect hillsides from erosion.

"Everyone has a part in a huge co-operative effort to make our forest lands grow more wood continuously."

He said such a program depends on sustained yield management, including replacement of trees, wild life and plants in logged off areas.

New Oil Tanker Launched Today At Collingwood

Special to The Daily News

COLLINGWOOD, Ont. —Marking another step forward in Canada's oil development, the hull of one of the world's largest fresh water tankers was launched here at noon today.

Premier Leslie M. Frost of Ontario officiated at the ceremony for the British American Oil Company's new ship.

Mrs. Milton S. Beringer, wife of the chairman of the board of British American Oil, sponsored the vessel. As champagne splashed over the 620-foot vessel's bow, Mrs. Beringer named her "B-A Peerless," and the big ship slipped sideways down the greased ways into the launching basin.

After outfitting and subsequent trial runs this summer, the tanker will carry western Canadian crude oil from Superior, Wisconsin, to B-A's refinery at Clarkson, Ontario, 20 miles west of Toronto.

The ship has a top speed of 16 m.p.h., and brings to 22 the number of ocean and lake tankers operating under charter to B-A. She was built in the Collingwood shipyards at a cost of approximately $4½ million.

Polio Cases Increases in U.S.

WASHINGTON (AP) — There were 1,392 new cases of poliomyelitis reported over the United States last week, compared with 1,047 in the preecding week and 794 in the comparable 1951 week.

Announcing this, the public health service said the total for the "disease year" which began with the week ended April 5 has reached 5,406 cases, compared with 5,313 in the similar period of 1949 and 3,351 in the period last year.

Bunyanesque Tools

BURNABY, B.C. (CP)—Evidence that giants once inhabited British Columbia has been found by W. E. and E. M. Norman, a father and son geology team here.

In a 30-year search of their two-acre plot they found weapons only supermen could use—200 to 300-pound granite axes, huge belt axes, knife handles and spears.

Pakistan Banking

KARACHI (CP)—Eight banking experts from the United States, Britain and other countries are expected here soon to train Pakistan in banking. The National Bank of Pakistan also is going to send four officials to England for specialized training in foreign exchange.
